Financial Aid—The Basics

Types of Aid
• Scholarships
• Grants
• Student Employment
• Loans

Sources of Aid
• Federal
• State
• Institution: Central
• Institution: Non-central
• Institution: Endowed
• Third-Party
  • Examples: employers, non-profits, government agencies, private parties
Financial Aid—The Basics

Merit-based scholarship process:
• Application for admission serves as initial application for scholarships; no separate application to complete for most awards
• Highest-value awards programs host competitive processes in winter and spring
• May 1 National Candidate’s Reply Deadline to accept scholarship
• Typically only available for fall starts (different approach in pandemic)
• Regional scholarship timelines different and later
• Upperclass: automatic renewal per criteria; additional awards via upperclass scholarship application

Need-based aid process:
• FAFSA opens October 1; must file annually and be received by February 15 first-priority date (*will return to January 15 for 2025+*)
• EFC to be replaced by “Student Aid Index” for aid year 2024-25
• Packages issued in March for new students, April for continuing students
FAFSA Simplification Impacts

2024-25 timelines:

• FAFSA Release Date – previously October 1, now “in December”
  Students and parents can apply for an FSA ID now!

• First-Priority FAFSA Receipt Date – previously January 15, now February 15

• Freshman Packaging – previously late-February, now in March for 2024

• Continuing/Transfer Packaging – previously late-March, now April

FAFSA changes to remember:

• The FAFSA requires parental information for most students. (No “guardian” on FAFSA.)

• For divorced, separated, or unmarried parents, the parent required on the FAFSA is the parent providing the most support to the student in the past 12 months, and that parent's spouse, if married.

• Household size based on dependents listed on 2022 taxes.

• Expected Family Contribution (EFC) is replaced by the new Student Aid Index (SAI).

OHIO’s Aid Optimization
History and Goals
Financial aid leveraging is the strategic investment of financial aid funds to help campuses enroll the students they desire, control discounting and financial aid expenditures, and achieve the net revenue they need. It also helps institutions pinpoint the amount of aid students need to enroll.”*

What should a contemporary scholarship program do?

Priorities and Tradeoffs

A contemporary scholarship program might prioritize any of the following objectives:

• **Improve enrollment:** Headcount, FTE, credit hours
• **Maximize revenues:** Net tuition, net total, total lifetime
• **Manage discount rate:** Tuition and fees discount, total discount
• **Increase diversity to achieve educational benefits:** Race, ethnicity, gender balance, first-gen status, geography, citizenship
• **Improve or shape academic profile:** Major mix, quality indicators, program demand, capacity limitations, program goals
• **Achieve socio-economic objectives:** Affordability, access, socio-economic mobility, minimizing borrowing, preventing default
• **Motivate and support student success:** Retention, persistence, and graduation goals
• **Achieve programmatic goals:** OHIO Honors, alumni engagement, talent-based programs, etc.
• **Improve reputation and brand:** Generate interest, solicit applications, increase yield
• **Anticipate and respond to competition:** Net price comparisons, price sensitivities
Key Principles in Approach to Scholarship Leveraging
Beginning Fall 2021 (FY22)

• **Prioritize enrollment rebound** when optimizing the model.

• **Consider total lifecycle enrollment revenue and SSI** in any ROI analysis.
  - Tuition + fees + housing + meal plan + SSI* over all terms of enrollment
    *SSI revenues are deferred, realized over period of up to 7 years

• **Front-load “merit,” shifting awards more toward the fall** while still addressing need.

Fall 2023-2024 / FY24-25

• Further enhance efforts to balance net tuition revenue and enrollment goals.

• Prioritize geographic rebound and maintain academic quality, including predicted retention.

• Prepare for intentional observation of deadlines to manage enrollment, quality, and NTR.

Considerations for OHIO’s Financial Aid Optimization

- Management of price position, including net price
- Ongoing analysis of market intelligence and research
- Incorporation of more contemporary modeling tools
- FAFSA changes and Student Aid Index
- Elevation of reputation and brand
- Studying impact of renewal guidelines on retention
- Evolving corporate and employer incentive scholarship strategies
- Evaluating international scholarship approaches
Price position impacts discount strategy. But “price” is not singular, and competitive price position lags reality. Multiple versions of price are considered in the college search. IPEDS feeds most college search engines, including Google, and trails actuals by up to three cycles. Strategies to impact price position can vary by point in the cycle.
Emerging from the pandemic and a period of enrollment decline, OHIO’s rebound in first-year enrollment out-performed most OHIO publics.
