Requirements to Maintain Your Graduate Appointment

Maximum hours of total employment are 20 hours per week, on or off campus. Graduate appointment recipients may not accept other full-time employment, either within or outside of the University. Graduate students cannot have two full-time graduate appointments.

Registration Requirements

- Minimum registration requirements must be met in order to retain a graduate appointment and/or tuition scholarship. See Table 1.
- Courses numbered 5000 or above and carry graduate credit. Use care to register for the graduate level in dual-numbered courses.
- Hours taken for Audit and undergraduate courses cannot be used to meet the minimum graduate hour requirements. Note: if you are registering for undergraduate courses, your total registration hours are a combination of the undergraduate AND graduate credits. Be sure you are registered for the minimum graduate credits to satisfy your appointment requirements (see Table 1) before adding undergraduate credits.
- Some departments/schools may require more registration hours. Register during the posted registration times to avoid late registration fees. To receive/retain your tuition scholarship, you must be registered for the required number of graduate credit hours by the second Saturday of the academic term (thirteenth calendar day) during Fall and Spring semester (for summer, refer to the individual course registration schedule). Late registration to bring your registration to the minimum requirement will incur fees.
- Under unusual circumstances, limited exceptions to the minimum enrollment level may be granted. Requests for exceptions should be sent with the department/school and college approval to the Associate Dean of the Graduate College for consideration.
- Failure to comply with graduate appointment requirements, including registration for the required number of graduate hours, could result in the termination of the entire graduate appointment. This could result in the student being responsible for all tuition scholarship charges.
- Any registration hours exceeding 18 credit hours will incur an additional cost per credit hour to the student as determined by the Ohio Board of Trustees.
- Course hours dropped after the second Friday of the semester remain on your schedule as withdrawn. Withdrawn hours are counted in your total registration hours for the purposes of your graduate appointment registration requirement. (For summer registration dates, refer to the individual course registration schedule.)

Service stipend payments can be direct deposited or payable by check, mailed to a student's permanent mailing address. Pay slips can be viewed [online](#). The Enterprise Business System requires login with your Ohio ID and password. Click *My Personal Information* for pay slip, W-2, tax statements, and other documents.

Fellowship and loan funds are disbursed through the Office of Student Financial Aid and Scholarships and are posted to the student account. **Any outstanding balance in the student account will be paid prior to any excess credits being issued to the student.** Students can receive excess credit funds in the form of a direct deposit or check from the Office of the Bursar. Students can enroll in direct deposit through the My OHIO Student Center under the Finances section. Paper checks are only mailed on Fridays from the Office of the Bursar. Additional information regarding direct deposit can be found at the following [Office of Bursar web page](#).

Fellowship appointments and tuition scholarships are posted to student accounts AFTER the student is registered for the required number of graduate hours.

Term Limits for Tuition Scholarships

Eligibility for a tuition scholarship is based on the number of semesters in which a student has received such a scholarship at Ohio University. The rules set the MAXIMUM number of semesters in which a student could receive support. Colleges and programs may have more restrictive limitations than the university policy. The counting of semesters of eligibility does NOT include summer semesters. Any student who receives any tuition support from the University will be considered to have received a tuition scholarship.

A graduate level student with an awarded graduate level degree from ANOTHER institution can receive no more than 10 semesters of tuition scholarship from any department or combination of departments.

A graduate level student without an awarded graduate degree from another institution or one who has earned a graduate degree from Ohio University can receive no more than 12 semesters of tuition scholarship from any department or combination of departments.

Students who have reached the maximum number of semesters of tuition scholarship are NO longer eligible to receive a tuition scholarship from any Ohio University program or department. Students can continue to receive a stipend without a tuition scholarship.

Notice of Renewal/Non-Renewal

Graduate students seeking continuation of stipend and scholarship support must follow all departmental policies and procedures pertaining to renewal of that support. Additionally, Graduate Council guidelines state that graduate students holding graduate appointments written for an academic year must receive notice of renewal or non-renewal of that appointment no later than the end of spring semester. This provision does not apply to appointments terminated early or not renewed for academic or service performance reasons. In such cases, no prior notification is required.

Graduate students holding graduate appointments written on a semester basis must receive notice of renewal or non-renewal of appointment at least one semester before the end of that appointment period. Graduate students holding spring semester appointments must be notified no later than the end of the spring semester of renewal or non-renewal for fall semester. This provision does not apply to appointments terminated early or not renewed for academic or service performance reasons. In such cases, no prior notification is required. Notification of summer semester appointments can be made as early as practicable.

Withdrawal Policy for Graduate Appointments

Graduate Tuition Scholarship: An awarded tuition scholarship is withdrawn from the student's account if the student withdraws within the first fifteen calendar days of the semester. The student is responsible for the full 20% withdrawal assessment. An awarded tuition scholarship remains on the student's account if the student withdraws after the first fifteen calendar days of the semester, provided the student was registered for the correct number of graduate credit hours at the time of withdrawal. The student is responsible for the balance of tuition and fees assessed, as well as any other charges incurred. (For summer, refer to the individual course registration schedule.)

Stipends: Students who withdraw from all classes are paid a pro-rated portion of their stipend award, based on the actual number of days worked prior to the withdrawal.
