The OHIO Honors Program
Honors grounded in experiential learning

Taking what you learn in class beyond the classroom

- Blend of in-class and out-of-class experiences
- Interacting across majors (interdisciplinarity)
- Reflecting on what you learn to prepare for the future
- Regular workshops/panel discussions

Focusing on three pathways:

- Community engagement
- Research & creative activity
- Leadership
In-class experiences (curriculars)
• Seminars taught by OHP or designated program faculty
• Honors components in traditional courses
• Department-level honors
• Designated service-learning classes
• Graduate classes with instructor permission

Outside the classroom (co-curriculars)
• Professional internships
• Study abroad/away
• Research apprenticeships
• Student leadership/peer mentorship positions
• Work with nonprofit organizations
• And many, many more!
Annalora Nguyen

“As a freshman, the OHIO Honors program helped me to integrate quickly into college life. It provided me with a diverse group of peers and an endless supply of resources and opportunities. I feel that Honors caused me to explore and consider opportunities such as research or internships sooner than most freshmen. As a sophomore, program advisors continue to recommend experiences tailored to my interests and major.”
Carolyn Rhodes spent the summer interning with the U.S. Army Corps of Engineers, working on surveying projects in the Mojave Desert in California and other parts of the western U.S. The Corps extended her position into the academic year, so she continued to process data and do field work on weekends and during breaks in the academic calendar.
Program requirements

- **14 OHP experiences over 4 years**
  - Average of 2 experiences per semester
  - Approximately half curricular and half co-curricular
  - Total number of experiences adjusted for early graduation

- **Fourth-year portfolio and presentation**
  - Foundation provided through ongoing reflection process throughout OHP experience
  - Capstone class available for additional guidance
First-year experience

Fall Semester
• HC 2400: Introduction to OHIO Honors AND/OR designated program course
  • 1 credit hour
  • 1 curricular experience

Spring Semester
• HC 2401: OHIO Honors Engagement Lab
  • 1 credit hour
  • Project-based, interdisciplinary groups
  • 1 curricular and 1-co-curricular experience
Benefits of participation

• Access to database of more than 150 in-depth co-curricular experiences!
• Honors and scholars housing: not mandatory, but a nice option!
• Priority registration: You get to sign up for classes before other students of your class standing!
• An Honors advisor in addition to your primary college academic advisor!
• Honors designation on transcript and diploma!
• Deep engagement with campus leaders and community partners: networking at your fingertips!
OHIO Honors-Designated Programs

In addition to operating as a stand-alone, campuswide program, OHP also serves as an umbrella for other Ohio University honors and scholars programs. Many required courses and activities for these designated programs also fulfill OHP requirements. OHP-designated programs are:

- **Copeland Scholars** (College of Business)
- **Connavino Honors** (Patton College of Education)
- **Scripps Innovation Scholars** (Scripps College of Communication)
- **Templeton, Rankin, Urban, and Appalachian Scholars** (Office of Multicultural Student Access and Retention)
- **Cutler Scholars**
Registering for fall classes

Most OHP students will register for **HC 2400: Introduction to OHIO Honors**. However, if you are a student in the **Russ College of Engineering** or one of the **OHP-designated programs**, you are required to take a program-specific course in place of or in addition to HC 2400. See details for each program below:
