RE: FY98 Annual Report Tables

Attached are final versions of all tables for the FY98 annual report for the Office of Research and Sponsored Programs. I have modified the format slightly from last year. The table numbers do not correspond to previous years (i.e., Tables 4,5 and 6 do not represent the same information as Tables 4,5 and 6 from prior fiscal year reports).

The figures listed in the "Actual" columns have been adjusted to reflect the actual contribution of each department and/or center in awards shared by more than one unit. Future reports beginning with FY99 will only contain "Actual" figures. This planned modification to the report is an effort to better align our new data collection system with a more efficient reporting process. Adjustments for dual listings were completed as follows:

1. Awards shared by more than one department are listed at full value in both departments in the unadjusted data. In the Actual column, only the percentage of the value of each investigator's share is credited to the department.
2. Awards shared by a Center and one or more departments are credited to each unit in the unadjusted data. In the Actual column, the full value of the award is credited to the Center, with the departments receiving no value for the award, unless the department faculty member is not affiliated with the Center, making it a true collaboration between independent units.

As you are aware, a staffing shortage has presented a bit of a challenge to the department in meeting its reporting requirements. Thank you for your patience.

If you have any questions about these data, please call me at 593-2856.
