Re: FY00 Annual Report Tables

Attached are final versions of all tables for the FY00 annual report for the Office of Research and Sponsored Programs. These tables are representative of the data that is currently collected via the InfoEd database which serves as the primary repository of award data for the institution.

I view this report as a baseline from which to build. Communication with Tim is ongoing, as we strive to fully automate the enclosed tables; with the hope that additional reporting capability will follow as the source code becomes more robust. Of course, future report design and development will be dependent on comments received about this baseline – and our ability to modify output and/or the collection of additional data that is considered to be valuable.

Please review these tables and let me know if there are modifications that you desire.

Variations in the report may be more easily reconciled by referencing the following notes:

- 1) In most cases, Center and Institute award dollars are collapsed into the figure reported for the responsible unit. If prior year reports included a separate line for a center or institute, the format has been continued as a reference point for easier comparison.
- 2) The College of Education was realigned to reflect three function areas, and prior year figures for now obsolete units were rolled into "Dean's Office" line.
- 3) In an effort to align departments with current College assignments, the Kennedy Museum (Other) was moved to Fine Arts College and the Center for Public and Environmental Affairs (Other) was moved to Voinovich Center (Arts and Sciences). Respective totals for this movement have been adjusted.
- 4) The Telecommunications Center was also moved (effective FY99 Report) to College of Communications from Regional Higher Education. Again, totals were adjusted.

If you have any questions about these data, please call me at 593-9984.
