FEDERAL AND STATE LAWS

As defined in the Higher Education Act of 1965 and amended by [Stop Campus Hazing Act of 2024](#), codified as 20 U.S.C. 1092(f)(6)(A)(vi), hazing is defined as:

“any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons) against another person or persons regardless of the willingness of such other person to participate, that is committed in the course of initiation into, an affiliation with, or the maintenance of membership in a student organization and causes or creates a risk, above the reasonable risk encountered in the course of participation in the institution of higher education of physical or psychological injury.”

As defined in section [2903.31 of the Ohio Revised Code](#), hazing is defined as:

"Doing any act or coercing another, including the victim, to do any act or initiation into any student or other organization or any act to continue or reinstate membership in or affiliation with any student or other organization that causes or creates a substantial risk of causing mental or physical harm to any person, including coercing another to consume alcohol or a drug of abuse, as defined in section 3719.011 of the Revised Code."

Hazing is a form of power-based violence. Hazing can occur with power differentials in all types of relationships regardless of membership status, including an initiate, an individual seeking reinstatement, a current member, or a current student with inactive status. In part, hazing is an attempt to exert control or influence from one person to another. What constitutes hazing is a dynamic and changing set of circumstances that requires a situational response.

In the event of a conflict between the definition of hazing in Section 2903.31 of the Ohio Revised Code and the definition set forth in 20 U.S.C. Section 1092(f)(6)(A)(vi), the federal definition shall prevail.
