- No claims to file for UHCSR members

\*Telephone services and/or video chat availability is determined by state requirements.

\*\*When services are obtained during the policy effective dates.

HealthiestYou is not health insurance. HealthiestYou is designed to complement, and not replace, the care you receive from your primary care physician. HealthiestYou physicians are an independent network of doctors who advise, diagnose, and prescribe at their own discretion. HealthiestYou physicians provide cross coverage and operate subject to state regulations. Physicians in the independent network do not prescribe DEA controlled substances, non-therapeutic drugs and certain other drugs which may be harmful because of their potential for abuse. HealthiestYou does not guarantee that a prescription will be written. Not available in Arkansas; limited services in California, Idaho, Iowa, Louisiana, and Texas.

## **Remote Access to Licensed Medical Doctors with HealthiestYou**

We've partnered with HealthiestYou to provide your students with round-the-clock access to board-certified physicians. When students are unable to visit their Student Health Center, (e.g., nights, weekends, school holidays and travel) they can connect with a physician via phone and/or video chat\* using this nationwide telehealth service. During a physician consult, students will be able to speak to a physician for diagnosis and treatment of over 70 percent of acute illnesses.

Healthiest You also offers notifications via smart phone app; students may receive a notification when they arrive at an Emergency Room or Urgent Care Center. This notification will serve to remind your students they have the ability to speak to a doctor without having to sit in a waiting room.
