A. Report on Regional Campuses Library Network
Gary A. Hunt, Associate Director, Alden Library
and Director of Special Collections

Mr. Hunt described the library interconnection between the Athens and Regional Campuses as one improving the entire university information environment. A major system aspect of this effort was the development of an Automated Library Information Catalog Entry (ALICE). He noted, ALICE, which was operational in 1983, opened numerous possibilities among the campuses because of its machine readability access to records of books and periodicals.

Mr. Hunt explained within the university library system the Athens and Lancaster campuses were totally on-line and interactive, and the campuses of Belmont County, Chillicothe, Ironton and Zanesville operated with dial-in systems. He cited uses of the ALICE system by faculty and regional business people as an indication of its practical application. He concluded his remarks by stating one goal of the Library was to make all campuses totally interactive and to upgrade the telecommunications capabilities at each location.

B. Report on Capital Improvements Requests
Alan H. Geiger, Assistant to the President
and Secretary to the Board of Trustees

Dr. Geiger, utilizing slides, summarized capital planning information before the Trustees for their action. He described the capital planning process as one based on previous Board direction, including the "Space Utilization and Management Study" and its physical development guidelines. Referencing an earlier presentation by President Ping, Dr. Geiger outlined the rationale utilized in considering the use and physical condition of facilities as a method of rating capital needs.

1. 1987-88 Operating Budget

RESOLUTION 1987--916

WHEREAS, the Board of Trustees received the Program Planning Report and approved the outline of the 1987-88 budget plan, which reflected different levels of state support, at their April 11, 1987 Meeting, and

WHEREAS, the General Assembly has not yet passed an appropriations bill, and

WHEREAS, the state subsidy contained in Am. Sub. H. B. 171 passed by the Senate approximates that contained in the Program Planning Report as Option C.

NOW, THEREFORE, BE IT RESOLVED that the 1987-88 budgets of expected income and expenditures as presented in Exhibits I, II, III, IV, V, and VI are hereby appropriated subject to the following provisions.

1. The Provost, with the approval of the President, may make adjustments in instructional and general operating expense allocations, providing the total does not exceed available unrestricted income.

2. Expenditures for designated and restricted funds estimated on Exhibit I shall be limited to the income generated.

BE IT FURTHER RESOLVED that if the General Assembly fails to pass an appropriations bill approximating the Senate passed version of the bill for student subsidy, or passes an interim budget with funding significantly lower than the Senate passed version, the President shall implement an alternate budget commensurate with available revenue. If state support is reduced, the President shall review all income including tuition and other income, and all expense budgets and present an alternate budget to the Board of Trustees for action at their next meeting.

SPACE UTILIZATION AND
MANAGEMENT STUDY GUIDELINES

1. The historical and architectural uniqueness of the Ohio University campus will be preserved by remodeling and restoration of existing buildings. Grounds, gardens, walkways, landscaping will receive attention to maintain and enhance the appearance of the campus. The College Green, a 175 year old legacy of the people of the Athens community, the State of Ohio and the nation, will reflect the campus heritage as Ohio's first university.

2. Ohio University will maintain instructional and general facilities for a maximum student population of 15,000. The facilities will serve undergraduate, graduate and professional education, research activity and the needs of a residential student population.

3. Ohio University will remain a residential campus housing a major portion of the undergraduate students on campus. The design capacity of the dormitory system and apartments will level at approximately 6,000 spaces.

4. Space requirements for academic departments, student services and support units will be based on (1) long range program plans; (2) need analysis reflecting realistic national and state standards for space; (3) instructional enrollment projections.

5. Since present space exceeds relevant standards for some types of space and for enrollment projections, the campus development plan will describe both restoration and phased processes for a net reduction over the next five biennia of 10 to 15 percent of total space maintained by the university. Where space has definite potential for alternate use, the facility will be preserved. When the space change involves the replacement of obsolete or undesirable space, the space to be replaced will not be vacated until replacement space is available. A decision to demolish any space will require approval by the State Architect and action by the Board of Trustees. Such action will be based on detailed analysis of condition, possible alternate uses, new program potential, cost and energy savings.

6. Restoration of existing facilities rather than new construction will be the major goal of the long range plan. Replacement of facilities will be undertaken only when analysis makes it clear that current facilities are not suitable for restoration, or that remodeling will not provide appropriate spaces of the needed quality or type. Replacement will be considered where there is evidence of major operating cost and energy reductions or potential to improve dramatically the quality of instruction and research.

GUIDELINES FOR SPACE PLANNING
Ohio University
Adopted by Board of Trustees
June 24, 1978
PHYSICAL FACILITIES OVERVIEW - ATHENS CAMPUS

Every building supported by the general fund was surveyed by the Architectural Firm, Richard Fleischman Architects, Inc., with a charge to: 1) Confirm basic dimensions, 2) Photograph existing conditions of buildings and sites, 3) Analyze physical characteristics, including primary structural and exterior footings, foundations, walls and windows; interior HVAC, plumbing, electrical, lighting and emergency systems; and 4) Determine compliance of exits, corridors, hardware, extinguishers, sprinklers, fire alarms, handicapped provisions with code requirements.

To contain costs and to free dollars for salaries and support of instructional and research programs were primary objectives of the study. Two principal strategies were central to the planning: (1) Efficient Utilization, and (2) Reduction of Space. Progress in these two strategies is illustrated on the three attachments.

Present and anticipated uses of facilities were explored in a series of conferences with affected units. Utilization of space was analyzed and compared with state and national standards.
As a result of this study and discussion every building was grouped into one of four categories and a preliminary description of capital improvements was developed. Conceptual drawings of possible renovation and remodeling were developed as recommendations by the architect. The four categories are:

I. REMODEL
   To alter an existing building without adding to its gross square feet. This work can range from refurbishing of fixtures and finishes (paint, lighting, roofing) to demolition and construction of interior walls, floors and ceilings.

II. REMODEL/EXPAND
   To alter an existing building by changing its physical structure and by adding new gross square feet.

III. RETAIN/MAINTAIN
    To continue the operation of a building as it exists, with the only improvements being of a maintenance type (repair, repainting).

IV. DISCONTINUE
    To remove a building from General Fund Support.

PHYSICAL FACILITIES OVERVIEW - REGIONAL CAMPUSES

The five regional campuses are housed in ten permanent buildings totalling 587,165 square feet. These facilities were constructed between 1967 and 1985, with more than seventy (70%) percent of the total square footage coming on line in the late 1960’s.

The primary thrust of the FY 1989-1994 Capital Improvements Plan for these campuses will be to renovate and improve existing facilities and parking areas, expand on preventive maintenance programs, and continue to address energy conservation needs. None of the regional campus facilities have received major rehabilitation or renovation since their construction. All the campuses serve the nontraditional student, and as a result, renovations and remodeling are necessary to support this mission.

An aging physical plant is causing problems for the restrictive regional campus maintenance budgets. Major capital expenses such as roof replacements, parking lot improvements, exterior painting, etc., cannot be absorbed by these budgets and must be funded to defer major maintenance and to protect the original capital investment.

3. Innovation Center Research Park Authority Modification
RESOLUTION 1987-918

WHEREAS, the Ohio University Board of Trustees established the Innovation Center and Research Park Authority (ICRPA) by Resolution 1983-674, and

WHEREAS, the Ohio University granted a lease of 115 acres of former Athens Mental Health land to the Athens County Community Urban Redevelopment Corporation (ACCURC) for redevelopment of the former buildings on the 115 acres, and

WHEREAS, ACCURC desires to relinquish its lease with the University and its members assume an advisory capacity.

NOW, THEREFORE, BE IT RESOLVED that after ACCURC and the Ridges are dissolved, former members be appointed to an advisory group to be designated the Ridges Advisory Board (RAB), for the purpose of reviewing proposals for the redevelopment of the buildings and grounds.

AND, BE IT FURTHER RESOLVED, that the Ohio University Board of Trustees hereby expands the ICRPA to eight (8) members to include the appointment of the Chair of RAB to the ICRPA.
In 1983 the Ohio University Board of Trustees through Resolution 1983-674 established the Innovation Center and Research Park Authority (ICRPA) to administer the Ohio University Innovation Center and the development of the Research Park. The original resolution called for the appointment of seven (7) members to the ICRPA by the Ohio University Board of Trustees; and the University has concluded the ICRPA should be expanded to eight (8) to include the Chair of the Ridges Advisory Board (RAB), which will be formed to assume some aspects of the role of the current Athens County Community Redevelopment Corporation (ACCURC). The Ridges is the name ACCURC chose to identify the 115 acres leased from the University for the purpose of redeveloping the buildings and grounds. However, ACCURC has had difficulty in accomplishing its goals and its members have raised concerns about personal liability. University officials, following consultation with ACCURC, recommend that (1) the lease to ACCURC be cancelled with the University assuming responsibility for ACCURC's one existing sublease; (2) the University assume the responsibility for future redevelopment of the Ridges; (3) ACCURC be legally dissolved; (4) the RAB assume an advisory role in the redevelopment; and (5) the Chair of RAB be appointed to serve on the ICRPA.

In order to replace ACCURC, and its companion tax exempt organization "The Ridges", these organizations will be legally dissolved and ACCURC's limited assets will be applied to its obligation to Bank One, Athens. The RAB will be a volunteer advisory board appointed by the President of Ohio University, and will consist of approximately fifteen (15) members of the Athens community who will serve for indefinite terms at the President's discretion. Their role will be to select one of their members as Chair to be a member of the ICRPA; and more generally to review and advise the ICRPA on matters primarily relating to the redevelopment of the former AMHC buildings and grounds. It is intended that there will not need to be a formal organization of the RAB, and the President will request advice from the members for particular proposal(s) for submission to the ICRPA. It should be noted that when serving on the RAB the individual members will be covered by the University's insurance policies similar to the Trustees and University employees.

The attached resolution has been proposed for the Board's consideration to accomplish this; and the University staff will be available to review this matter at the Board meeting.

Thank you.

RESOLUTION 1987—919

WHEREAS, The Ohio University Board of Trustees on May 29, 1970 resolved that, "the Trustees have determined the East State Street Airport (previous Airport property and the current Home Street property identified as Parcel 1) will not be required after our aviation program is moved to the Albany Airport for the use of the University, nor will it be required for future use of the University", and

WHEREAS, as a result of the 1970 action, the University administration did advertise the area for development, and following considerable discussion and negotiation with involved parties, did accept a development proposal on December 14, 1972, and

WHEREAS, development possibilities for Parcel 1 have not materialized to date, and

WHEREAS, the Ohio University Board of Trustees on April 11, 1987 authorized the President to approve changes of use of Parcel 1, and have Parcel 1 returned to the university by cancellation of the Lease with the Kroger Co., which will be accomplished through an Addendum to Lease, and

WHEREAS, Bob Evans Farms, Inc. has presented a proposal for the use of a part of Parcel 1 for further commercial development, specifically to build a Bob Evans Restaurant, and

WHEREAS, the Ohio University Board of Trustees has given consideration to the best interests of the University, and particularly sees a positive benefit and impact upon the Athens community if a new Bob Evans Restaurant is built.

NOW, THEREFORE, BE IT RESOLVED that The Ohio University Board of Trustees takes the actions as described herein in accordance with Section 123.77 O.R.C.

1. The Board reaffirms its previous statements that Parcel 1 is not required for the educational purposes of the University, and that the best interest of the University is served by further development of the remaining property as aforementioned.

2. The Board approves the terms and conditions of the lease as recommended by the President.

3. The Board authorizes the President of the University, or his designee, to make the proper requests to the State of Ohio for approval of the lease and arrange for execution in accordance with Ohio law.

AND, FURTHER BE IT RESOLVED, that the Ohio University Board of Trustees authorizes the President in consultation with the Budget, Finance and Physical Plant Committee to approve any further changes of use for the remaining portions of Parcel 1, if such change is considered in the University's best interests; and dedicates the income to the University from this lease to economic development and university development activity as approved by the President.
June 10, 1987

The President and Board of Trustees

John F. Burns, Director, Office of Legal Affairs

Bob Evans Farms, Inc. proposal to Lease a portion of the East State and Home Street Property for a Bob Evans Restaurant

The University has been reviewing a proposal from Bob Evans Farms, Inc. during the last few months to develop a portion of the University's Home Street property, referred to as Parcel 1, as a Bob Evans Restaurant (see Appendix A identifying plot A as the Home Street property).

The property is currently leased to the Kroger Co.; and on April 11, 1987, the Trustees authorized the President to take steps to cancel this lease. The Trustees also authorized a change of use of the property so as to reflect the current best interests of the University and to review proposals for further development. The lease with Kroger Co. will be cancelled through an Addendum to Lease, with the provision that the property will not be used for purposes in competition with the new Kroger store.

The University staff has reviewed the proposal and negotiated the terms and conditions of the lease with Bob Evans Farms, Inc. The Lease will be for twenty (20) years, with four (4) five (5) year renewal options at the rent specified in the lease; and its other provisions follow the general requirements for leases adopted in accordance with Section 123.77 ORC for development of University property.

The University staff recommends the approval of the terms and conditions set forth in the proposed lease. A resolution to accomplish this is attached for your consideration, and the University staff will be available at the Board meeting to review this proposal.

Thank you.

5. Ohio Department of Mental Health, Belmont County Campus Land Lease
RESOLUTION 1987--920

WHEREAS, the Ohio Department of Mental Health has requested the University provide them approximately a three (3) acre tract of land off St. Rt. 331 on the Ohio University - Belmont Regional Campus, and

WHEREAS, the Ohio University Board of Trustees has determined that providing the requested land under a twenty five (25) year lease will not interfere with the development and operation of the Ohio University - Belmont Regional Campus.

NOW, THEREFORE, BE IT RESOLVED, that the Ohio University Board of Trustees hereby authorizes the President or his designee to negotiate the terms and conditions for a twenty-five (25) year lease to the Ohio Department of Mental Health under Section 123.01(9); and for the President, after approval of the final terms and conditions, to arrange for execution in accordance with Ohio law, and provide a letter to the lessee of the University's intent to request renewal of the lease after the expiration of the initial term.
The Ohio Department of Mental Health has requested the University grant them use of approximately a three (3) acre tract along St. Rt. 331 for a new Community Mental Health Services Building to be built by Belmont County Community Mental Health Board (see Appendices A and B).

The Ohio University-Belmont and Athens staff have reviewed this request and have reached the conclusion that granting a twenty-five (25) year lease under Section 123.01(9) O.R.C. is appropriate. Also, a letter of intent would be provided that would request the Ohio University Board of Trustees to act in 2012 to renew the lease, if such a renewal would be sought by the lessee; this is because an automatic renewal cannot be granted under Section 123.01(9) O.R.C. This lease would be granted for $1.00, with the lessee assuming all the costs associated with surveying and other expenses. Further, the President's approval of plans and specifications for the building would be required; and Ohio University would be relieved of any responsibilities for the lessee's use of the land.

The staff will be available to review this proposal with you at the meeting; and a draft resolution is attached for your consideration.

Thank you.

1. Independent Living Skills Center Proposal

RESOLUTION 1987--921

WHEREAS, the Board of Trustees of Ohio University has established the College of Health and Human Services, and

WHEREAS, that college is charged to establish new programs in the field of health and human services, initiate effective clinical programs, and undertake research and service programs, and

WHEREAS, the creation of an organizational unit within the College's School of Home Economics is recommended to accomplish these goals.

THEREFORE BE IT RESOLVED that the Board of Trustees of Ohio University approves the creation of the Independent Living Skills Center consistent with the University policy on Centers and Institutes.
To: Charles J. Ping, President  
From: James L. Bruning, Provost  
Subject: Independent Living Skills Center

A draft resolution and a short description of the proposed Independent Living Skills Center is enclosed. Creation of this center will provide: opportunities for additional interdisciplinary experience, increased exposure for students to service agencies, research opportunities for faculty and students, and, an administrative entity to secure additional funding for support of the center and its associated activities.

jc
INDEPENDENT LIVING SKILLS CENTER: A BRIEF PROSPECTUS

Statement of Need

A Census Bureau 1986 Report confirmed that one in every five Americans has some sort of disability or functional limitation. Progress has been made by the College of Health and Human Services toward providing educational experiences for professionals who work with people with disabilities and functional limitations. The establishment of an Independent Living Skills Center within the School of Home Economics will provide a clearly identified facility for faculty and students from the units within the College of Health and Human Services (Home Economics, Nursing, Physical Therapy, Health and Sport Sciences, Hearing and Speech Sciences) to work cooperatively to provide services to clients with disabilities. The establishment of the Independent Living Skills Center will also provide an entity which can bill for services.

The goals of the Independent Living Center are:

1. Professional education for those persons who will provide services to individuals with functional limitations in order to improve or to maintain their independent living skills.

2. Research and demonstration programs in the area of independent living to develop better methods of serving individuals with functional limitations.

3. Services to individuals who have functional limitations that have resulted in a temporary or permanent inability to perform tasks that will enable them to function as independently as possible.

4. Community outreach service through the dissemination of information and educational programming about independent living.

Value of the Independent Living Center to the University

Creation of the Independent Living Skills Center will enhance the potential of successfully implementing an interdisciplinary approach to professional education for those who work with people with functional limitations. Ohio University would be the first university to have this type of center, a center which involves students from a variety of disciplines in a client centered/home environment program. The creation of this center should have a positive impact not only on student enrollment but also on the University's reputation as an educational institution which is responsive to the changing needs of society. In addition, the establishment of the Independent Living Skills
Center has the potential of creating liaisons with a variety of funding sources and agencies that could enhance the education of students and the potential for employment. Finally, increased faculty research and productivity will assist in the overall University commitment to elevate Ohio University's standing among other universities in the area of research and dissemination of findings.

Resources Required

The Independent Living Skills Center will be directed by June Varner, Ed.D. as a portion of her faculty responsibilities in the School of Home Economics. A clinician will be hired. Funds generated from client's service will pay the clinician's salary and pay for instructional materials, supplies and equipment. Sources of funding include: Medicaid, Bureau of Vocational Rehabilitation, Rehabilitation Services Commission and contracts with the Athens County Sheltered Workshop (ATCO) and Havar, Inc. (a private non-profit corporation that provides residential services to developmentally disabled adults in Athens County). Room 102 in Tupper Hall has already been renovated in an apartment format and has been modified for persons with disabilities.

Faculty and students from the Schools of Home Economics, Hearing and Speech Sciences, Health and Sport Sciences, Physical Therapy, and Nursing will be involved in the activities at the Independent Living Skills Center.

Long Range Projections:

During the next five years, students and faculty of departments such as Special Education, Rehabilitation Counseling, Psychology, Music Therapy, Art Therapy, and the College of Osteopathic Medicine will be invited to participate in the Independent Living Skills Center. It is anticipated that within 5 years, 40 hours of billable work per week will be provided to clients. The additional income will enable additional staff to be hired. The activities of the Independent Living Skills Center will be continuously analyzed and modifications implemented, as needed.
Mr. Baumholtz presented and moved approval of the resolution. Dr. Strafford seconded the motion. Approval was unanimous.

3. Student Senate Constitution Amendments

RESOLUTION 1987--923

WHEREAS, The Ohio University Student Senate Constitution has been in effect in its present form since 1981, and

WHEREAS, The Student Senate has experienced changes in structure, purpose and temper that now warrant a more concise constitution, and

WHEREAS, A Student Senate committee has recommended constitutional revisions which have received the endorsement of a 2/3 majority of the Student Senate and a majority of those votes cast in the Spring general election on the Ohio University campus.

NOW, THEREFORE, BE IT RESOLVED that the Ohio University Student Senate Constitution is approved and ratified by the Ohio University Board of Trustees.
The Ohio University Student Senate Constitutional Review Committee has been working on the attached document for most of this past academic year. Given the changes in the Student Senate over the last several years, it was felt that a general review of the constitution was in order. The present constitution was written as a very inclusive document with no by-laws. This structure allowed for little flexibility in operations.

Therefore, the attached constitution represents an attempt to streamline the constitution, establish a set of operational by-laws, refine language and clarify provisions.

I have reviewed the document carefully with Mr. Michael Sostarich, advisor to the Student Senate and we are in agreement that it is a good constitution which should serve the students of Ohio University well.

I, therefore, recommend it to you for approval and transmission to the Board of Trustees for positive consideration.
CONSTITUTION
of
THE OHIO UNIVERSITY
STUDENT SENATE

PREAMBLE

We the students of Ohio University, Athens campus, of the belief that students have the right and obligation to participate in the formulation and application of university policy, hereby establish The Ohio University Student Senate in order that such rights are protected and obligations met.

ARTICLE I

Name

The official name of this body shall be The Ohio University Student Senate.

Article I was added for clarification and tradition.

ARTICLE II

Purpose

The Ohio University Student Senate shall:

1. Be the official representative group of the student body to the university community and other agencies in matters pertaining to the student body.

2. Serve as the official vehicle for student perspective and opinion.

3. Respond to and initiate proposals deemed beneficial to the general welfare of students.

4. Receive student complaints, investigate student problems and work towards their resolution.

5. Promote educational experiences, programs, and opportunities available to the student body.

6. Protect students' rights and freedoms.

No changes were made here.
ARTICLE III

Section 1 - Powers and Duties

The Student Senate shall:

1.1 Establish working relationships and cooperate with other governing units in the Ohio University community, its branch campuses, the local community and at state and national levels.

1.2 Review and approve recommendations or proposals from Student Senate commissions, its committees and constituents, and further, to take action if needed.

1.3 Propose university-wide policies or changes in existing policy on matters of student concern and submit such proposed changes to the appropriate university body.

1.4 Inform the student body of proposals initiated and action taken by the Student Senate.

1.5 Establish and maintain budgets for the Student Senate.

1.6 Establish and coordinate on-going research, information gathering, and student opinion information in the interest of the students at Ohio University.

1.7 Recommend students to the Committee on Committees for membership on university standing and ad hoc committees.

1.8 Establish by-laws to govern the internal function of the Student Senate.

1.9 Not establish any by-law that precludes, excludes, or violates this constitution.

1.10 Approve an Election Board Chairperson to supervise necessary elections.

1.11 Act as an appeal body on commission decisions.

1.12 Review and approve Codes of Operations of the commissions.

Changes to Section 1

1. Changes to Article III, Section 1, are made in order to allow Senate to ultimately construct the document that follows. Entries of the current constitution in this section are repetitive and in some cases (as will be noted by their deletion, §6, 13, & 14) more properly addressed in by-laws.
Section 2 - Membership

The Student Senate shall be composed of students from the following seven areas which reflect special, academic, and geographic interests.

2.1 OFFICERS - There shall be a President, Vice President and Treasurer.

2.2 COMMUNICATIONS DIRECTOR - There shall be a Communications Director.

2.3 COMMISSIONERS - There shall be one Commissioner for each commission.

2.4 COLLEGE REPRESENTATIVES - There shall be one representative from each college.

2.5 GREEN REPRESENTATIVES - There shall be one representative from each residential green.

2.6 OFF-CAMPUS HOUSING REPRESENTATIVES - There shall be six representatives from off-campus housing.

2.7 GOVERNING BODY REPRESENTATIVES - There shall be one representative from each of the following: IFC, WPA, NPHC, and each residential Green Council.

Changes in Section 2

1. The position of Communication Director (§2.2) was modified from that of an officer to that of a separate position in and of itself, retaining all privileges as before. The reason for this is as follows. The Communication Director is a position of executive appointment by the elected officers. Systematically this places the Communication Director at the same level of accountability as the Commissioners. By taking the Communication Director out of the status of officer, the officers will have the ability to remove a Communication Director as they would any Commissioner as per procedures in Article III, Section 9.6. The Communication Director still remains accountable to the Senate for any other impeachable offenses.

2. The name of OUTSIDE HOUSING REPRESENTATIVES (§ 2.6) was changed to OFF-CAMPUS HOUSING REPRESENTATIVES for purpose of clarity and consistency.

3. The groups which have GOVERNING BODY REPRESENTATIVES (§ 2.7) are clearly defined here for purpose of clarity and consistency.
Section 3 - Methods For Filling Student Senate Positions

The following indicate how the positions of the Student Senate shall be filled. See Election Board Code of Operations, and Rules and Regulations for specific procedures concerning elections.

3.1 OFFICERS - The President, Vice President, and Treasurer shall be elected by plurality in a popular election by the student body.

3.2 COMMUNICATIONS DIRECTOR - The Communications Director shall be appointed by the officers.

3.3 COMMISSIONERS - The commissioners shall be appointed by the officers.

3.4 COLLEGE REPRESENTATIVES - A representative shall be elected by plurality by the students of each respective college.

3.5 GREEN REPRESENTATIVES - A representative shall be elected by plurality by the students of each respective green in a green-wide election.

3.6 OFF-CAMPUS HOUSING REPRESENTATIVES - Five representatives shall be elected at large by plurality except for those students residing in university recognized Greek housing. One representative shall be elected by the students residing in Greek housing.

3.7 GOVERNING BODY REPRESENTATIVES - A representative shall be chosen by the respective institutions according to their internal processes.

Changes for Section 3

1. Changes in this section are for clarity and consistency. The adding of "by plurality" (§3.1, 3.4, 3.5, 3.6,) is to more clearly define the votes necessary to attain those positions.

2. The Communication Director is added into this section, as §3.2, to be consistent with the changes in Section 2.

3. Section 3.6 is changed only for clarity.
Section 4 - Eligibility

4.1 All full time students of Ohio University, Athens campus, in good academic standing are eligible for Student Senate membership.

4.2 All voting members of the senate shall be enrolled for at least 11 academic hours per term.

4.3 If the quarterly GPA of any member of the senate is less than 2.0, that member will be placed on probationary status for the next term in which the senator enrolls. Probationary status will not exceed one academic term and no privileges afforded shall be lost.

4.4 Any senator on probationary status will be referred to the Director of Student Life.

4.5 If a Senator on probation earns less than a 2.0 GPA during the next term of enrollment, he/she will be automatically dismissed from Senate.

4.6 If a Senator on probation earns greater than a 2.0 GPA during the next term of enrollment, the Senator will be automatically removed from probationary status.

4.7 If a member is graduating at the end of the term and does not need to enroll for full time status in order to graduate, the requirement as specified in Article III, Section 4.2, will be waived with the approval of the Dean of Students, the Director of Student Life and the officers of Senate and the member shall enjoy all privileges accorded.

Changes for Section 4

1. In the current constitution, §4 is designated to define the roles of all voting Student Senate members. It is the recommendation of the committee that these matters are largely procedural and should be placed in the confines of By-laws. The constitution should be a general framework of the body and should not be burdened with the day-to-day operations. As a forward note, By-laws for the Student Senate have been written, and approved by the current senate. No changes were made to this section after its removal from the document.

2. This deletion results in the advancement of the following sections by a number of one. The proposed §4 now covers eligibility. Current wording of this section is unclear and inconsistent with format. What has changed significantly are the requirements for eligibility for any member of Student Senate, voting or non-voting. The committee recommends this policy and vigorously supports its implementation. The requirements for membership are no greater than those requirements by which any person can be a student at Ohio University. The committee feels that any student, in good academic standing, should be able to participate in the governance and representation process. It was placed in the constitution as a means to support the idea that academics will not suffer because of participation in Student Senate.
Section 5 - Terms of Office

5.1 OFFICERS - The officers shall hold office for a term of one year and shall assume office three weeks after their election.

5.2 COMMUNICATIONS DIRECTOR - The Communications Director shall assume office within one week after the inauguration of the officers.

5.3 COMMISSIONERS - The commissioners shall assume office within one week after the inauguration of the officers.

5.4 All representatives from off-campus housing, residential greens, and academic colleges shall assume office before the first meeting after the fall election for one year.

5.5 Representatives from governing bodies shall assume office upon appointment by their respective institutions and shall remain in office for a term not to exceed one year until replaced by their respective institution.

Changes for Section 5

1. The term of office for the Communication Director (§5.2) is inserted to remain consistent with the changes for the previous relevant sections.

2. The time allotted for the appointment of the Communication Director and the Commissioners (§5.2, 5.3) is shortened to one week to reduce the period of inactivity by Student Senate.

3. Changes to §5.4 and 5.5 are made for clarity.
Section 6 - Time of Election

6.1 Election of officers shall take place during spring quarter.

6.2 Election of all representatives shall take place fall quarter.

6.3 All elections are subject to Student Senate Election Board By-laws, Rules and Regulations, and Code of Operations.

Changes for Section 6

1. The requirement for elections by the fifth week of Spring Quarter and fifth week of Fall Quarter are relinquished to by-laws. Some circumstances prevented the proper and efficient operation of the elections this previous Fall Quarter. Potentially, Senate was in violation of its own constitution; something that needs to be avoided at all costs. Procedurally, now that the time requirement has moved to by-laws, they may be changed with greater flexibility.

2. Section 6.3 is added for clarity.
Section 7 - Voting in Elections

All students of Ohio University, Athens Campus, shall be eligible to vote in Student Senate elections.

No changes were made to this section.
Section 8 - Vacancies

8.1 OFFICERS

(a) In the case of a Presidential vacancy, the Vice President shall succeed to the Presidency.

(b) In the case of a Vice President or Treasurer vacancy, the Student Senate shall elect, by a 2/3 vote of the membership while conducting an official meeting, an officer within two weeks of the position becoming vacant.

(c) In the case of a vacancy in both the Presidential and Vice Presidential positions, the Treasurer shall become the acting President until the Student Senate elects a President and Vice President by a 2/3 vote of the membership while conducting an official meeting.

(d) Students shall be given an opportunity to present candidates to fill vacancies of the Vice-President and/or the Treasurer.

(e) Should there be vacancies in all the three elected positions, the Communications Director shall become the presiding officer and the senate shall elect officers by a 2/3 vote of the membership while conducting an official meeting to fill the vacant positions within two weeks of the vacancies.

(f) Should the Communications Director's position be vacant simultaneously with the officers, the line of succession for those offices is the order by which the commissioners are listed in Article II, Section 12.1 of this constitution.

Changes to Section 8.1

The filling of officer vacancies presents one of the most critical tasks for this and any other organization. The committee wants to clearly ensure that procedure for filling vacancies is clear and fair. To that end, a 2/3 affirmative vote of the entire membership is needed to fill such vacancies.
8.2 COMMUNICATIONS DIRECTOR

(a) In the case of a vacancy in the Communication Director position, the officers shall solicit applications from the student body and appoint a Communications Director by a majority vote of the officers.

No changes were made to this section.
8.3 COMMISSIONERS

(a) In the case of a commission chair being vacated, any vice commissioner serving under a commission code of operations shall immediately become acting commissioner. He/she shall have all rights and duties as a commissioner.

(b) The Student Senate officers shall solicit applications from the student body and appoint a commissioner by a majority decision of the officers.

Changes to Section 8.3

The term "commissioner" is exchanged for "chairperson" in §8.3a for clarification.

Changes in §8.3b are made for the purposes of clarification and consistency.
8.4 ELECTED REPRESENTATIVES

(a) In the case of an elected representative vacancy, those candidates not elected in the original election shall be ranked according to votes received and vacancies filled according to such ranking.

(b) In the case of no remaining candidates, the commissioner responsible for the broader area of which the representative's constituency is a part, shall solicit applications from that constituency and submit a candidate for senate confirmation.

No changes were made to this section.
8.5 GOVERNING BODY REPRESENTATIVES

(a) Green Council and Greek Governing Body representative vacancies shall be filled by their respective institutions according to its own internal processes.

Changes were made for clarification.
SECTION 9 - Impeachment and Removal

9.1 Student Senate members may be impeached for the following reasons:
   (a) Continued, gross or willful neglect of duty
   (b) Failure or refusal to disclose necessary information on matters of Student Senate business.
   (c) Unauthorized expenditures, signing of checks, or misuse of Student Senate funds.
   (d) Misrepresentation of the position of Student Senate and/or its policies.

9.2 If any student believes that any senator is guilty of an impeachable offense, then they shall make the reasons known to any senator, then that senator shall bring the complaint to the attention of the Student Senate.

9.3 Impeachment proceedings shall be conducted by the Student Senate. If a majority of the Student Senate votes for impeachment, then removal proceedings shall be conducted by the Judicial Commission.

9.4 Removal proceedings shall follow the guidelines listed below:
   (a) Adequate notice of the charges filed shall be given to the accused.
   (b) Fair hearings shall be conducted with adequate due process.
   (c) The judicial commission chairperson shall preside over the proceedings and rule on all questions of policy and procedure except when the Judicial Commissioner is the accused. If the accused is the Judicial Commissioner, then the President of Student Senate or chosen designee shall preside over the proceedings.
   (d) There shall be reasonable opportunity for the accused to defend him/herself.
   (e) A five member panel of non-Senate students shall decide the merits of the evidence against the accused.
   (f) A four-fifths vote of the panel of non-Senate students shall bring the case back before the entire Student Senate for a final vote for either expulsion or acquittal of the accused.

9.5 Any Student Senate member, entitled to a vote, who has three unexcused absences within a quarter is automatically impeached subject to removal proceedings.

9.6 The unanimous vote of Student Senate officers shall remove any and all Commissioners or the Communications Director for any one of the following reasons:
   (a) Any conduct occurring in the performance of one's assigned responsibilities which causes or could potentially cause serious interference with the ability of the executive officers concerned or with the ability of other senators to carry on their duties and responsibilities.
   (b) Insubordination, which refers to a willful refusal to obey, of knowledgeable disregarding of the directions and/or supervision of an executive officer acting in an appropriate capacity through the issuance of orders reasonably related to the fulfillment of his or her Senate responsibilities, without reasonable justification for such refusal.
   (c) Breach of professional ethics.
   (d) Gross incompetence, referring to a situation where a commissioner/committee chair is from the beginning of his or her term of office, or becomes at sometime thereafter, essentially unable to fulfill the requirements of his or her position.
   (e) Flagrant or consistent failure to conform to the rules or regulations of the senate.
   (f) Any impeachable offense as described in Section 9.1 of the Student Senate Constitution.
9.7 The officers shall provide the Commissioner or Communications Director with written notification of concern regarding section 9. Said notification will clearly identify those concerns and allow a period of ten days for the party to duly and reasonably act upon the stated concerns.

Changes to Section 9

1. The wording in §9.2 is made for clarification.

2. The addition to §9.4 is made to avoid a conflict of interests if the accused was the Judicial Commissioner.
Section 10 - Meetings

10.1 FREQUENCY OF MEETINGS
The frequency of the meetings shall be determined by the Student Senate, provided that at least one meeting be held each calendar month with the exceptions of June, July, August, and December. Meetings of the senate shall also be convened:
(a) Upon the initiative of the President or Vice President of the Student Senate.
(b) Upon written request to the President of the Student Senate by ten voting members of the Student Senate.

10.2 VOTING
Each member of Student Senate, as defined in Article III, Section 2, of this constitution, shall have one vote.

10.3 RIGHTS OF PERSONS ATTENDING
(a) All student senate meetings shall be open to the public.
(b) Individuals wishing to have an item on the agenda shall request of the President, prior to the meeting, to place that item on the agenda.
(c) Non-members of Student Senate may be recognized by the presiding officer if they wish to participate in proceedings.

Changes to Section 10 (formerly Section 11)

1. Sections 11.1, 11.2, 11.5, 11.6 were deleted and referred to by-laws.

2. Other changes were made for clarification and consistency.
Section 11 - Commissions

11.1 LIST OF COMMISSIONS
(a) Academic Commission
(b) Black Affairs Commission
(c) City Commission
(d) International Students Commission
(e) Judicial Commission
(f) Minority Affairs Commission
(g) Off-Campus Housing Commission
(h) Residence Life Commission
(i) State and Federal Commission
(j) Student Activities Commission
(k) University Committee Commission
(l) University Financial Affairs Commission
(m) Women's Affairs Commission

11.2 If on the recommendation of the Student Activities Commission, there needs to be an addition or deletion of SAC membership as stated in their Code of Operations, then with the affirmative 2/3 vote of the Student Senate membership, the proposal shall be forwarded to the Director of Student Life.

   (a) With the Director of Student Life approval, the change shall be enacted.
   (b) Should the Director of Student Life disapprove of the proposal, it may be re-introduced on the floor of the Student Senate where a 3/4 of total membership is necessary to override the Director of Student Life disapproval.

11.3 Commissions may be established and, with the exception of the Student Activities Commission, eliminated by a two thirds vote of the membership of Student Senate.

11.4 CODES OF OPERATIONS
(a) The Code of Operations of each Commission shall be recommended by that commission and approved by the Student Senate and shall upon approval, become part of the by-laws of this constitution.
(b) Amendments to the Codes of Operations shall become effective after two thirds approval of the Student Senate.

Changes to Section 11

Changes to Section 11.2 were made from the body of the Student Senate after the Constitution Review Committee had made its final recommendations. The concern is that under the current Senate Constitution and Student Activities Commission Code of Operations the decision to alter the membership by a vote of 24 SAC members and 42 Student Senate members could be vetoed by the Director of Student Life and The Dean of Students. (The motion to make this change is attached to this report).
ARTICLE IV

SECTION 1
1.1 Amendments may be proposed by:
   (a) A Student Senate motion passed by two thirds of the membership voting in a regular
       meeting.
   (b) Submission of a petition signed by ten percent of the student body, Athens Campus.

Subject: The Department of Film has made a formal request to be granted school status at Ohio University. A document has been developed by members of the film faculty clarifying their intentions in this regard. I have attached that document to this memorandum for your review.

Within the College we have discussed the change in status for the Film Department. The concept has received support from the other directors and department chairs. I would like to add my endorsement as well. I believe that the plan to change the designation from department to the School of Film has considerable merit.

If you need additional information, please let me know. Thank you for your consideration.

RE: Request for School Status

The Department of Film formally requests that it be granted School status at Ohio University. This request follows my preliminary memo submitted January 28, 1987.

Overview:

The Ohio University Film Program is the leading graduate film program in Ohio and the region as documented by the reviewers for the 1986 Ohio Eminent Scholar finalist proposal submitted by the Film Program. The program offers the M.F.A. and M.A. degree and is widely regarded as one of the top ten graduate film programs in America. Since 1984, the program has significantly enhanced and broadened this reputation through new facilities, faculty research, publication and professional activity, curriculum revision, and the infusion of new production and post-production equipment.

The addition of the Peterson Sound Studio--the most complete sound mixing facility in Ohio and the region--is but one enhancement that furthers professional training at the graduate level. Faculty initiatives and publications in contemporary Chinese Cinema and applied theory, grant supported film and video work, the establishment at Ohio University of one of only three S.M.P.T.E. Student Chapters in America, the new Track Two M.A. Degree program for film/video professionals seeking additional training, and the hosting of the 1986 National Conference of the University Film and Video Association have increased the national and international stature of the program.

One indication of this enhanced stature is the quality of students attracted to the program such as Eran Preis, co-author of Beyond the Walls (nominated for Best Foreign Film, 1986 Academy Awards), leading Chinese film actress Yin Tingru, former Twentieth Century Fox executive Daniel Saez, award-winning filmmaker Jack Wright, Fulbright Fellow Stephan Jonsson, and Malaysian Television producer Corrine Lee.

Another indication is the sustained yet disciplined growth of the film program. Since 1984, the number of graduate students has increased 50% as has total Fall VCM. This growth demonstrates a vigorous graduate program as well as a strong commitment to providing solid general education courses for Ohio University. Because of this growth, the Film Program has been able enhance program excellence: in 1986-87, only one applicant in four was finally admitted into the program--a ratio that positions Ohio University among the most competitive such programs in America.
The Educational Mission of the Film Program:

The Ohio University Film Program has positioned itself to be the best small graduate film program in America. The program trains students for careers in the film industry, in higher education, and as independent filmmakers. The M.F.A. program is a demanding three-year program that provides students with a solid background in film history, theory and criticism as well as rigorous training in all aspects of film production. The preeminent goal of the program is to provide top quality professional training in film.

Rationale for School Status:

1. The term "School" is widely used to designate units that provide professional training. The term "Department" has traditionally been used for units that are essentially scholarly in nature. A change to School status would more accurately reflect the mission and goals of the Film Program.

2. For decades, the film industry as well as those aspiring to careers in the industry have used the term "Film School" to refer to institutions that offer professional training in film. A change to school status would assist the film program in developing ongoing programs, internship opportunities, and potential private sector funding.

3. The chief competition in the recruitment of top quality students consists largely of institutional units with the designation of "School." A change to School status would enhance the OU Film Program's ability to recruit top students.

4. The Film Program has undergone substantial change since first becoming a "Department" in 1972. The program now offers two degrees, publishes the highly respected quarterly journal Wide Angle, hosts the Annual OU Film Conference, and helps to sponsor the widely known Athens International Film Festival. Professional training has been considerably enhanced through the infusion of quality equipment, new faculty and the Peterson Sound Studio.

5. Graduates of the Film Program have achieved national stature: for example, Tony Buba (M.F.A. 1976) was awarded the coveted Guggenheim Fellowship in Film in 1985; Paul Glabicki (M.F.A. 1979) won the same award in 1986; and Ed Lachman (B.F.A. Film, 1972) Director of Photography for Desperately Seeking Susan is now one of the most sought-after cinematographers in the industry. Graduates of the Film Program hold key positions in the industry, in leading universities, and in media arts centers across the country.

6. New program and funding initiatives by the Film Program which involve state and federal agencies as well as other units of the College of Fine Arts with School Status would be enhanced by School status. The Film Program must compete for public and private sector...
funding with Film units which presently have school designation. A change to School Status would assist in making the program more competitive in these initiatives.

Conclusion:

Ohio University and the Film Program would benefit from changing status to the School of Film. This change would require no additional staff but would help yield increased industry contacts, internship opportunities, recruitment, funding possibilities, and would more accurately reflect the educational mission of the program.
