Executive Session ................................................................. 579
I. ROLL CALL

Eight members were present—Chairwoman Patricia A. Ackerman; R. Gregory Browning; Gordon F. Brunner, C. Daniel DeLawder; N. Victor Goodman; M. Lee Ong, C. David Snyder, and Robert D. Walter. This constituted a quorum. Trustee Brandon T. Grover attended the Thursday activities, but was unable to be present Friday because of a dental emergency.

Student Trustees Deland Basora and Amy Vargas-Tonsi also attended, as did President Robert Glidden and Secretary Alan H. Geiger. William J. Burke, D.O., was present as a representative and president of the Alumni Board of Directors.

This was the last official meeting for retiring Trustee N. Victor Goodman and Student Trustee Deland Basora.

II. APPROVAL OF THE MINUTES OF THE MEETING
OF February 2, 2001
(Previously distributed)

Gordon Brunner moved approval of the previously distributed minutes. Daniel DeLawder seconded the motion. All voted aye.

III. COMMUNICATIONS, PETITIONS, AND MEMORIALS

Secretary Geiger reported a letter had been sent to Trustees from Student Senate asking that current tuition caps be maintained for the state's public universities. A copy of the letter is included with the official minutes.

IV. ANNOUNCEMENTS

Chairwoman Ackerman announced that she has asked Trustee Browning to chair the committee and Board Secretary Geiger to schedule times with Trustees and members of the University community for purposes of evaluating President Glidden. The evaluation process will follow past practices and is to be scheduled in June of 2001.

V. REPORTS/ACTIVITIES/PRESENTATIONS

Trustees began their Thursday meeting with lunch and were treated to presentations by faculty and students in the College of Arts and Sciences including departments and schools of African American Studies, Social Work, Political Science, Sociology and...
Anthropology, History, English, Economics, Linguistics, Classics, Modern Languages, Education Abroad, OPIE, Psychology, Philosophy, Contemporary History Institute, and Women’s Studies.

Convening as a committee of the whole at 3:30 p.m. Thursday, Trustees toured several capital improvement projects and sites. A copy of the tour schedule is included with the official minutes.

VI. UNFINISHED BUSINESS

Secretary Geiger reported no unfinished business.

VII. NEW BUSINESS

Chairwoman Ackerman stated New Business would begin with recommendations from the Educational Policy Committee.

EDUCATIONAL POLICIES/BUDGET, FINANCE AND PHYSICAL PLANT COMMITTEE
Associate Provost Barbara Reeves presented the resolution and Trustee Browning moved approval. Mrs. Ong seconded the motion and all voted aye.

FACULTY FELLOWSHIP AWARDS

RESOLUTION 2001 - 1757

WHEREAS, the proposed University Faculty Fellowships on the attached list have been reviewed in accordance with University policy and found to be meritorious,

NOW, THEREFORE, BE IT RESOLVED that the attached University Faculty Fellowships for 2001-2002 are approved.

BE IT FURTHER RESOLVED that the Provost can approve changes in the conditions of the fellowship but not the total number of Fellowships.
DATE: March 13, 2001

TO: Dr. Robert Glidden, President

FROM: Sharon Stephens Brehm, Provost

SUBJECT: Faculty Fellowship Leaves

I have read the attached Faculty Fellowship Leave requests. I recommend them to you for approval and signature.

The total number requested (40) is lower than the 6% limit (which would be 53) established by the Trustees.

February 2001
FACULTY FELLOWSHIP LEAVES
2001-2002

Nancy Manring  Political Science  Winter, Spring
To update and extensively revise a paper on eco-management decision-making at the U.S. Forest Service between 1995-2000. The paper also examines the role that Dispute Resolution (ADR) techniques play in shaping the Department's views.

Takaaki Suzuki  Political Science  Fall, Winter, Spring
To conduct research and prepare a book manuscript titled Capitalism and Democracy in Japan: Economic Crisis and the Return of the State. This book will explore the response of the Japanese government to the severe economic recession in the 1990s.

Amanda Konradi  Sociology/Anthropology  Fall, Winter, Spring
To complete a book based on her research on rape survivors' involvement in legal proceedings. A study of campus judiciary processes, focusing on data collection and analysis will also be continued.

Mary Beth Krouse  Sociology/Anthropology  Fall, Winter, Spring
To conduct research on gift giving during the dying process. Using a range of methodologies, this research will form the basis for journal articles and a book.

Martin D. Schwartz  Sociology/Anthropology  Fall, Winter, Spring
To develop grant proposals, strengthen international research collaborations, and complete final drafts of four books on poverty, criminology, male identity, and pool hall behavior.

COLLEGE OF BUSINESS

Gary Coombs  Management Systems  Fall, Winter, Spring
To work with an e-business start-up, researching the corporate use of online employee feedback mechanisms and examining the possible educational applications of their feedback services. This project will provide data for research and enhance teaching effectiveness.

Kenneth Cutright  Management Systems  Fall
To complete instructor and user manuals for a simulation software package currently used in Ohio University graduate and undergraduate classes with the goal of publishing it for wider distribution. Plans also include the writing of an article on the use of this software package in the classroom.

</thead>
<tbody>
<tr>
<td>John R. Schermerhorn, Jr.</td>
<td>Management Systems</td>
<td>Fall, Winter, Spring</td>
<td>To complete a scholarly monograph tentatively entitled <em>Business Transnational and Social Change: Contrasting Paradigms for Ethical Corporate Leadership</em>, finish a journal article, <em>Building Intellectual Capital by Valuing Individual Contributors</em>, conduct research necessary to expand the article into a scholarly monograph, and develop the skills necessary to more fully integrate online multimedia support into courses.</td>
</tr>
<tr>
<td>Elizabeth Graham</td>
<td>INCO</td>
<td>Spring</td>
<td>To complete the book, <em>Communication Research Measures: A Sourcebook</em>, in collaboration with other editors of this work, and to write a separate chapter on measurement techniques used in research on interpersonal communication.</td>
</tr>
<tr>
<td>Claudia Hale</td>
<td>INCO</td>
<td>Winter</td>
<td>To complete work on children's conflict management, either by collecting new data in South America or finishing a co-authored book already in progress.</td>
</tr>
<tr>
<td>Eddith Dashiel</td>
<td>Journalism</td>
<td>Fall</td>
<td>To serve as a visiting professor at Hampton College. Activities will include teaching, assisting the Journalism department in building a strong broadcast news curriculum, and training faculty in course development.</td>
</tr>
<tr>
<td>Don Flournoy</td>
<td>TCOM</td>
<td>Winter, Spring</td>
<td>To research and write a book on the impact the Internet is having on news gathering, news editing, and news distribution.</td>
</tr>
<tr>
<td>Dorothy Leal</td>
<td>Teacher Education</td>
<td>Fall, Winter, Spring</td>
<td>To revise and resubmit a grant proposal on character in children's literature, and to work on other projects related to character influence and children's literature.</td>
</tr>
<tr>
<td>M. K. Alam</td>
<td>Mechanical Engineering</td>
<td>Fall, Winter, Spring</td>
<td>To enhance professional skills in the area of polymers and polymer composites made with nanofibers. Research will be carried out in a national laboratory, either Lawrence Livermore or Wright-Patterson, and will focus on developing theoretical models and conducting experiments.</td>
</tr>
</tbody>
</table>

February 2001
FACULTY FELLOWSHIP LEAVES
2001-2002

Jeffrey Giese
EECS
Winter, Spring
To accept a Fulbright Scholar Program Lecturing/Research award with Polytechnic of Namibia for 2002. Activities will include teaching courses, assisting in the development of a program in Electrical and Electronics Engineering, assisting faculty in their current research projects, and studying engineering programs in developing countries.

Janusz Starzyk
EECS
Fall, Winter, Spring
To conduct research in Ohio, Poland, and Germany in three areas:
1) Self-organizing architectures neural network for statistical pattern recognition with application to robot navigation and control; 2) dynamically reconfigurable architecture for mobile communication systems; 3) GPS systems in programmable FPGA architectures using structural and behavioral VHDL models.

COLLEGE OF FINE ARTS

Don Adlets
Art
Fall, Winter, Spring
To create a series of articles on the design process and to produce a series of prints based on the colors seen in the rice terraces of Bali.

Joe Bova
Art
Fall
To create a new body of ceramic artwork based on the human figure and utilizing visual research in China and Italy.

Christine Heindl
Art
Fall
To create a new body of work based on the urban landscape of New York City and to show her work to dealers and curators in New York City.

Robert E. Lazuka
Art
Fall, Winter, Spring
To conduct research in photography, digital imaging, and traditional fine art printmaking, such as lithography, etching, and relief. Also to produce a body of prints using these methods which will continue the series of fine art prints begun in 1999 entitled Personal Spaces.

Jenny K. Lau
Film
Fall, Winter, Spring
To investigate the media/cinema in Hong Kong and China during the current process of modernization and globalization. The project will utilize, modify, and critique theories that have been developed in the field.

FR: Leslie A. Flemming, Dean, College of Arts and Sciences

RE: Emeritus Status Nominations

It is my pleasure to support the emeritus nomination for Professor Edwin Charle, Department of Economics.

The Department of Economics requests the conferral of the rank of Emeritus Professor of Economics on Dr. Edwin Charle who fully retired in June 2000 after 42 years with Ohio University. During his career he was a co-founder and director of the Development Studies Program, was a director of Administrative Studies for the International Affairs program, and served twice as chair of the Economics Departments. He spent more than ten years in developing countries including teaching assignments in Malaysia and China; and he has been a long time advisor and friend to scores of international students.
Wednesday, October 18, 2000

TO: Leslie Flemming
FROM: Jan Palmer

RE: Edwin Charlé

This is to recommend that Ohio University confer the rank of Emeritus Professor of Economics on Dr. Edwin Charlé. The Department of Economics Promotion and Tenure Committee unanimously voted to recommend Professor Charlé for emeritus status and I enthusiastically agree with the recommendation.

Professor Charlé retired in June after forty-two years of association with Ohio University.

During his career, he twice served as chair of the Economics Department, was a co-founder and director of the Development Studies program, was a director of Administrative Studies for the International Affairs program, and served on countless departmental, college, and university committees. In 1991, he organized and coordinated Ohio University's annual Baker Peace Conference. He is respected as a careful, fair, and diligent administrator whose abilities as a conciliator are missed.

Professor Charlé has extensive international experience, both as a teacher and as a consulting economist. He has spent a total of more than ten years in about a dozen developing countries, including teaching assignments in Malaysia and China. At Ohio University, he has served as an advisor and friend to scores of international students.

Professor Charlé's teaching and research is primarily concerned with economic development. Although he is an able economist, his approach is multi-disciplinary rather than restricted to economic theories and models. He was a demanding but popular teacher whose classes had robust enrollments.

In summary, Professor Charlé is an excellent teacher, administrator, researcher, and colleague. His contributions to Ohio University more than justify awarding the rank of Emeritus Professor of Economics.

February 9, 2001

TO: Sharon S. Brehm, Provost
FR: Leslie A. Flemming, Dean, College of Arts and Sciences
RE: Emeritus Status Nominations

It is my pleasure to support the emeritus nomination of Distinguished Professor Wayne Dodd.

Professor Dodd has taught in the English department at Ohio University since 1968. In addition to directing numerous creative dissertations for students in the poetry program, he co-founded and served as editor-in-chief of the nationally known The Ohio Review since 1971.

In addition he was one of the founders of the annual Spring Literary Festival (now in its sixteenth year) and has authored five books of poems, three fine press editions of poetry, one book of fiction, a book of criticism, and a story book for children.
Nomination for Emeritus Status for Professor Wayne Dodd

Professor Dodd has taught in the English department at Ohio University since 1968. His Ph.D. (1963) is from the University of Oklahoma, as are his other degrees. His current title is Distinguished Professor of English, a rank he has held since 1994.

Needless to say, his record is outstanding. He has been both a professor in renaissance literature and a poet in our creative writing program, the latter being his primary specialization since shortly after he arrived. He directed numerous creative dissertations for students in the poetry program. He was one of the founders of the annual Spring Literary Festival, now looking toward its sixteenth presentation. This event has brought five internationally recognized writers to Ohio University for three days and ten total readings and lectures, year in and year out, and has been a major contributor to the prestige of the creative writing program in our English department. Professor Dodd co-founded The Ohio Review in 1971 and was personally the editor-in-chief and eventually the single editor of that highly prestigious journal until he retired this year. He has authored five books of poems, three fine press editions of poetry, one book of fiction, a book of criticism, and a story book for children. Beyond these he has conducted published interviews and written numerous articles, essays, poems and reviews. He has also given hundreds of lectures, workshops and colloquia at colleges and art centers across the United States.

He has been and continues to be a credit to the department, the university and the profession of poetry.

RE: Emeritus Status Nomination

March 9, 2001

It is my pleasure to support the emeritus nomination from the English Department for Arthur P. Woolley, associate professor.

A member of the English Department since 1964, Arthur Woolley has provided unprecedented service to that department for 37 years. In addition, to his very good teaching evaluations and his conference presentations, he has served as chair of the undergraduate committee, as the coordinating advisor, as a precollege advisor, as director of the composition program and as interim chair. In 1979 he receive the Dean’s Achievement Award for service and it was his initiative in the early 1980’s that started the use of computers in English courses. He also served on the University Curriculum Council and the Touchtone Registration Committee (for implementation of the still used TRIPS registration system). Other committee work includes the University Scholarship Committees, the Bachelor of Specialized Studies Committee, faculty advisor to Omicron Delta Kappa, Kennedy Award Committee, and Faculty Senate.
MEMORANDUM

9 March 2001

Subject: Nomination of Arthur Woolley for Emeritus Status

From: Kenneth Daley, Interim Chair
      Department of English

To: Leslie Flemming, Dean
      College of Arts and Sciences

I write to nominate Arthur Woolley for emeritus status. Arthur has a long and distinguished career at Ohio University. While he has received very good teaching evaluations and has participated at hundreds of conferences during his career at OU, Arthur is probably best known for his years of service to the department, the college, the university, and the community. The breadth and depth of this service would be difficult for any other instructor—from 1964 to present—to match.

Arthur was hired as Instructor of English in fall, 1964. He was promoted to Assistant Professor in 1971 after he completed his doctoral work at the University of Wisconsin, Madison. In 1971-72 he took his one and only sabbatical year and in 1988, he was promoted to Associate Professor.

Highlights of his career include his 1979 receipt of the Dean’s Achievement Award for service; his initiative in the early 1980’s, in developing an interest in using computers in English courses; his teaching of some of the first word processing classes to OU faculty and staff as well as at local public schools; his design, layout, and oversight of the installation of equipment and cabling, etc., of the department’s computer labs and his subsequent successful grant proposals for upgrading hardware and software; his 1997 receipt of a certificate for long-term University College advising; and his election in 1999 to the department chairmanship (interim).

Here is an abbreviated list of service Arthur Woolley has provided:

Department of English—

- Throughout his career, Arthur has "been there" for the department. In 1982 when the chair of undergraduate committee took unexpected leave, Art filled in; he also served as coordinating advisor when the person in that position was on leave for two quarters.
- Throughout his career, particularly during summers when few other faculty were available, Art was always willing to talk to potential students, their parents, and current students.
- In 1995 when no one else was willing to take on directing the composition program, Art did it, as he had done three times previously when he was needed.
And in 1999 when the department found itself with no one willing to provide service as Chair, Art was persuaded to take the position. He has served on or chaired nearly every department committee, including numerous search committees.

**College of Arts and Sciences—**

1987 through 1989 Arthur served as college faculty advisor. This was a half-time position but Arthur continued to be active in the department's teaching service responsibilities.

**Service to Ohio University—**

- In 1975 in addition to regular pre-college advising, he proposed, organized, developed, wrote, administered, and graded a writing placement test for incoming students.
- He participated through research, experimentation, and consultation in the shaping of Technical Writing courses taught at OU and elsewhere by English graduates.
- He served on University Curriculum Council; The Touchtone Registration Committee (for implementation of still used TRIPS registration system); the University Scholarship Committee; the Bachelor of Specialized Studies Committee (to review and accept applicants to that program); faculty advisor to Omicron Delta Kappa; Kennedy Award Committee; Faculty Senate, and its various subcommittees.
- In 1995 when only a handful of people attended an AAUP meeting, Art Woolley was asked to be secretary, a position that he continues to hold. He also established the AAUP listserve in 1995.

**Community Service—**

In 1992, Art served on the CropWalk Organizing Committee. He is active and has served various service roles in his church as well as in the Athens Aero Club, and local computer user groups.

As the foregoing clearly demonstrates, Arthur Woolley is eminently deserving of emeritus status.

RE: Emeritus Status Nominations

It is my pleasure to support the emeritus nomination for Associate Professor Gene Heien, Department of Geological Sciences.

Emeritus Status is recommended for Gene Heien, associate professor, Department of Geological Sciences. A member of the university for 35 years, he has served as the chair of his department, as a member of numerous committees and as an advisor to scores of undecided Arts and Sciences undergraduates. However his greatest commitment has been to teaching. He co-authored a laboratory exercises text, has worked as an instructor at the National Science Foundation In-Service Institute for Earth Science Teachers, and was recognized by the College with an Outstanding Teaching award. His role in teaching core courses for all Geological Sciences undergraduate majors and supervising our graduate Teaching Assistants has resulted in his having influenced nearly every geology student at Ohio University from 1966 to 2001.
To: Leslie Flemming, Dean, College of Arts and Sciences
From: Douglas Green, Chair, Department of Geological Sciences
Date: January 30, 2001
Subject: Emeritus Status for Gene Helen

It is my pleasure to nominate Gene W. Helen for the status of Emeritus Professor of Geological Sciences following his early retirement from the University this summer. This nomination follows the recommendation of the Geological Sciences faculty which acknowledges that Gene Helen has had a long and distinguished career at Ohio University and is justly deserving of the special recognition inherent in the award of Emeritus status.

Upon his retirement, Gene Helen will have served the University for 35 years; he will have served the College both as a member of numerous committees and as an advisor to scores of undecided Arts and Sciences undergraduates; and he will have served the Department as Curriculum Chair, Undergraduate Coordinator, Field Camp Director, Teaching Assistant Coordinator, and Department Chairman. Teaching has been his passion. This is evident in his co-authoring of a published laboratory exercises text, his work as an instructor at the National Science Foundation In-Service Institute for Earth Science Teachers, and his recognition by the College with an Outstanding Teaching Award. His roles in teaching core courses for all Geological Sciences undergraduate majors and supervising our graduate Teaching Assistants has resulted in his having influenced nearly every geology student at Ohio University from 1966 to 2001!

Gene Helen has therefore earned the special recognition conferred with Emeritus status in all areas upon which such a judgement is based; especially in the areas of length of service, quality of teaching and performance in administrative positions, and overall contribution to the University and the community beyond. I wholly concur with the department faculty’s conclusion that Gene Helen service to the educational mission of the University fully justifies the courtesy of the award of Emeritus status.

RE: Emeritus Status Nominations

It is my pleasure to support the emeritus nomination for Professor David G. Hendricker.

The Department of Chemistry requests professor emeritus status for David G. Hendricker who joined the department in 1965. He was promoted to full professor in 1975. During his career he has been a major advisor for 12 Ph.D. dissertations and eight masters these. He’s served on the faculty senate as well as departmental, college and university committees. In addition he’s taught at every level from general chemistry through the graduate curriculum, and he’s published 49 scientific articles and presented 38 papers at scientific conferences.

From:  Ken Brown, Chair, Department of Chemistry and Biochemistry
Re:  Nomination of Professor David Hendricker for Emeritus Status

On behalf of the Department of Chemistry and Biochemistry I would like to nominate Professor David G. Hendricker for emeritus status following his early retirement in June of 2000.

Professor Hendricker has had a long and distinguished career at Ohio University. He joined the Department in 1965 as an Assistant Professor and was promoted to Associate Professor in 1969 and to Full Professor in 1975.

During his career, Professor Hendricker published 49 scientific articles and presented 38 papers at scientific conferences. He served as major advisor for 12 Ph.D. dissertations and eight masters theses. He has also served admirably on the Faculty Senate as well as many University, College, and Departmental Committees. He has also taught at every level from general chemistry through the graduate curriculum and is well known as an excellent teacher.

In recognition of his outstanding service to the Department and to Ohio University, the granting of emeritus status seems highly appropriate.

RE: Emeritus Status Nomination

It is my pleasure to support the emeritus nomination from the Psychology Department for Donald Gordon, professor.

A member of the Psychology Department for twenty-three years, Don Gordon has focused on graduate training in his area of expertise, child and family psychology. His work in the area of delinquency prevention and education for divorcing parents has resulted in his offering services and programs to area courts and social service agencies. His research in these areas has had a national and international impact, and he continues to be active in publishing and presenting his research. Two of the programs he developed received ratings of Exemplary Program from federal agencies who are promoting best practices programs for service providers.
Memo

From: Bruce Carlson, Chair, Psychology Department

RE: Emeritus nomination for Professor Donald Gordon

I am pleased to nominate Don Gordon for Emeritus status at Ohio University. Don retires this June, 2001, after 23 years at Ohio University. He has performed well in his teaching, which focused on graduate training in his area of expertise, child and family psychology. He has also performed well in service to the department, community, and university. Much of his work in the area of delinquency prevention and education for divorcing parents has led him to offer services and programs to area courts and social service agencies. The programs Don developed are in use nationally and internationally, and he is a frequent speaker and presenter at conferences on these topics. Don’s research in these areas has had a national and international impact, and he continues to be active in publishing and presenting his research. Two of the programs he developed received ratings of Exemplary Program from federal agencies who are promoting best practices programs for service providers. In summary, I believe Don has served the University very well, and will continue to do so after retirement, and he deserves Emeritus status.

RE: Emeritus Status Nominations

It is my pleasure to support the emeritus nomination for Associate Professor David A. Johnson, Department of Psychology.

The Department of Psychology is nominating David A. Johnson for associate professor emeritus status. A member of the Ohio University faculty since 1970, Dr. Johnson served as assistant chair for undergraduate studies in the department for 10 years. In addition he advised hundreds of undergraduates, chaired the department’s curriculum committee and served as the department’s liaison with the regional campuses. During his career he published more than 20 articles and presented at major national conferences.
David A. Johnson retired from Ohio University in June of 2000 having served on the faculty in the psychology department for 30 years. Dr. Johnson's greatest contributions to the department were made as Assistant Chair for Undergraduate Studies, a position that he held for 10 years. During this time, while overseeing the undergraduate program, Dr. Johnson advised hundreds of undergraduates, chaired the department's Curriculum Committee, and served as the department's liason with the regional campuses. He also met with untold prospective students and their parents during their visits to campus. Perhaps most remarkably, he unfailingly discharged his responsibilities with patience and good humor.

Dr. Johnson was a successful scholar and teacher. Early in his career, he maintained an active research program, publishing more than 20 articles and presenting regularly at major national conferences. In later years, he willingly accepted heavier teaching and service loads, which benefited the department immeasurably as well as the undergraduates who were fortunate enough to have him as their teacher.

For 30 years, David Johnson was an integral member of the psychology department at Ohio University. It is with honor and pleasure that we recommend him for consideration as emeritus associate professor of psychology.

RE: Emeritus Status Nominations

It is my pleasure to support the emeritus nomination for German Professor Barry Thomas, Department of Modern Languages.

Barry Thomas was a member of the Department of Modern Languages before moving to early retirement status after Fall Quarter 2000-01. During his 35-year career at Ohio University he taught courses in German language and literature at all levels, was a major supporter and leader of the study abroad program in Austria, which he directed eleven times, and he has always been available to discuss teaching and other student-related subjects with his students and colleagues. In addition he made significant contributions to foreign language education at the local, state, and national levels including involving the department in the national movement of Academic Alliances in Foreign Languages and Literatures which has promoted collaboration between college and high school teachers for the past 17 years. He has also served as chair of the department, as president of the Ohio Foreign Languages Associate, and on several departmental, college, and university committees.
Emeritus Status Nomination
for Barry Thomas
January 26, 2001

The Emeritus Status Committee in the Department of Modern Languages nominates with great pleasure Barry Thomas for the rank of Professor Emeritus. Barry has been an outstanding member of the department for the past 35 years.

Teaching  Barry has taught courses in German language and literature at all levels on many different subjects. He has brought the same high level of enthusiasm to teaching a beginning language course as to teaching the more advanced introduction to literature classes. Barry has made a major contribution to teaching through the study abroad program in Austria, which he directed eleven times. It was thanks to Barry's efforts that the study abroad program survived during lean years. The program is essential to the training of German students, who return from the experience in Austria with renewed motivation to pursue the major. A mentor to fellow colleagues, Barry has always been available to discuss teaching and other student-related subjects.

Outreach and Publications  Barry has made outstanding contributions to foreign language education at the local, state, and national levels. As chair of the Department of Modern Languages at Ohio University for ten years he initiated projects that have had long-term effects on language teaching. He involved the department in the national movement of Academic Alliances in Foreign Languages and Literatures, which has promoted collaboration between college and high school teachers for the past seventeen years. Barry published articles in national journals that deal with the benefits of collaboration among foreign language teachers at all levels. He gave invited presentations in Washington, Chicago, and Atlanta, among other places, and is known nationally as a leader in foreign language education.

Service  The Department of Modern Languages has benefitted immensely from Barry's outstanding service contributions. He was a member of numerous committees before becoming chair of the department (1977-1987) and has continued to serve the department in many ways after returning to full-time teaching. He has played a leadership role among faculty on campus as a member of several important committees and as a faculty senate representative. At the state level, he was elected president of the Ohio Foreign Language Association, a large group of college and high school teachers.

Barry's many accomplishments have been carried out with a strong spirit of collegiality and a wonderful sense of humor. Always willing to help a student or colleague, he has contributed a great deal of energy and competence to the department. It will be difficult to fill the many roles he has played over the years.

RE: Emerita Faculty Recommendations

I am pleased to express my enthusiastic recommendations for emerita status for the following faculty members in the College of Business:

Dr. Peggy Miller

Dr. Miller has been an excellent faculty member in the College of Business for over sixteen years. Her dedication to student learning is witnessed in the positive feedback from her students. Dr. Miller has taught many of the management “mega” sections and service courses that have brought her in direct contact with over 10,000 students both in and outside the College. Her research, albeit not a requirement of her contractual agreement with the College, has been quite active and diverse in its nature. She has further served the University through student organization advising, and participating in Faculty Senate.
Date: December 8, 2000

To: Dean Glenn Corlett
Provost Sharon Brehm
President Robert Glidden

From: Mary C. Keifer, Chair
Department of Management Systems

RE: Nomination of Peggy Miller for Emerita Status

On behalf of the Department of Management Systems, I would like to nominate Dr. Peggy Miller for Emerita status.

During the sixteen years that Dr. Miller has been at Ohio University, she has served with distinction. She has taught management and organizational behavior and by our best estimation has instructed almost 10,000 students! Student comments reveal that she gives excellent examples that are “real world” oriented, is highly organized, and uses teaching materials effectively. She is also commended for her practical, upbeat approach, sense of humor and the way that she encourages participation within the class.

Even though Dr. Miller’s Group 2 status does not require research, she has been extremely active. She is the author or co-author of articles appearing in Higher Education Management, the CUPA Journal, the Indian Journal of Higher Education, the Higher Education Review, and the Society for the Advancement of Management International Conference Proceedings. She also wrote a portion of the Instructor’s Resource Manual to accompany Management: Concepts and Practices, Nutrition for the Mature Adult, The Thrill of Learning, and The Fifty States Cookbook.

Once again, Dr. Miller was not required to be involved with service or professional activities. However, she served as an Advisor to Mortar Board, an Advisor to the Society for the Advancement of Management, a member of Faculty Senate, and has attended multiple professional conferences around the world. She was the recipient of a national award for “Outstanding Faculty Advisor to SAM” and received two national awards for The Thrill of Learning.

Dr. Miller is clearly a worthy candidate for this honor.

RE: Emerita Faculty Recommendations

I am pleased to express my enthusiastic recommendations for emerita status for the following faculty members in the College of Business:

**Dr. Valerie Perotti**

Valerie Perotti joined the faculty of the College of Business in 1987 and made her presence known at once. Her performance in the classroom is exceptional. She is consistently recognized, through student evaluations, as one of the top teachers in the College. She was most appropriately awarded the Ohio University Professor Award in 1993. In the area of intellectual contribution, Dr. Perotti is again exceptional. She has published in some of the most prestigious business and communication publications in the world. She has authored multiple Proceedings papers. Recently, she was invited to extend the keynote address at the EDINEB conference in Norway. Dr. Perotti’s service is second-to-none. She served as the director of the Center for International Business Education and Development in the College and Chair’s one of the most influential Continuous Improvement Teams in the College. In addition to these responsibilities, Dr. Perotti serves as the Assistant Dean for Undergraduate Studies. Under her direction, the College embarked on a complete curriculum revision to a problem based learning model that has gained national notoriety. Her leadership was recognized by the AACSB when Ohio University’s College of Business captured the “Innovation in Leadership of Business Education Award”. Dr. Perotti’s contributions to her students, her colleagues, her College and her community are nothing short of incredible.

     President Robert Glidden

From: Mary C. Keifer, Chair  
      Department of Management Systems

RE: Nomination of Valerie Perotti for Emerita Status

On behalf of the Department of Management Systems, I would like to nominate Professor Valerie Perotti for Emerita status.

During the fourteen years that Dr. Perotti has been at Ohio University, she has served with distinction. Among the subjects that she has taught are business communications, the Corporate Leadership Colloquium, organizational behavior, and a management seminar in "Doing Business Across Cultures," as well as tutoring numerous honors tutorial students, serving as an MBAWB faculty team member, and teaching various graduate students in Malaysia. I can say without qualification that Dr. Perotti has consistently had one of the very best scores on student course evaluations within the college and not surprisingly was given the Ohio University Professor Award in 1993.

In the area of research, Dr. Perotti has also been outstanding. She has been the sole or co-author of articles appearing in Innovation in Business Education: theory and practice, the Global Trends Conference Readings Book, the Association for Business Communication Bulletin, Interface, the Mid-American Journal of Management, New Accountant and the Communication Management Quarterly. She is also the author of numerous Proceedings papers and presentations, including an invited keynote address at the EDINEB conference in Bergen, Norway.

Dr. Perotti's professional and service activities are nothing short of incredible. She served as the founding director of the Center for International Business Education and Development in the College of Business, as well as serving as the Assistant Dean for Undergraduate Studies. She has been the driving force in a total change in the College of Business curriculum, which has gained national recognition by the AACSB. She effectively chairs an extremely active College CITeam, serves as the Program Director for the Corporate Leadership Fellows, and has spent hundreds of hours working on the Procter & Gamble grant of $150,000 which she procured for the college. She also served on the Pew Roundtable, as a member of the University Program Assessment Committee, a member of the University Provost Search Committee and College of Business Dean Search Committee and various other activities far too numerous to mention.

Dr. Perotti is clearly a worthy candidate for this honor.

President Robert Glidden
From: Mary C. Keifer, Chair  
Department of Management Systems
RE: Nomination of Richard Scamehorn for Emeritus Status

On behalf of the Department of Management Systems, I would like to nominate Richard Scamehorn for Emeritus status.

Richard Scamehorn first came to Ohio University as an Executive-in-Residence in 1988 after a distinguished career with Diamond Power Specialty Company. During the twelve years that he has been at Ohio University, he has served with distinction.

Let me first address his teaching. Richard Scamehorn has taught a variety of classes including strategy, management and various courses successful Tier 3 course. His course evaluations have always been above average. Students really appreciate his actual international experience and the insights that he is able to share with them, as well as his very effective utilization of the case method. He has also been a highly respected tutor for the incoming Honors Tutorial students in the College.

In the realm of intellectual contributions, Richard has done very well. He has had publications in the Mid-American Journal of Business, the Business Case Journal, the Journal of Research Institute for Industry and Economics, and the Midwest Review of International Business Research Proceedings. In addition, he has had chapters published in Business Strategy Cases, the Pinnacle Edition of Premis, the Eastern European Casebook, and Cases in International Entrepreneurship.

He has also served as the "organizing" Advisor to the International Business Society, where he not only attended club functions but also travelled internationally with the students. He also founded the Global Competitiveness Institute at Ohio University, which started as a joint-program between Janus Pannonius University of Pecs, Hungary and O.U. He served as Director for 3 years. He also has been very active in the recruitment of High School students to the College of Business.

Richard Scamehorn has also been extremely active in his home community of Lancaster, Ohio. He was instrumental in the development of what has become a 12 day event featuring concerts of various sorts that generally draws 50,000 people. He also is the business manager (volunteer) for a regional organization, the "Lancaster Chorale" which presents musical events throughout the year.

Richard Scamehorn is clearly a worthy candidate for this honor!

TO: Sharon S. Brehm, Provost
FR: Glenn E. Corlett, Dean, College of Business
RE: Emerita Faculty Recommendations

I am pleased to express my enthusiastic recommendations for emerita status for the following faculty members in the College of Business:

**Virginia Woolley**

Virginia Woolley has served Ohio University for over thirty-six years with service to the College of Business and the College of Arts & Sciences. Virginia not only assisted students with classroom instruction, but she also designed the College of Business’ first internship program and worked as its coordinator for many years. She also served as a student organization advisor. She has facilitated workshops with various themes for a variety of corporations across the country.
Date: December 8, 2000

To: Dean Glenn Corlett  
    Provost Sharon Brehm  
    President Robert Glidden

From: Mary C. Keifer, Chair  
       Department of Management Systems

RE: Nomination of Virginia Woolley for Emerita Status

On behalf of the Department of Management Systems, I would like to nominate Virginia Woolley for Emerita status.

During the thirty-six years that Virginia Woolley has been at Ohio University (fourteen years in the English Department and twenty-two years in the College of Business), she has served with distinction. She has taught business communications, and student comments reveal that everything that she does is with class and style! Students appreciate her constructive comments, her sense of humor, and the time that she takes to meet individually with them. She is highly organized and is really concerned that everyone understand. The care that she takes to provide exceptional guest speakers is also appreciated. She also has worked very hard to make class projects interesting, such as the study done by her students on The Seriousness of Class Close-outs and proposed solutions.

Even though Ms. Woolley was a Group 2 faculty member, she designed the College's first internship program and worked as coordinator for 12 years. At the time she stepped down, she was placing 75 interns per year. She also was the first faculty advisor to the Black Student Business Caucus. She has also run various workshops including Effective Professional Writing for GTE Headquarters for Operations, Irving, Texas, Communicating Successfully, Communication Skills for Management, Writing in the Workplace, Do the Job-In Writing, and Ready for Action—Memos, Letters and Reports for the Lancaster-Fairfield Hospital.

Virginia Woolley is clearly a worthy candidate for this honor.

Re: Emeritus Status for Robert S. Barcikowski

It gives me great pleasure to nominate Robert S. Barcikowski, professor of Educational Studies, for emeritus status at Ohio University. Materials supporting the nomination have been forwarded to your office. Please let me know if any additional information is required.
Dr. Robert S. Barcikowski

Professor Robert Barcikowski graduated from the State University of New York at Buffalo in 1964 with a B.A. in mathematics. Six years later, still at Buffalo, Bob had completed his Ph.D. in Educational Psychology (statistics and measurement). He came to the College of Education at Ohio University in 1969 and has been here ever since.

Over the next thirty years, Dr. Barcikowski taught just about every course offered in Educational Research and Evaluation and, this fall on his first quarter of early retirement, he taught still another new course that he developed specifically for the EDRE program. Bob has also recently offered a course with a web-based component.

His former students are all over the world, enjoying success in many different occupations. Some of these students, of course, are here at Ohio University.

He has also served our college administratively both as coordinator of the program in Educational Research and Evaluation (on a number of occasions and for many years) as recently as last year and as director of the former School of Applied Behavioral Sciences and Educational Leadership. Bob served as biostatistician for the College of Osteopathy at Ohio University for five years and has been an active participant in a number of local clubs and organizations in the Athens area.

Bob worked on projects through the COE for two years in Namibia as the Assessment and Measurement Advisor to the National Institute of Educational Development. Shortly after, he was in Lesotho for two years where he was the Primary Education Project Test and Measurement Advisor to the Evaluation, Research and Testing Division of the National Curriculum Development Centre of the Ministry of Education.

He has an outstanding and consistent record of research over his entire career in higher education. Bob has published twenty-nine papers in major professional journals and has presented more than fifty papers at professional conferences. He has written three books and three chapters in edited texts. He has been the principal investigator on four grant projects and has consulted on over thirty additional projects.

Bob is a thoughtful and generous colleague whose professional activities and service continue unabated. He is currently serving as Vice-President Elect of Midwest Educational Research Association and will assume the duties of both Program Chair and Vice-President of MWERA next year.

The faculty and staff of the Department of Educational Studies conclude that Dr. Robert Barcikowski has given thirty years of exemplary and dedicated service to the College of Education at Ohio University and is most deserving of Emeritus status.
Subject: Nomination of Professor Hollis Chen for Emeritus Status

Professor Hollis Chen has been an outstanding faculty member in the School of Electrical Engineering since 1967. We believe he has earned the title and status of Professor Emeritus of Electrical Engineering for the following reasons:

Length of Service

Professor Chen was a Group I faculty member in the School of Electrical Engineering and Computer Science (and its antecedents*) for 32 years. During his service he was granted tenure (1969) and eventually promoted to the rank of Professor (1975).

* Dept. of Electrical Engineering, to 1975 and Dept. of Electrical and Computer Eng., 1975 - 1995

Quality of Teaching and Research or in Administrative Service

Teaching

Professor Chen has consistently been one of our most effective teachers in EECS as reported by both students and fellow faculty. He was nominated for Ohio University’s Outstanding Graduate Faculty Award and in 1990 received the Class of 1950 Award for Faculty Excellence. He is the author of 2 textbooks and contributing author another.

Research

Professor Chen is the author of over 40 refereed journal publications of the highest quality. He is a world-recognized expert in electromagnetics and is a reviewer for the five highest quality journals in his area.

Administrative Service

The most significant service performed by Professor Chen was his tenure as Acting Chairman of the Department of Electrical and Computer Engineering from 1984 to 1986. This was a time of considerable upheaval following the departure of a long-time chair. Professor Chen, though reluctant to take this assignment under such difficult circumstances, did so and preserved the quality and integrity of the department while a new chair was recruited. He deserves a great deal of credit for the current high standing of the School of EECS.

(Continued overleaf)
Overall Contribution to the University

Professor Chen's overall contributions to the university have been as an outstanding teacher, scholar, researcher, author, and administrator. His contributions in these areas, especially during some difficult times for Ohio University, were perhaps the most outstanding of any faculty member at the University.

Service to Society beyond the University Community

Professor Chen has performed exemplary service to the profession of electrical engineering by way of his activities as a member of numerous professional organizations such as IEEE, the International Scientific Radio Union, and the Optical Society of America. He has also been active in the Chinese community in the Athens area.

We emphatically recommend Professor Chen for emeritus status with highest confidence.

DATE: February 7, 2001

TO: Sharon Brehm, Provost

FROM: Jerrel R. Mitchell, Interim Dean

SUBJECT: Emeritus Status for Professor Hollis Chen

I wholeheartedly endorse and support the nomination of Dr. Hollis Chen as “Emeritus Professor.” Professor Chen was a faculty member in the School of Electrical Engineering and Computer Science (EECS) — formerly the Department of Electrical and Computer Engineering — for 32 years. He had an outstanding career and can most appropriately be described as an icon in the Russ College of Engineering and Technology. His dedication to the university, the college, and the department was sincere and has helped EECS to be accepted as one of the best in the region. His accomplishments are numerous, including authoring of a widely accepted graduate textbook in his field, electromagnetics. Without reservations, I support his nomination.
DATE: November 15, 2000

TO: Jerrel Mitchell, Interim Dean, Russ College of Engineering and Technology

FROM: Dennis Irwin, Chair, School of EECS

SUBJECT: Emeritus Status for Professor Hollis Chen

Attached is an nomination for Hollis Chen to be designated "Emeritus Professor". Please note that, due to a mistake for which I am entirely responsible, this nomination was returned to me without action in April 2000. The original nomination, the memo of concurrence from the "EECS Ad Hoc Committee on Emeritus Nominations", and my original cover memo to Dean Wray are attached.
DATE: April 12, 2000
TO: Warren K. Wray, Dean, Russ College of Engineering and Technology
FROM: Dennis Irwin, Chair, School of EECS
SUBJECT: Emeritus Status for Hollis Chen

Attached is an emeritus nomination for Hollis Chen. I fully support Hollis' nomination for emeritus status. Hollis has been one of our most outstanding teachers for over 30 years and his service as Acting Chair in the early 1980's certainly held the department together during a very trying time.

TO: Sharon Brehm, Provost

FROM: Raymond Tymas-Jones, Dean, College of Fine Arts

SUBJECT: Emeritus Nomination: David Klahn

Based on the distinguished record of accomplishments in teaching, creative/scholarly activity and service as a member of the faculty in the School of Art at Ohio University and the recommendations of the Promotion and Tenure Committee and Director Power Boothe, I am pleased to endorse the nomination of Professor of Art, David Klahn for Emeritus title and rank posthumously.

RTJ/pd

cc: Power Boothe, Director, School of Art
March 15, 2001

Dr. Raymond Tymas-Jones
Dean, College of Fine Arts
Jennings House
Ohio University
Athens, OH 45701

Dear Raymond Tymas-Jones:

I am writing this letter to nominate David Mahn for Emeritus status in recognition of his thirty-three years of meritorious service to Ohio University.

This request is based on the excellence of his teaching, his exceptional work as an artist and the many years of superb administrative service he provided the university. His administrative contribution included his service as the Associate Dean of the College of Fine Arts, the Acting Director of the School of Art and the Associate Director of the School of Art.

David Mahn died at the peak of his career on February 21, 2001 at the age of 58. He was born in La Crosse, Wisconsin. He received a Masters of Fine Arts degree from the University of Wisconsin, Madison, in 1966 and an honorary doctorate from Haile Selassie I University in Addis Ababa, Ethiopia in 1967. He joined the Ohio University faculty in 1969.

David Mahn maintained a private sculpture studio and foundry in Athens, where for thirty years he created numerous public sculpture commissions. He also collaborated with other artists, most notably with the artist George Segal. Pieces with Segal include the Kent State Memorial Sculpture permanently installed on the Princeton University campus, Princeton, New Jersey, Youngstown Steel Memorial installed at the Youngstown Labor and Industry Museum, Youngstown, Ohio, and Restaurants at the Federal Office Building in Buffalo, New York.
David Klahn's own work included a diversity of projects from large-scale outdoor work to gallery bronzes. He received a National Endowment grant to create the multi-media sculpture Matrix at St. Francis Medical Complex in La Crosse, Wisconsin. He also designed a large body of work for The Nashville Network in Nashville, Tennessee. David produced the Ohio University Mace and the Presidential Metal of Office Ceremonial Chain and Medallions for Ohio University.

In the early 1980's David Klahn embarked on a mission to have a new sculpture studio building constructed to address the needs of the sculpture program. Completed in 1988, it currently stands as one of the treasured facilities of the School of Art. It is a multi-functional building that is a foundry, a facility for fabrication and reductive work and adaptable for the wide-range of materials that are employed by sculptors today. Without David's vision, planning and effective negotiations the building simply would not exist.

David consistently received exemplary teaching evaluations in the School of Art. His students loved him. He was offered the Outstanding Teaching Award from the School of Art several times, but turned each offer down. He earned the highest respect from everyone who knew him because of his knowledge, integrity and generosity and his wonderful dry wit. David Klahn was an artist, teacher and leader who was a reference point for what a caring, purposeful and engaged life can be.

This request comes as a result of a process that has been established by the School of Art. We ask that David Klahn be recognized for his commendable service by having emeritus status conferred upon him posthumously. I hope you will give our request your highest consideration.

Sincerely,

Power Boothe
Director, School of Art

TO: Sharon Brehm, Provost

FROM: Raymond Tymas-Jones, Dean, College of Fine Arts

SUBJECT: Emerita Nomination: Jessica Haigney

Based on the distinguished record of accomplishments in teaching, creative/scholarly activity and service as a member of the faculty in the School of Comparative Arts at Ohio University and the recommendations of the Promotion and Tenure Committee and the Interim Director Norma Humphreys, I am pleased to endorse the nomination of Professor of Comparative Arts, Dr. Jessica Haigney for Emerita title and rank.

RTJ/sb

cc: Norma Humphreys, Interim Director, School of Comparative Arts
Dr. Jessica Haigney, Professor of Comparative Arts and Associate Dean of the College of Fine Arts joined Ohio University in 1974. She served two terms as the Director of the School of Comparative Arts during her tenure on the faculty. In addition to developing and teaching both undergraduate and graduate theater history courses, Dr. Haigney has taught interdisciplinary seminars in the fine arts, developed a teaching seminar for graduate students, and initiated many curricular innovations including a viewing performance class which encourages active undergraduate student participation in College of Fine Arts performances each quarter. Her contributions to the general education curriculum include courses developed and taught for Tier I, Tier II, and Tier III levels of instruction. During her 27 year tenure at Ohio University, her student evaluations have been uniformly excellent and she has acted as a mentor to numerous junior faculty. She has received several teaching awards such as the Provost’s Award and has been a semi-finalist for the University Professor Award.

Interdisciplinary research interests are reflected in Dr. Haigney’s books, articles, and conference presentations which place particular emphasis on painting and the literary arts, including Chinese arts. She has served as a consultant to other university and college programs interested in developing interdisciplinary fine arts programs. Dr. Haigney was instrumental in developing a cultural exchange program with the Academy of Arts in Beijing, China and is a member of the Royal Society of the Arts, London.

In addition to her teaching responsibilities, for the past three years Dr. Haigney has served as the Associate Dean of the College of Fine Arts where she has been responsible for refining policies and procedures throughout the college, especially in the areas of graduate programs, curriculum, summer sessions, and International Education. She has been instrumental in providing academic analyses and budgetary data in each of these areas as well.

In the area of service, Dr. Haigney served two terms as a faculty senator, three terms on the University Planning Advisory Committee and the University Curriculum Council, and has served on numerous college and university committees.

Based on her long history of meritorious service to the College of Fine Arts and Ohio University, the School of Comparative Arts would like to recommend that emerita professor status be awarded to Dr. Jessica Haigney.

From: Roger L. Stephens  
Director, School of Music

Date: January 17, 2001

Subject: Emeritus Nomination: Guy Remonko

Attached please find a letter of nomination for Emeritus status for Professor Guy Remonko—this information and nomination was submitted by the brass and percussion division, C. Scott Smith, Chair.

Guy Remonko has truly been one of the shining lights within the school for his entire 28-year career at Ohio University. His work as an applied teacher, and his work as a professional performing artist at the national level has been a model for the entire school. Each year it has been my pleasure to write an annual evaluation that attempted to recognize the tremendous influence Guy has on his studio and the entire school. Every year he has been ranked in the highest category, "Outstanding."

In the area of percussion, it is imperative that a teacher maintain currency as more and more world instruments and contemporary compositions become a major part of band and orchestral literature. Guy Remonko has provided the highest professional-level training to all percussion majors and his students are consistently ranked as some of the best in the school.

While Guy is proficient in every area of percussion, he has received national recognition for his work on the drumset. He has performed with many professional classical and jazz artists, and continues to be one of the leading clinicians for both the Yamaha and Zildjian companies.

The school of music has been fortunate to have many fine artist/teachers, but Guy Remonko surely is one of the finest teachers with whom I have had the privilege to work with for some years. I should mention that even though he has opted to take advantage of the early retirement program, Guy continues to serve the school by teaching percussion methods to both our music education and music therapy students. He is an outstanding music educator.

I believe the School of Music, College of Fine Arts, and Ohio University should pay tribute to this distinguished artist, pedagogue, professor, and music educator through the granting of the emeritus title. I formally recommend this action for your consideration.
December 22, 2000

Roger Stephens, Director, School of Music
Ohio University
Athens, OH

Dear Roger:

It is my honor to write this letter in recommendation and support of Guy Remonko for the recognition of Professor Emeritus. I will attempt in this short document to list Guy’s qualifications and achievements during his tenure at OU.

Relative to the Ohio University Uniform Policy on Emeritus/Emerita Status, No. 2 Conferal, ... “This judgement should be based on many or all of the following factors...

Guy’s 28 years of teaching, professional activities, and service have been the model for all younger faculty members. His studio has been a model for other students in the School of Music in terms of the professionalism each student maintains throughout their tenure at OU and their musical/personal maturation as well. Guy’s teaching and conducting load has included applied percussion, percussion ensemble, Jazz Percussion Ensemble - which was the first JPE in Ohio, Marimba Ensemble, Solo Repertoire, Percussion Pedagogy, Percussion Methods for Education Majors and a special Percussion Methods Course for Music Therapy Majors, and early in his OU career, freshman theory. Guy’s students have gone on to become successful educators and performers. In the Music Teachers National Association competitions, he has had the national first place winner in 1984 and National second place winners in 1988, 1990, and 1993. Guy’s ensembles have always given great performances in recitals and at the annual Jazz Festivals here on campus. These ensembles featured many of his arrangements and compositions not to forget the internationally famous visiting artists Guy brought in to work with and perform with the students.

Guy has received national recognition as a leading set drummer and educator through his his clinical work as a Yamaha and Zildjian representative with the annual “Summer Drumset Workshops” which he founded since 1980, and has run at Capital Conservatory of Music (OH), University of North Texas, University of Utah, and Arizona State University (1990-1995). Guy has also published articles in Modern Drummer, Percussive Notes, and The Instrumentalist journals.

Guy is a member of the associations relitive to his professional environment: Local 179 of the American Federation of Musicians, International Association of Jazz Educators, Pi Kappa Lambda, and Percussive Arts Society where he was Chairman of the Drumset Committee for the 1999 PAS’s International Conference, and Tresurer of the Ohio PAS Chapter from 1989-1998.
Throughout his career at OU, Guy has maintained a very high level of performing artistry as a percussionist from classical ensembles, i.e.: principal percussionist with the Ohio Valley Symphony, to jazz combos and big bands. A brief listing of his jazz experiences include: drummer with the Bob Thompson Trio (1978-present) - an ensemble which has performed for Public Radio International and recorded a CD of those performances - and performed at two famous clubs: Blues Alley in Washington, D.C. and the Blue Note Jazz Club in NYC, and drummer/percussionist with the "Heritage Trio" which performed with the Rochester Philharmonic, Montreal, Portland (ME), Milwaukee, and Denver Symphony Orchestras.

Guy kept himself busy outside the university with all this professional work while maintaining and recruiting a successful percussion studio and raising two successful children. Guy also busied himself by performing faculty recitals and with other colleagues on their recitals. He was one of three OU faculty to commission Mark Phillips a work entitled "Three of a Kind" which was premiered with Guy on drum set, Richard Syracuse, piano, and David Lewis, clarinet and the OU Wind Symphony with myself as conductor. This work was also performed at an OMEA Convention in Columbus.

Other collaborations include performing with Stan Smith's Jazz Guitar Recital at Capital University, Tim Cummiskey, Jazz Guitar Recital at Kenyon College, with Bob Thompson at the West Virginia Governor's Mansion, and with saxophonist Chris Vadala with the Ohio Valley Symphony. Recently, Guy has performed with the Tom Carroll Quartet (including Gene Walker and Roger Hines from Ohio State University) at the Jazz at the Point Festival in Parkersburg, WV.

Overall, Guy Remonko has greatly contributed to the world of percussion and the OU School of Music through the "normal" channels of "teaching," "professional work," and "service," as well as creating a respect for all the areas of percussion. In similar size schools of music, there are usually two faculty percussionists divided either in the areas of Classical and Jazz or Classical and Jazz/Ethnic. Guy has worn all of these hats with a never-ending strive to perfection in both his teaching/performing and his student's musical levels. Guy certainly deserves the recognition of "Professor Emeritus."

Sincerely:

C. Scott Smith, Associate Professor of Horn and Theory, Chair, Brass and Percussion Divisions

Date: January 17, 2001

Subject: Emeritus Nomination: Harold Robison

Attached please find a letter of nomination for Emeritus status for Professor Harold Robison—this information and nomination was submitted by the performance division, Donna Conaty, Chair.

Dr. Harold Robison has had an outstanding career in the school of music—a career filled with excellent teaching and an undying love and dedication to the students and to this university.

It is rare to have a colleague equally at home in both the academic area and in the performance studio. Harold’s success was evidenced throughout the school as he taught the 2nd year of music theory for years. This course is taken by every music major in the school and he has played a large part in the academic success of many music majors. In addition, his fine studio work is reflected in the success of his bassoon graduates, many of whom have gone on to advanced graduate work or professional performance.

Though Harold has taken advantage of the early retirement program, he continues to teach music theory, one course each quarter. The energy and excitement that he brings to the class room is unequalled and he continues to amaze the junior faculty daily. The past two have been particularly notable, as he was awarded both the Distinguished Teaching Award by the school, as well as the university-wide teaching/service award from the class of 1950.

I believe the School of Music, College of Fine Arts, and Ohio University should pay tribute to this distinguished artist, pedagogue, professor, and music educator through the granting of the emeritus title. I formally recommend this action for your consideration.

TO: Roger Stephens, Director, School of Music

FROM: Donna Conaty, Chair, Performance Studies
Interim Associate Director

RE: Emeritus Nomination for Professor Harold E. Robison

It is my very distinct privilege to nominate Dr. Harold Robison for conferment of Emeritus status in the School of Music. Professor Robison has been a School of Music faculty member for thirty years during which time he has distinguished himself in all areas of faculty responsibilities; teaching, service, administrative and professional activity.

The quality of Professor Robison's teaching has long been a model of consistency and clarity while simultaneously imbued with a concern for each student's needs. Harold's teaching style can best be described as energetic, positive and enthusiastic. Many of his former students maintain regular contact with him as they pursue their own careers in academia, teaching, performance and administrative positions in the arts. His student evaluations are among the strongest in the School of Music and in 1999 he was recognized by music students when they honored him with the Distinguished Teaching Award. In the same year, he also received a campus wide teaching/service award from the class of 1950.

In the area of professional activity, Dr. Robison has maintained an active performance schedule that has included such ensembles as the Huntington, West Virginia and Ohio Valley symphonies and a wide variety of chamber performances on and off campus. Other notable activity included a solo performance at an International Double Reed Society conference. Each fall Harold presented a full solo recital on the Athens campus, displaying not only his commitment to artistic performance but serving an important role model to the School of Music community as well.

From 1983 to 2000, Dr. Robison served as Associate Director of the School of Music. In this position, he was regarded by faculty and students as an administrator possessing impeccable integrity who served the School of Music with great skill "in house" as well as within the larger university structure. His invaluable leadership and involvement in undergraduate recruitment has had an important impact in attracting students to the Ohio University School of Music. Harold's attention to detail in the handling of undergraduate scholarship allocation and working with offices campus-wide has benefitted many students in the School's wide variety of degree programs. Whether serving on the School's advisory committee, chairing a faculty search or overseeing important curricular changes, Robison has time and again demonstrated his exemplary administrative and interpersonal abilities in improving School of Music programs.

Outside of the university, Dr. Robison has been involved in a number of activities. Among these are adjudicating high school music events sponsored through the Ohio Music Educators Association and serving in leadership roles at the Athens First Presbyterian Church. At the church, he and his wife Janice annually provide funding to bring in a nationally recognized young performing artist on the organ. These activities reflect his level of commitment to the performing arts not only at Ohio University but throughout the community and region as well.
On a more personal level, I know I speak for many when I add the incalculable element of support and mentoring that Dr. Harold Robison provided to members of the School of Music faculty, particularly those early in their careers at the university. Always receptive to fresh ideas, he demonstrated the capacity to give new visions their full consideration within the context of the School and university structure.

In conclusion, in his roles as colleague, teacher and administrator it is certainly important to state that Robison actively encouraged and enabled others to define and achieve their goals.

DATE: February 1, 2001

TO: Sharon Brehm, Provost

FROM: Raymond Tymas-Jones, Dean, College of Fine Arts

SUBJECT: Emeritus Nomination: James Scholten

Based on the distinguished record of accomplishments in teaching, creative/scholarly activity and service as a member of the faculty in the School of Music at Ohio University and the recommendations of the Promotion and Tenure Committee and Director Roger Stephens, I am pleased to endorse the nomination of Professor James Scholten for Emeritus status.

RTJ/sb
To: Raymond Tymas-Jones  
Dean, College of Fine Arts  

From: Roger L. Stephens  
Director, School of Music  

Date: January 17, 2001  

Subject: Emeritus Nomination: James Scholten  

Attached please find a letter of nomination for Emeritus status for Professor James Scholten—this information and nomination was submitted by the music education division, Milton Butler, Chair.

Dr. Scholten has served the school for over 30 years in all three areas of teaching, professional activity, and service. Even though the school offers several degree programs, the music education division has over 50% of the students. Dr. Scholten has been responsible for teaching the core courses in elementary music education to both instrumental and vocal/choral music education majors. In addition, he has single handedly nourished the graduate component of music education and has guided many students through current research in the discipline, culminating with quality published theses.

Dr. Scholten also maintained a high profile for years, participating in the on-going restructuring of music teacher training, both state-wide as well as at the national level. His contributions as editor of several national music education journals is notable indeed.

We should also mention that Dr. Scholten also chaired the music education area for several years, providing leadership for 4-5 faculty members and advising/teaching many hundreds of students who are presently serving the profession as public school music teachers.

While Dr. Scholten has taken advantage of the early retirement option, he continues to service the school through the teaching of his specialty in elementary education, as well as the work in Orff and Kodaly musical instruments.

I believe the School of Music, College of Fine Arts, and Ohio University should pay tribute to this distinguished professor, and music educator through the granting of the emeritus title. I formally recommend this action for your consideration.

Re: Recommendation for Conferral of Emeritus Status for Professor James Scholten

The Music Education Faculty would like to formally recommend Dr. James Scholten for conferral of emeritus status. We do this with the utmost joy and satisfaction. Dr. Scholten has been a valued colleague in The School of Music for thirty years. Over that time he has distinguished himself as a professor who is caring, professional and knowledgeable. Personally, it has been my pleasure to work with and get to know Jim over the last ten years. We have found him to be one of the most knowledgeable and conscientious professionals we have had the pleasure of knowing. We have spent time in group and one on one conversation regarding issues that affect teaching in the contemporary school setting. It has been our fortune to be challenged by his questions and thought provoking statements which have caused us to think and rethink our positions on several topics.

As a general historian in the School of Music, Jim has been able to put all facts and events into historical perspective so that the past can guide planning and development for the future. His contribution to the School of Music is unsurpassed. He brought a mature and provocative perspective to the various topics being discussed. As Chair of the Music Education Division, he provided the faculty with a sense of direction and focus while maintaining a relevancy to the field. We are grateful for his guidance and vision.

Dr. Scholten, while maintaining an active teaching schedule, served the community as a substitute organist for those who work full time and must be relieved periodically. In this capacity, he has become known throughout the city as a most proficient and enjoyable performer. Jim has also been a very active member of the Music Educators National Conference where he has served on several national editorial committees for historical documentation of music and the development of music education in the United States. He has also presented articles in this genre for publication. The Ohio Music Education Association has called upon him to serve as a member of the State Research Committee and as a member of the Editorial Board for the Contributions to Music Education Journal. The university has called upon him to serve on many committees over his tenure here with his most notable contribution having been his elected seat on the University Faculty Senate. Dr. Scholten is well respected by colleagues in all these capacities. His influence can be felt throughout the school, the college, the state and the national level by way of his strong communication skills.
Dr. Scholten’s teaching has been a source of inspiration for young teachers coming in to begin their studies in music education. He has been able to provide them with a firm foundation during his teaching of the course “Introduction to Music Education.” This course sets the tenor for the students total experience here. In an effort to broaden his perspective on teaching and to become more relevant to the classroom of the twentieth first century, he was able to travel to and spend a summer in Swaziland, South Africa working and studying with the people there. This trip enriched his teaching and provided him with a more comprehensive perspective on teaching and learning. He has also created and established two courses which the curriculum needed. “Folk Music In The United States,” is a course which captures the imagination as well as creates a cultural awareness for the students who take it. For the music education curriculum he was able to establish a course named “Introduction to Orff Shulwerk.” In this course students are presented with the philosophical ideas and teaching techniques used by Carl Orff, the noted composer and teacher. The reviews of this course and others have always been stellar and in line with others in the school. His commitment to students and teaching is of the highest quality. Needless to say his participation on the Music Education faculty has been most rewarding for him, the students and faculty alike.

We hope you will actively consider Dr. James Scholten a candidate for this special honor upon his retirement.

From: Roger L. Stephens  
Director, School of Music

Date: March 15, 2001

Subject: Emeritus Nomination: Dr. Ira T. Zook

Please accept this nomination as a special request to the university to confer Emeritus title and rank posthumously to Associate Professor of Music, Dr. Ira T. Zook, Jr.

Ira came to Ohio University in 1973 after completing the DMA degree as an outstanding tenor from the University of Michigan. He then enjoyed a distinguished 28-year career in the School of Music until his unexpected death this past November. It should be noted that his plans were to take the early retirement option for next year, even though he was planning on teaching each quarter, lending his expertise in vocal literature and diction classes.

Ira’s teaching began primarily as a studio voice teacher, and this is the area in which he has made the strongest impact on countless singers over the years—singers that have gone on to outstanding graduate programs at major universities, as well as those that have performed professionally in opera and oratorio. Over the years, Ira also made a significant contribution in the choral area, and served as Director of Choral Activities and conducting the main SATB ensemble, the Ohio University Singers. He also formed the Choral Union which still functions today as a “town and gown” ensemble presenting the finest major choral works with orchestra. Of course his most recent choral accomplishment was the founding of the Singing Men of Ohio in 1989. This group has grown to approximately 80 men, 3/4 of whom are not music majors and represent a cross-section of the entire campus. They have been recognized throughout the state and region, as evidenced by their invitations at music conferences. Certainly the most notable accomplishment must be the China tour in the spring of 1999, which included major concerts at the conservatories in Beijing and Shanghai. The Singing Men are still the only music ensemble to have taken an international tour.

The success of Ira’s many past students is testimony to his contribution to the voice area as a distinguished teacher. Two years ago, one of his former students, Sandra Moon was given the Society of Alumni and Friends outstanding alumni award. Sandra is performing at many of the world’s
leading opera houses and is truly a reflection of Ira’s fine voice teaching. He also served for many years as chair of the voice division, leading a faculty of five, and providing leadership on both the school’s Advisory Committee and the Graduate Committee. I am pleased to report that Ira’s contribution in voice was recognized just this past spring by the governor and the Vocal Arts Resource Network for his outstanding achievements in vocal music. This is a state-wide honor and truly deserving.

Throughout his career, because of his gentle nature and genuine love for people, he has provided service far beyond the professional appointment. He was Buckeye Chapter president of the National Association of Teachers of Singing, a member of the Music Club of America, and served locally as the director of music at the Athens First Presbyterian Church, conducting the chancel choir for 27 years.

The contributions of Ira Zook cannot be overstated, and of course the Memorial Service this past November during the holiday break was an indication of the love and respect of students, faculty, and community members. This included 65+ men returning to campus from all across the country to sing and celebrate the life and contributions of Ira.

I believe the School of Music, College of Fine Arts, and Ohio University should pay tribute to this distinguished artist, pedagogue, professor, and music educator through the granting of the emeritus title. I formally recommend this action for your consideration.

FROM: Gary S. Neiman, Dean

SUBJECT: Emeritus Status for Ronald Whitaker

The faculty of the School of Recreation and Sport Sciences have recommended that the title of Professor Emeritus be conferred on Mr. Ronald Whitaker (see attached letters).

I concur with the recommendations. Mr. Whitaker has made significant contributions in teaching and service to his School, College, and Ohio University. In honor of his achievements and in recognition of his contributions, the title of Professor Emeritus is well deserved.

Gary S. Neiman, Ph.D.

Date: January 12, 2001

To: Gary Neiman, Dean

From: Sue Ellen Miller, Interim School Director

Subject: Emeritus Status for Mr. Ronald L. Whitaker

Attached you will find a recommendation from the School’s Promotion and Tenure Committee for awarding Emeritus Status to Mr. Ronald L. Whitaker. Mr. Whitaker has served the School for 33 years which covers the time span when we were a part of the College of Education and through the era when athletic coaches were also hired as teachers in our department and when men’s and women’s programs were separate. Mr. Whitaker was a part of these positive changes.

Mr. Whitaker’s background is physical education, particularly at the elementary level. Although Mr. Whitaker has served the School well in many capacities, a most important contribution has been in the curricular area. He made valuable contributions as the School programs evolved to the present state. His knowledge of how the university curriculum process works saved time and effort on the part of all concerned. Mr. Whitaker is also credited with coordinating the PED activity skills program. In this capacity, he worked with four graduate assistants and other instructors from the Athens and university community to implement this very broad-based activity program.

Mr. Whitaker was one of the first to become very proficient at using personal computers. His interest made him the obvious choice for the School’s first Webmaster. Mr. Whitaker also accepted the responsibility of keeping the quarterly scheduling process on a database, and he taught both undergraduate and graduate computer application classes. In addition, he served as a resource person as other faculty began to learn computer skills.

Mr. Whitaker’s involvement in the Athens community has primarily been with the Black Diamond Girl Scout Council where he has served in various capacities in that organization.

On the basis of his long tenure with Ohio University and his many accomplishments and contributions, I am happy to recommend Mr. Whitaker for Emeritus Status.

Enclosure
Date: January 10, 2001

To: Dr. Sue Ellen Miller, Interim Director
School of Recreation and Sport Sciences

From: Dr. Roger M. Gladders, Chair
Promotion and Tenure Committee

Subject: Evaluation of Emeritus Status for Mr. Ronald Whitaker

The Promotion and Tenure Committee of the School of Recreation and Sport Sciences has met to evaluate Mr. Ronald Whitaker for Emeritus Status. The committee used the criteria outlined in the Faculty Handbook and Mr. Whitaker's vitae to make this decision.

Mr. Whitaker has been a faculty member at Ohio University for 33 years. During his 33 year tenure he has served the school in teaching in the Physical Education Program and delivering the computer application courses. For the past several years Mr. Whitaker has also served as the Coordinator of the PED Program within the school. Mr. Whitaker has been an active member of many school, college and university committees over his tenure at Ohio University. His most recent contribution to the school includes his participation on the School and College Curriculum Committees (during the major curriculum changes in the Physical Education and Sport Sciences programs). Mr. Whitaker has been in charge of the School's Webpage since its inception. Mr. Whitaker has also represented Ohio University with his active service in the community within the Black Diamond Girl Scout Council.

On the basis of these accomplishments and the comparison to the level of recognition established by faculty members previously awarded this status we recommend Mr. Whitaker be conferred Emeritus status.

Dr. Robert Glidden
President
Cutler Hall
Ohio University

Dear Bob:

I write to recommend James T. (Tim) Kirkpatrick for "Emeritus" status upon his retirement. Tim has provided outstanding service during his thirty-four years at Ohio University. He has been associate director of Admissions for most of these years and has served the university as liaison between Admissions and the Athletic Department. During his tenure, he has provided remarkable counseling and guidance to students and parents. Tim is highly respected both on campus and in the secondary school world for his integrity and for his enthusiastic dedication to Ohio University. He has certainly served the university well and is deserving of Emeritus recognition.

I am delighted to offer this nomination and recommendation in Tim's behalf.

Sincerely,

Gary North

GN: nn
March 14, 2001

Dr. Robert Glidden  
Cutler Hall  
Ohio University  

Dear Bob:

I am writing to recommend that J. Tim Kirkpatrick be awarded emeriti status.

Tim has served Ohio University for over thirty years. He began his career in the Office of Career Services; however, the majority of his time has been spent on the Admissions' staff where he serves as associate director of admissions. Tim has provided outstanding service to the office and the university during his tenure here.

As associate director, Tim has been responsible for our on-campus visit program, and among other things, has coordinated the tour guide program. He has also served as the liaison between the Office of Admissions and the Athletic Department. In addition, he coordinates our non-traditional admission decisions.

In his work with colleagues and with students, Tim has been exemplary. His tenure in the Admissions Office began in the days of open admission. As we moved to selective admission, Tim has been a leader in implementing these new policies. At the same time, he has kept the interest of students in the forefront. He sees his role as a counselor and thereby puts the interest and welfare of the student first.

As a student and an employee, Tim's love, respect and dedication to the university is unquestioned. He takes pride in its emerging status as one of the preeminent public universities in the country. He has in fact helped us achieve this status. He has actively supported new program initiatives in the Office of Admissions. He has maintained an active affiliation with faculty and staff throughout the university and supports many co-curricular activities.

As Tim leaves full-time service, I was able to convince him to remain in a part-time capacity to visit schools in the local area where he has been an active presence for a number of years. He wants also to continue counseling students and reviewing files. In effect, he does not want to lose touch with the university. I believe the designation of associate director of admissions emeriti is warranted. Tim has been an outstanding employee and good friend. He will be missed but I am pleased that he will continue his active association with the Office of Admissions.

Please accept my heartiest recommendation that Tim Kirkpatrick be granted the status of emeriti. Thank you for your consideration.

Sincerely,

N. Kip Howard  
Assistant VP for Enrollment Services/  
Director of Admissions

The purpose of this memo is to request that emeritus status be conferred upon Dr. Gordon Schanzenbach who is retiring from Ohio University on September 30, 2000. Gordon came to Ohio University in 1969 to begin an MA in International Studies. He completed his MA in 1971 and in 1978 earned his Ph.D. in Curriculum and Instruction from the College of Education. He has served in many administrative roles at Ohio University since coming in 1969 including the Coordinator of Undergraduate Programs in the Center for International Studies, Acting Director of the Center for Southeast Asia Studies, Director of Graduate Student Services, Assistant Vice President for Graduate Studies, and Assistant Provost for Graduate Studies. For many years he served as a part-time instructor in Curriculum and Instruction in the College of Education.

Gordon’s service to graduate education at Ohio University has been exemplary. He became Director of Graduate Student Services in 1984 and has been instrumental in helping departments through all aspects of graduate education including the creation and review of graduate programs and the implementation of new means of handling admissions and graduate contracts through the offices of Graduate Student Services and Graduate Admissions.

Gordon also has served the educational community in many ways. He directed and taught in many teacher projects and workshops and served as a consultant in curriculum development in Southeast Asian Studies to area schools.

In my position as Associate Provost for Graduate Studies, I’ve had the opportunity to work with Gordon in an intensive manner over the past 18 months. I’ve had been very impressed with Gordon’s knowledge, dedication, and service to Ohio University. He has been exemplary in treating respectfully both the individuals he supervises and the students he serves. Gordon’s record of service to Ohio University is strongly deserving of being given emeritus status and I highly recommend that this honor be conferred upon him.

February 12, 2001

OHIO UNIVERSITY

Dr. Sharon Brehm
Provost
Ohio University
Athens, OH 45701

Dear Provost Brehm:

This is to request that Karen J. Williams be granted emeritus status by the Ohio University Board of Trustees at their April, 2001 meeting. My nomination of Ms. Williams is based upon her years of dedicated service to the Libraries over many years, her contributions to library service within the southeastern Ohio region, and her active participation in a variety of facets of university life.

Karen Williams retired from university service mid-year in 1999; this request is thus overdue by a year, but only because of the Library's lack of attention to process. By the time of her retirement, Karen had served the university and library for twenty-seven years, in several capacities. She contributed to the library's work in book cataloging and in reference services. In her longest and most successful assignment, Karen was the resource librarian for the Ohio Valley Area Libraries (OVAL), a consortium of public libraries in southeast Ohio. For nearly twenty-five years the Libraries enjoyed a collaborative relationship with OVAL; through Karen's efforts the university library annually filled over 11,000 requests for materials and reference assistance. Karen developed an outreach program, leading workshops and training library staff members in both reference and interlibrary loan processes. Through her leadership and library service, she improved and enriched the information resources of the region. She participated in discussion at the state level regarding public library networking and was an effective spokesperson for the particular needs of the southeastern Ohio region. Her work was acknowledged by OVAL in May, 1999, with an award presentation.

Karen's work as a librarian has always been of extremely high quality. She brought a particularly keen insight into people to her role on the reference desk; her direct and pragmatic style of handling interviews and consultations won her friends and fans among both the student body and faculty.

Within the university, Karen has been active in the Lambda Chapter of Phi Beta Kappa, serving as president and treasurer and in other leadership positions. She has been a member of the Women's Studies Programming Committee for well over ten years and played a particularly active role, organizing workshops and giving lectures under the auspices of Women's Studies. She served the city of Athens as a member of a neighborhood advisory committee for some time. We are aware of these connections, but Karen may well have contributed to the larger community in more ways, as she is well known and well regarded by many long-time faculty and staff and Athens residents.

Sincerely,

Julia Zimmerman

RE: Emeritus Status Nominations

It is my pleasure to nominate Assistant Dean for Undergraduate Student Affairs Kathleen S. Schumacher for administrator emeritus status.

Kathy Schumacher is being nominated for administrator emeritus status upon her retirement as Assistant Dean of Student Affairs. She has been affiliated with Ohio University for 18 years. From 1983-89 she was a part-time instructor for the School of Home Economics in the College of Health and Human Services. In 1989 she joined the College of Arts and Sciences as an Assistant to the Dean in the Student Affairs Office. Upon the retirement of Alice Kemmerle in 1991, she was promoted to Assistant Dean of Student Affairs. During the past 10 years she has advised and counseled thousands of undergraduates and personally cleared more than 10,000 for graduation. She has maintained a strong commitment to the arts and sciences curriculum and helped thousands of students successfully complete their academic career.

Re:  Emeritus status nominee

For the year 2001, Mr. Skip Vosler is a nominee from the Department of Intercollegiate Athletics for Emeritus status at Ohio University. Skip was a strong figure within our department’s history. It is our belief that his dedication and personal contributions to Ohio University, as well as his relationship with the Athens community, qualify him for Emeritus status.

With that, I strongly endorse Skip Vosler for this honor as just reward for all his efforts.

Sincerely,

Thomas Boeh
Director of Athletics
Name of candidate: Charles “Skip” Vosler

2. Quality of teaching, research, and service or performance in an administrative position: Skip served as an Assistant Athletic Director and included in his duties he served as the travel coordinator for men’s basketball. This involved making all of the travel, lodging and meal arrangements and being responsible for acting as the business manager on the trip.

3. Overall contribution to the University: Skip directed the athletic training coverage for Ohio University’s student athletes for 26 years. He started the state’s first undergraduate athletic training curriculum program (1971) and first graduate internship athletic training program (1978). Collectively, the programs have produced over 500 alumni. Many of these have worked at the top of the profession, including the NFL, NHL, MLB, Olympics, & leading state universities. Success of the alumni has brought national attention to Ohio University’s athletic training educational programs. Skip was a very active leader in the athletic training profession on all levels. In the early 1970’s, he was instrumental in organizing the GLATA (Great Lake Athletic Trainers Association) and in the 1980’s the OATA (Ohio Athletic Trainers Association). In the early 1990’s, he brought the OATA Hall of Fame to Ohio University where it is located in the upper concourse of the Convocation Center for public viewing.

4. Service to society beyond the University community. Through the graduate internship program, Skip was able to introduce graduate assistant athletic training students to local area high schools. This provided an valuable learning experience for the graduate students while being an extremely cost-effective resource for area high schools. Students reached schools in Athens, Hocking, Fairfield, Meigs, Ross, Perry, Vinton, and Washington counties. Additionally, Skip has presented at hundreds of meetings, including local community groups, area high schools, state associations, and regional and national athletic training symposiums. He served on professional association committees as the District 4 GLATA’s first Secretary-Treasurer and as the OATA’s first Vice-President.

5. Recognition and honors. Skip has received the NATA’s (National Athletic Trainers Association) Most Distinguished Athletic Trainer Award in 1998 and the NATA 25 year award. Additionally, he has been selected to Defiance College’s Hall of Fame.

TO: DELBERT MEYER, DEAN
FROM: HAMID SHAHRESTANI, DIVISION COORDINATOR
SOCIAL SCIENCE/HUMANITIES DIVISION
DATE: NOVEMBER 20, 2000
SUBJECT: EMERITUS STATUS FOR RONALD E. SALOMONE

The majority of the members of the Social Science/Humanities division at Ohio University-Chillicothe have agreed that appropriate steps should be taken to confer Emeritus status on Professor Ronald E. Salomone in recognition of his twenty-nine years of distinguished service to Ohio University.

nsh
RECOMMENDATION FOR EMERITUS STATUS
RONALD E. SALOMONE

Dr. Ronald E. Salomone, Professor of English, has taught at the Chillicothe campus for more than twenty-eight years, and during that time has demonstrated exceptional service to the community, the campus, the university, and the profession.

Throughout the years, Dr. Salomone's teaching has been regarded as excellent, as judged by the consistently high ratings of his class evaluations and the opinions of his colleagues. He was the first faculty member on the OU-C campus to reach the rank of full professor, and in 1987 he was selected as OU-C's Outstanding Faculty Member.

In the area of university service, Dr. Salomone has also served with distinction. He was elected for four terms (twelve years) as Humanities Division Coordinator. He served on the Ohio University Faculty Senate and the English Curriculum Committee and on numerous other committees both in Chillicothe and Athens.

In the field of English, Dr. Salomone has published numerous papers and two books on the teaching of Shakespeare, he has served as President and Executive Board Member of the Southern Ohio Council of Teachers of English, and he has presented at professional meetings from the regional through the international level.

Additionally, Dr. Salomone has been very actively involved in the Chillicothe community. He has been a member of the Sunset Club, the Ross County Library Speakers Bureau, and the Chillicothe Schools Advisory group. He personally initiated and directed the community-wide projects that launched the C.H.S. soccer program and the 1997 Habitat for Humanity Blitz Build.
Because of this record of achievement, his service to Ohio University and to his community, and his dedication to his students and members of his profession, Dr. Salomone deserves Emeritus Status.

SUBJECT: Emeritus Nomination

Upon her retirement last Spring, faculty at the Lancaster campus recommended that Dr. Carol Christy receive Emeritus Status. This recommendation was endorsed by John Furlow who was Interim Dean at the time.

I am pleased to add my recommendation that Dr. Carol Christy becomes Professor Emeritus of Political Science
TO: Charles Bird
FROM: John Furlow
DATE: March 16, 2000

It is my privilege to support the nomination of Dr. Carol Christy for Emeritus status. Dr. Christy has served the campus and the University with distinction for the past thirty years. By determination and hard work, Dr. Christy has achieved national recognition through the publication of her research and is recognized at the campus and within the University as an excellent teacher. She relates well to her students, but has high academic expectations for them. Her efforts were rewarded by her promotion to full professor. Dr. Christy serves as a model of the scholar/teacher and her example will remain for many years to come.
TO: Dr. John Furlow

FROM: Paul Yuckman, Division Coordinator

DATE: March 15, 2000

RE: Emeritus status for Carol Christy

I want to nominate Dr. Carol Christy for Emeritus status since she is retiring at the end of Winter Quarter 2000. Dr. Christy has certainly been one of our most distinguished faculty members in all three areas of teaching, professional growth, and service. She was our first Full Professor, and that honor was based upon her research and publication and her teaching. She has always been one of our most popular and respected teachers. Her contributions to the Lancaster campus in service have been, especially these last few years, considerably above average. For all these reasons, we should recognize her contributions with Emeritus status.

SUBJECT: Emeritus Nomination

Upon her retirement last Spring, the faculty at the Lancaster campus recommended that Associate Professor Lorraine Ray receive Emerita Status. Professor Ray provided outstanding service at the Lancaster campus and is deserving of this honor. This recommendation was endorsed by John Furlow who was Interim Dean at the time.

I am pleased to recommend that Lorraine Ray become Associate Professor Emerita of Office Technology.
I support the recommendation of Lorraine Ray for Emeritus status. She has been a faculty member at the Lancaster campus for 22 years. She has provided leadership for what is now called the Office Technology associate degree program. Recently, Lorraine has served as Coordinator of her Division and Chair of the Search Committee for the Campus Dean. Her quiet, fair, and student centered leadership along with a demanding program for her students (many of whom are now employed with the University at the Lancaster campus) will serve as a model for years to come.
March 16, 2000

Dr. John Furlow, Interim Dean
Ohio University—Lancaster
1570 Granville Pike
Lancaster, OH 43130

RE: Emeritus Status for Associate Professor Lorraine Ray

Dear John:

Associate Professor Lorraine Ray has taught at Ohio University—Lancaster since the fall of 1978. She plans to retire from that position after spring quarter, 2000.

Professor Ray's contributions to OUL have been significant. The program that she directed and classes that she taught have evolved considerably over the years. Initially, she directed the General Secretarial Program, later this changed to Office Management Technology, and finally the Office Technology Program. It was necessary for Lorraine to keep current with the many changes in technology associated with her field. She was also required to teach many different courses. She did both of these faithfully.

Lorraine annually made presentations to conferences in her field. She had several publications, most recently in the Journal of Business Communications. One area of professional interest dealt with customer service. She has made presentations to the Fairfield County Chamber of Commerce on this topic. Recently, she has made a study of student perceptions of customer service at OUL.

Lorraine has served on almost every committee available at OUL. She has also been the Division Coordinator of the Social Sciences Division (2 yrs) and the Professional Studies Division (3 yrs).

Her talents have also been realized in productions of the Theater Department at Ohio University—Lancaster. She has been an actress in four different plays the most recent being The Ginger Bread Lady.

Professor Lorraine Ray has made significant contributions to the Ohio University Community. She is well liked by her peers and her students. She will be greatly missed.

I strongly recommend that Professor Lorraine Ray be granted Emeritus status upon her retirement.

Respectfully Submitted,

Gary Lockwood, Division Coordinator

SUBJECT: Emeritus Nomination

The Faculty Council at Ohio University - Zanesville has nominated Associate Professor Robert Rider to become Associate Professor, Emeritus. This recommendation has been endorsed by Dean James Fonseca and Interim Associate Dean James Hoefler.

I am pleased to add my support for this recommendation. Bob Rider contributed long and well to our Zanesville Campus.
January 22, 2001

Charles P. Bird
Vice President
Ohio University
Regional Higher Education
Cutler Hall 206
Athens, OH 45701

I am very pleased to write to you to recommend that Robert Rider, retired Associate Professor of Mathematics, be honored with the status of Associate Professor of Mathematics, Emeritus.

Bob retired last year after 33 years of dedicated service to Ohio University. This honor has been initiated by the Faculty Council of Ohio University - Zanesville and endorsed by the Academic Division Coordinator, James Hoefer.

In his 33 years of service, Bob earned the respect of faculty colleagues, staff, and hundreds of students through his excellence in teaching and service to the campus and all of Ohio University. Scores of teachers throughout Southeastern Ohio have learned how to teach math from Bob Rider.

Bob has also been very active in bringing the community to OUZ by exposing future students to our campus through the Boy Scouts and Eagle Scout programs he held each year at OUZ. Literally thousands of young people have visited the campus because of Bob’s activities and many of them came back to us as students.

I strongly endorse this honor for Robert Rider.

Sincerely,

James W. Fonseca
Dean

Enclosures
January 18, 2001

James Fonseca, Dean

1425 Newark Road  
Zanesville, OH 43701

Dear Dean Fonseca:

I concur with the Faculty Council resolution in recommending that Robert Rider, Associate Professor of Mathematics, be conferred the honor of emeritus status.

Mr. Rider has a proven record of dedication in teaching mathematics at the Zanesville campus. He was instrumental in the provision of the "Mac" lab on our campus. He was one of the first instructors to include computer technology in courses offered at OUZ.

I am pleased to endorse emeritus status for Mr. Rider.

Sincerely,

James W. Hoefler  
Interim Associate Dean
Date: January 17, 2001

To: James Fonseca, Dean, Ohio University-Zanesville
Re: Emeritus Status for Bob Rider

The Faculty Council of Ohio University-Zanesville nominates Bob Rider for Emeritus status.

This nomination and recommendation recognizes Bob Rider's thirty-three years of service to Ohio University. Throughout his tenure at Ohio University-Zanesville, he consistently provided teaching and student advising of the highest quality as attested to by the uniformly high student evaluations received each term.

Bob Rider was a member of numerous faculty committees at both the campus and university levels, chairing several and serving admirably on all.

Beyond the campus and University community, Bob Rider was a good and productive citizen serving the Zanesville community in many ways. Most notable are his many years of work as a merit badge counselor and coordinator for Boy Scouts, and a choir leader and elder in his church. He was also responsible for creating the Mac Lab for Ohio University-Zanesville.

Bob Rider is recognized by his colleagues as an individual who helped develop the Zanesville campus of Ohio University and to establish its character and reputation for fine teaching and high standards.

Respectfully submitted,

Sheida Shirvani

SUBJECT: EMERITUS STATUS FOR DELBERT E. MEYER

The Arts and Humanities, Math and Science and Technical divisions of the Chillicothe campus have recommended inferring Emeritus Status to Delbert E. Meyer. Dr. Meyer has served Ohio University extremely well for over 15 years. I wholeheartedly support this request.

attachment
To: J. Stephen Phillips
From: Michael Lafreniere, Division Coordinator
Date: January 5, 2001
RE: Requesting Emeritus Recognition for Dean Delbert Meyer

Dr. Delbert Meyer, Dean of Ohio University-Chillicothe, has served the Chillicothe campus for 15 years, and during that time he has shown devotion and loyalty to Ohio University. Dr. Meyer is a dedicated administrator and teacher who has also demonstrated an exceptional commitment to the Chillicothe community and to the Chillicothe campus on which he served.

Dr. Meyer's administration ability was reflected in consistently high rankings on annual evaluations. In addition, Dr. Meyer has willingly supported a wide range of endeavors at the Chillicothe campus that have led to its growth and financial soundness.

Dr. Meyer has been very active in the areas of university and community service. These include Rotary and Rotary Foundation, serving as President of the board for Family HealthCare, Inc., participating on the InterAgency Childcare Board, Sunset Club, and many other organizations active in the community.

Dr. Meyer's record of 15 years includes many other activities in the university and community too numerous to mention here. In short, Dr. Meyer is worthy of emeritus status because of his dedication as an administrator and teacher as well as his service to the university and community.

Therefore, the Arts and Humanities, Math and Science, and Technical divisions of the Chillicothe campus have recommended conferring Emeritus status to Delbert Meyer.

Thank you for your consideration.

SUBJECT: Emeritus Nomination

The faculty at the Southern Campus has nominated Dr. Bill Dingus for the title of Dean Emeritus. This nomination has been endorsed by Eric Cunningham, Interim Dean.

I am pleased to add my support for this recommendation. Bill’s many contributions to Ohio University make this an especially appropriate recognition.
Dr. Charles Bird  
Cutler Hall 206  
Ohio University  
Athens OH 45701

Dear Charlie:

It gives me pleasure to forward the enclosed letter from David Lucas, Southern Campus Faculty Chair, and to endorse the recommendation from Southern Campus faculty regarding emeritus status for Bill Dingus.

Bill became acquainted with the Southern Campus first as a student. He became in 1976 the campus’ third director, a title that later changed to dean of Ohio University Southern Campus. When he took the helm, Dingus assumed that his tenure would last no more than three years, as the future of the campus was uncertain. It was understood that a permanent building to house the campus was highly unlikely. That was 24 years ago minus three buildings, the Ohio Horse Park, and the Proctorville center.

While the Southern Campus buildings will remain a visual reminder of Bill’s contribution, the significant increases in enrollment demonstrated the need for a permanent home for the campus. Bill recognized the increases and seized the opportunity to build facilities to house classrooms, an auditorium, a library, computer laboratories, student services center, science laboratories, offices, electronic media center, and the Ohio Horse Park for equine studies. The buildings are alive with students in various programs, including two-year technology programs in accounting, business management, electronic media, equine studies, human services, law enforcement, office technology, and travel and tourism. Associate in Arts, Associate in Science, and selected baccalaureate and master's degrees are also offered.

In addition to his leadership and vision in buildings and programs, Bill made contributions to the economic development of the greater Ironton area, as well as the State of Ohio. He has been an active member and office holder in the Greater Lawrence County Area Chamber of Commerce, the Lawrence Economic Development Corporation, and the Ironton-Huntington Empowerment Zone. Numerous civic and service
organizations in Ohio, Kentucky and West Virginia have given him various awards through the years, including the Ohio Humanitarian Award for Race Relations, Leadership Tri-State's Community Service Award, and induction into Junior Achievement's Tri-State Business Hall of Fame.

In light of the above I am happy to recommend Bill Dingus for emeritus status. I will be greatly surprised if he does not continue to be a most resourceful and creative leader and citizen during his retirement.

Sincerely,

Eric M. Cunningham, Ph.D.
Interim Dean

EMC/pfp
Enclosure
December 19, 2000

Dr. Eric Cunningham  
Interim Dean  
Ohio University Southern Campus  
1804 Liberty Avenue  
Ironton, Ohio 45638

Dear Dean Cunningham,

On behalf of the faculty at Ohio University Southern Campus, I am proud to nominate Dr. Bill Dingus for the Dean Emeritus status in accordance with Ohio University Policy & Procedure 18.031. We heartily recommend that such designation be placed upon Dr. Dingus.

Prior to his retirement, Dr. Dingus served our campus for over 25 years. His relentless service as Dean at OUSC surely set new standards in work ethic, energy and performance. In the classroom, Dr. Dingus distinguished himself as a student oriented instructor. He approached every task with “quality” in mind.

Dr. Dingus served the community, state and even our nation while serving as our dean. He constantly promoted the university in social settings, civic events and community activities. He displayed great tact and ability while working with state officials and officers. Dr. Bill Dingus personified Ohio University Southern Campus.

Buildings bear his name. Streets bear his name. Ideas, programs and projects bear his name. We can honestly say that the impact of the life of Dr. Bill Dingus will be felt and recognized many years hence. Along with other honors and recognitions he has received, we can only ask that Dean Emeritus be granted to this man who, beyond all doubt, is certainly worthy.

Sincerely,

FROM: Charles P. Bird, Vice President

SUBJECT: Emeritus Nomination

Dean James Fonseca has recommended that John Kelbley, recently retired Associate Dean of the Zanesville Campus, be given the status of Associate Dean, Emeritus. I am pleased to add my support to this recommendation.

John Kelbley provided a remarkable 37 years of service to the Zanesville Campus, as a faculty member and administrator. This recognition is well deserved.
January 22, 2001

Charles P. Bird
Vice President
Ohio University
Regional Higher Education
Cutler Hall 206
Athens, OH 45701

I am very pleased to write to you to recommend that John Kelbley, retired Associate Dean of the Zanesville campus be honored with the status of Associate Dean, Emeritus.

As you know, John retired in December after 37 years of dedicated service to Ohio University. In his 37 years of service, John has played a very important role as both a professor and a key administrator. As I said to faculty when I announced his retirement, the personality of OUZ — the community spirit and the atmosphere of dedication to students — reflects John's good work more than any other single individual on this campus. John has also been active in community service and an excellent mentor to me during the transition between deans.

I strongly endorse this honor for John Kelbley.

Sincerely,

James W. Fonseca
Dean

Maureen Weissenrieder, associate dean, College of Arts and Sciences, presented and Chairwoman Ackerman moved approval of the resolution. Mr. Browning seconded the motion. All agreed.

UNDERGRADUATE CERTIFICATE IN EAST ASIAN STUDIES

RESOLUTION 2001 - 1759

WHEREAS, the College of Arts and Sciences has proposed an interdisciplinary undergraduate certificate in East Asian Studies, and

WHEREAS, this proposal has the support of the dean and faculty of the College of Arts and Sciences, and the University Curriculum Council, and

WHEREAS, the proposed certificate will allow the college to deliver a quality program built on the faculty and curricular strengths currently existing in various departments, and

WHEREAS, the proposed certificate will allow students the opportunity to take a set of courses reflecting the interdisciplinary nature of global issues, in addition to their degree, and

WHEREAS, the certificate program will help prepare students for a world, where an understanding of the economic, political, social, and cultural dimensions of issues is important.

NOW THEREFORE, BE IT RESOLVED, that the Board of Trustees of Ohio University approves offering an undergraduate certificate in East Asian Studies.
DATE: March 7, 2001

TO: Robert Glidden, President

FROM: Sharon Stephens Brevoort, Provost

SUBJECT: Undergraduate Certificate Program in East Asian Studies

I support the proposal of a certificate in East Asian Studies to be offered by the College of Arts and Sciences. The certificate is interdisciplinary and is designed to prepare students for a broad understanding of East Asia (China, Japan, and Korea) as well as for the language skills required in a wide variety of professions. The proposed certificate is endorsed by the faculty and will serve to strengthen their curriculum offerings to students.

UNDERGRADUATE CERTIFICATE IN EAST ASIAN STUDIES

COLLEGE OF ARTS AND SCIENCES

Proposal

I. Background

Recently undergraduates at Ohio University have shown increasing interest in East Asia (China, Japan, and Korea). Many seek better cultural understanding of the region as crucial to their future careers. More and more Americans see that the world economy is becoming globalized so that a background on East Asia has a positive business/career application. Home to more than a quarter of the world's population, East Asia stands at the forefront of dynamic changes in the world economy and politics. Ohio University has already built a solid foundation in faculty with expertise specific to this vital region. Our language programs are mature with tenure-track faculty in Chinese and Japanese teaching several levels of courses for undergraduates. There is a growing number of core faculty available—currently 14 — offering studies on East Asia in many departments and colleges.

II. Purpose

This interdisciplinary certificate program will provide students with a broad understanding of East Asia as well as the language skills required in a wide variety of professions. The certificate program is in addition to the student’s major and will provide a needed nexus for students and faculty to interact across academic boundaries. Language students will be encouraged to add other disciplines, which necessitates the 36 hours required for the certificate. Although the certificate does not replace a major, it does provide testimony to possible employers or admissions committees as to the commitment of the candidate to East Asia.
III. Curriculum

The program required of the student candidates will emphasize a language requirement of two years of an East Asian language, with credit only for the intermediate level or above for a maximum of 12 hours. The large language component in the 36 hour total required for the certificate reflects the emphasis on language as the heart of the program. We anticipate that most of our candidates will come from the two East Asian language programs.

Required courses for the Certificate in East Asian Studies

Introductory course: one survey course on East Asia required as orientation.
HIST 246 Modern Asia (covers East as well as S.E. Asia)
POLS 390A East Asia in World Politics

Capstone courses: one required
HIST 449 Colloquium on East Asia

Languages of East Asia: Required component for certificate, with credit only for intermediate level or above for maximum of 12 hours credit. Students demonstrating ability can enter at the 211, 311, or 411 level as appropriate.

Chinese:
CHIN 111-113 (Elementary)
CHIN 211-213 (Intermediate)
CHIN 311-313 (Advanced)

Japanese:
JAPN 111-113 (Elementary)
JAPN 211-213 (Intermediate)
Advanced JAPN 311-313
Fourth Year JAPN 411, 412, 413
Elective courses available on East Asia
Candidates would receive credit for no more than 2 courses in the same discipline beyond the introductory and capstone courses. In order to encourage the broadest East Asian perspective, any courses beyond two may count toward a major, but not toward the certificate. The following courses have been approved by the East Asian Studies Committee. Candidates should take 16 hours from the following list with no more than two courses from the same discipline.

Art History (Dr. Kuiyi Shen)

IV. Advising and Coordination

At the present, responsibility for the program will be housed in the College of Arts and Sciences, with coordination by the Chair of the East Asian Studies Committee. Advising will depend on the cooperation of the East Asian Committee faculty members who teach the core courses. The certificate is open to majors from any department or college.
V. Teaching Faculty

H. Gene Blocker, Ph.D., Professor of Philosophy.
Elizabeth F. Collins, Ph.D., Assoc. Professor of Philosophy.
Anne Cooper-Chen, Ph.D., Professor of Journalism.
Donald A. Jordan, Ph.D., Professor of History.
Chulho Jung, Ph.D., Assoc. Professor of Economics.
Yeong H. Kim, Ph.D., Asst. Professor of Geography.
Jenny Kwok Wah Lau, Ph.D., Assoc. Professor of Film.
Jieli Li, Ph.D., Asst. Professor of Sociology.
Hiroyuki Oshita, Ph.D., Asst. Professor of Linguistics.
John Schermerhorn, Ph.D., Professor of Management Systems.
Kuiyi Shen, Ph.D., Asst. Professor of Art History.
Takaaki Suzuki, Ph.D., Asst. Professor of Political Science.
Christopher S. Thompson, Ph.D., Asst. Professor of Linguistics.
Liang Tao, Ph.D., Asst. Professor of Linguistics.

VI. Affiliated Faculty

Athens OH 45701

Dear Professor Jordan,

The Linguistics Department is pleased to support the proposed Undergraduate Certificate in East Asian Studies. There is nothing in the proposed Certificate Program that conflicts with our programs. On the contrary, as the department in which Japanese and Chinese languages are taught, Linguistics will be a strong contributor, and will at the same time benefit in the form of increased enrollments by highly motivated students.

Sincerely yours,

Richard McGinn
I affirm that an undergraduate certificate in East Asian Studies would not interfere with the program of the EW Scripps School of Journalism.

Dan Riffe, interim director
EW Scripps School of Journalism

Hello Maureen,

Yeong Kim asked me, as chair of the Geography Curriculum Committee, to review the proposal for the undergraduate certificate in East Asian studies. I circulated it to the other members of the committee, and we would like to extend our support to the proposal.

I got the impression that "the sooner I responded the better," which is why I am e-mailing this response. If you need an "official" letter of support, please let me know and I can send something to you via campus mail.

James Dyer
Associate Professor, Department of Geography
Ohio University
Athens OH 45701-2979
Dear Maureen,

I am writing to convey the unanimous support of the Sociology Curriculum Committee for the East Asian Studies Undergraduate Certificate program.

We are prepared to have Jieli Li, our participating member in the certificate program, continue to offer Soc. 430/530 and Soc. 465/565 in alternate years (as he is presently doing in the Sociology department).

Because Li's courses are not currently running at/over capacity, we do not expect sociology or sociology-criminology majors to be displaced by certificate students. In fact, we expect Li's participation in the certificate program will increase enrollments in these two sociology courses, benefiting the department.

Sincerely,

Amanda Konradi
Chair, Curriculum Committee

Donald Jordan
Professor, History
Department of History
Ohio University

Dear Don,

The Philosophy Department is pleased to lend what support it can to the proposed certificate in East Asian Studies. We might note, though, that the availability of the Philosophy courses other than Buddhism may be rather limited, since these are courses taught by Gene Blocker, who is now on semi-retirement. But since the courses are electives, we do not think this is a problem for your proposal.

Good luck,

Jack

Re: Undergraduate Certificate in East Asian Studies

I have reviewed the proposal for an undergraduate certificate in East Asian Studies, which includes several courses that I teach. As director of the Southeast Asian Studies Program, I have conferred with faculty who teach about Southeast Asia. We are in full agreement that the proposed certificate program will complement our offerings and strengthen our program, which now contains an emphasis on the Overseas Chinese in Southeast Asia. We are most willing to work cooperatively with the faculty who will teach in the Certificate in East Asian Studies Program.

I believe the new certificate program will also attract students to classes in the Philosophy Department on non-Western philosophy, including the courses on Buddhism, Taoism and Chinese Philosophy.

I give my support and best wishes to this proposal.

Elizabeth Fuller Collins
Director, Southeast Asian Studies Program
Associate Professor, Philosophy Department
Dear Dr. Weissenrieder,

As chair of the art history area, I have been asked by Kuiyi Shen to send a note to you. We do most enthusiastically support the proposal for an undergraduate certificate. I am sure this strengthens the university's academic offerings.

Best Wishes,
Dr. Jody Lamb

TO: Donald Jordan, Professor
Department of History

FROM: R. William Rowley, Director
School of Film

SUBJECT: Support for proposed Undergraduate Certificate in East Asia Studies

The School of Film supports the proposed Undergraduate Certificate in East Asia Studies. The School of Film offers three senior level courses that could be relevant:

**FILM 421 International Film I**
Analysis of the relationship between film and culture.
Features Asian films regularly.

**FILM 422 International Film II**
The development of a nation's or a cultural region's films is traced. Cultures under study vary and may include Brazil, China, Germany, Eastern Europe, Italy, Southeast Asia.

**FILM 423 International Film III**
The aesthetics and uses of film and related technologies in the study of both Western and non-Western peoples is studied.

The proposed Undergraduate Certificate in East Asia Studies should create a strong base of students for our senior level courses.

CC: Jenny Lau, Associate Professor & Curriculum Committee Chair
School of Film
The Department of Management Systems is aware of the East Asian Studies Certificate proposal and Dr. John Schermerhorn’s role in that effort. We are supportive of this initiative.

Please let me know if I can be of any additional assistance.

Mary Keifer, Chair
Maureen Weissenrieder, Associate Dean, College of Arts and Sciences, presented and Mr. DeLawder moved approval of the resolution. Mr. Snyder seconded the motion. All voted aye.

UNDERGRADUATE CERTIFICATE IN ITALIAN STUDIES

RESOLUTION 2001 — 1760

WHEREAS, the College of Arts and Sciences has proposed an interdisciplinary undergraduate certificate in Italian Studies, and

WHEREAS, this proposal has the support of the dean and faculty of the College of Arts and Sciences, and the University Curriculum Council, and

WHEREAS, the proposed certificate will allow the college to deliver a quality program built on the faculty and curricular strengths currently existing in various departments, and

WHEREAS, the proposed certificate program will allow students the opportunity to take a set of courses reflecting the interdisciplinary nature of global issues, in addition to their degree, and

WHEREAS, the certificate program will help prepare students for a world, where an understanding of the economic, political, social, and cultural dimensions of issues is important.

NOW, THEREFORE, BE IT RESOLVED that the Board of Trustees of Ohio University approves offering an undergraduate certificate in Italian Studies.
DATE: March 7, 2001

TO: Robert Glidden, President

FROM: Sharon Stephens Brevost, Provost

SUBJECT: Undergraduate Certificate Program in Italian Studies

I support the proposal of a certificate in Italian Studies to be offered in the College of Arts and Sciences. This certificate program is designed as an interdisciplinary and complementary course of study for any undergraduate degree. The offering of this certificate program has the endorsement of the faculty and will promote collaborative activity among departments within the college.

SB/jt
DESCRIPTION:

The Department of Modern Languages proposes a Certificate in Italian Studies, designed as an interdisciplinary and complementary course of study for any undergraduate degree. The aim of the Certificate in Italian Studies is to provide an introduction to the very rich and varied culture of Italy, and to explore it using a variety of disciplines and subjects. These subjects include literature, history, archeology, art, cinema and political thought. Knowledge of the Italian language, both written and spoken, is an important tool for an understanding of Italian culture and is therefore a core element in the proposed Certificate in Italian Studies. The proposed certificate requires 24 credits, which students can take from the following departments: Modern Languages, History, Classics, and Art History. The required curricula are already in place in our department and in other departments in the university.

NEED FOR THE PROGRAM:

Enrollments in Italian language courses and Italian literature in translation courses at Ohio University continue to grow. This reflects the nationwide 12.6% rise in Italian registration from 1995-98. Italian is the fourth most studied foreign language in the US after Spanish, French, and German, respectively. Many O.U. students express interest in continuing their study of Italian language and culture, but we don't offer a program to meet their needs. Additionally, students in International Studies demonstrate interest in using Italy as their area of concentration. Furthermore, faculty in the departments of Modern Languages, Classics, History and Art History voice their interest and support for such a program.

The interdisciplinary nature of the proposed Certificate in Italian Studies encourages the continued dialogue and participation of various departments at Ohio University. This unique, truly interdisciplinary approach to Italian Studies would enable students from various programs in the above mentioned departments to share and compare different points of view.

In our increasingly internationally oriented society, knowledge of Italian and Italian culture is an invaluable asset for many professions and careers, especially when coupled with another skill. The proposed course of study enables Ohio University to promote further knowledge of a language, heritage and culture which is actually more global than is often realized (Italian is spoken by 62 million people. It is spoken on five continents and is an official language in Italy, Switzerland, Ethiopia, Somalia, Libya and

TITLE OF PROGRAM: Italian Studies

Chair, Programs Committee

APPROVED BY:

Michael Kellogg  CHAIR, UNIVERSITY CURRICULUM COUNCIL

Passed by Curriculum Council [1961]
Slovenia. Additionally, there are large Italian communities in Canada, the US, Germany, Australia, Argentina, Brazil and Venezuela). Historically, Italy has always been of great importance, while today, it is one of the world's leading industrial democracies, fifth only to the US, Japan, Germany and France. American companies with branches in Italy need staff with knowledge of Italian and Italian culture for both their home and foreign offices. As with any liberal arts oriented program, opportunities exist for professional service in various fields such as the arts (music, painting, architecture), archeology, commerce, film, tourism, fashion, publishing, and teaching. Our proposed certificate will provide students a credential for entering any of these careers.

Universities nationwide have witnessed the increasing demand for study abroad programs in Italy, and Ohio University is no exception. The number of requests received by the Education Abroad Office for information on programs in Italy is second only to those requests for programs in Spain. Students wishing to pursue the proposed Certificate in Italian Studies may participate in Ohio University's Art History program already established in Italy and enroll in some of the courses listed below which are offered abroad. Additionally, students would be encouraged to participate in the potential joint Modern Languages / Classics study abroad program in Rome, Italy. This interdisciplinary program is currently under development, and O. U. faculty would offer some of the courses listed below in Italy. Faculty from both Modern Languages and Classics would direct the program.

No duplication exists between the proposed program and other Ohio University programs. We expect students pursuing this proposed course of study to be from majors which are offered in the College of Arts and Sciences, especially those in Modern Languages, Classics, History and Art History.

PROPOSED CURRICULUM FOR THE CERTIFICATE IN ITALIAN STUDIES

(24 credits)

**Required core classes:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tr>
<tr>
<td>ITAL 342</td>
<td>Advanced Italian Conversation and Composition</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td><em>(Prerequisite: beginning and intermediate Italian or the equivalent)</em></td>
<td></td>
</tr>
<tr>
<td></td>
<td><em>(ITAL 341 and 342 focus on modern Italian culture and civilization in addition to language study)</em></td>
<td></td>
</tr>
<tr>
<td>ILML 335</td>
<td>Topics in Italian literature/film (in translation)</td>
<td>4</td>
</tr>
<tr>
<td></td>
<td><em>(ILML 335 may focus on any of the following areas of Italian literature and film: modern, medieval, renaissance and 20th century)</em></td>
<td></td>
</tr>
</tbody>
</table>
Plus three elective courses from the following two groups (at least one course from each group) (12 units):

**Group #1:**
- AH 323 (Italian Renaissance Art)
- AH 425* (High Renaissance and Mannerism)
- AH 326X* (The Baroque)
- AH 323X* (Italian Renaissance Art)
- AH 425X* (High Renaissance)
- AH 340X* (Art and Ideas in Painting)
- AH 300X* (European Art)
- IMLML 335 (Various topics in Italian literature and film - repeatable for credit)
- HIST 356A (The Italian Renaissance)

**Group #2:**
- CLAR 212 (Roman Archaeology)
- CLAR 362 (The Archaeology of Roman Cities)
- CLAR 352X** (Ancient Rome: Development of the City)
- CLAS 254 (Rome Under the Caesars)
- CLAS 401 (Life of the Romans) or CLAS 401X**
- HIST 329C (Ancient Rome)

Although they do not count for the certificate requirements, students are encouraged to choose from the following list for their Tier III requirement:
- 404A (Reconstructing Roman Slavery)
- 410 B (The Age of Michelangelo)
- 496M (The Renaissance in Machiavelli)

**FACULTY AND INSTRUCTION**

Courses listed above from Classics, History, and Art History already exist and are offered on a regular basis. The Department of Modern Languages plans to answer student demand by expanding the number of Italian sections at the 100- and 200-levels and by offering the third-year classes 341 and 342. At that point the Italian language component of the proposed certificate program will be in place. High demand for more Italian classes has been a reality for several years now (enrollments have doubled in Italian since 1987). Dean Flemming has agreed to fund the first step in the expansion for

---

* Courses taught on the Art History study abroad program in Italy.
** Courses taught on the potential Modern Languages/Classics study abroad program in Italy.
2000-2001, two additional Italian 100-level sections taught by part-time faculty. The Department of Modern Languages will request a new tenure-track faculty member for the 2001-2002 academic year, for which we bring .66 FTE to the table. Approval of this position is highly likely, considering the campus wide support for expansion of Italian.

ADMISSION REQUIREMENTS
Not applicable.

ADMINISTRATION
Not applicable.

TIMING AND EVALUATION
We have not generated any external publicity about this program. Because of student demand, we would like to be able to start the proposed program in Fall 2000.
24 January 2000

TO: Molly Morrison, Assistant Professor of Italian

FROM: Bruce E. Steiner, Chair, History

SUBJECT: Proposed Certificate in Italian Studies

Allow me to add my voice to that of Phil Bebb, Chair of History's Curriculum Committee, in support of the proposed certificate in Italian Studies. What you wish to do is very carefully and clearly spelled out and should provide students with a truly enriching experience. As you know, we already have a tie with Classics (formerly Classical Languages) in that Joel Allen, our recent acquisition from Yale, is assistant professor both of History and Classics. And, interested as we are in interdisciplinary approaches, we would welcome a tie, albeit of a different nature, with Modern Languages. Joel, I am confident, will be working up new courses you may wish to incorporate into the program, once he gets out from under the constraints of his first year of teaching. To put it another way, HIST 329C, Roman History, should in time be supplemented with more specialized courses in that subject. And HIST 356A, Italian Renaissance, as well as our Michelangelo and Machiavelli Tier 3s, have much to contribute to your program.
Date: 20 January 2000

To: Dr. Molly Morrison

From: Jody Lamb, Art History Chair

Re: Certificate in Italian Studies

Dear Dr. Morrison,

Our department heartily endorses your proposal for a Certificate in Italian Studies. We see no conflict of interest with our four Renaissance courses, specifically AH 323 and AH 523: Italian Renaissance Art, and AH 425 and AH 525: Art of High Renaissance and Mannerism. The certificate will undoubtedly prove very attractive to Ohio University students, and could certainly benefit some of our own majors. We wish you much success.

Best Wishes,

Jody Lamb
Chair, Art History
January 14, 1999

Professor Molly Morrison
Department of Modern Languages
Gordy Hall 283
Ohio University

Dear Molly,

Thank you for sending me a copy of your proposal for an Italian Studies Certificate. I have read it with interest and think both the concept and the proposed implementation of it are excellent. I support it wholeheartedly.

As you know, we in the Classics Department have developed a strong program in Roman archaeology, a component of which is an on site course in Rome, which we taught for the first time during inter-session last year. Part of the purpose of the Rome course is to introduce students to modern as well as ancient Rome. While this course would contribute to your program, some facility with the language would obviously make the experience much more meaningful for the students. I hope that within the next couple of years, we will be able to establish the Fall Term program in Rome about which we've talked.

In short, your proposal recognizes the interest in Italy already demonstrated by students from several departments. The Certificate program will encourage students in Classics and Art to broaden their experiences of Italian language and culture, while at the same time the courses in Classics and Art will encourage students who start out with the language to expand their perspectives on the culture.

Yours truly,

James A. Andrews, Chair
Molly: Greetings to you.

It is with pleasure that I fully endorse your proposal for a certificate in Italian Studies. The proposal was well conceived and drawn up, and I wish you great success with it. Please feel free to count on me if I can do anything to aid you in its passage and acceptance.

Keep me informed as to its progress, okay?

Phillip N. Bebb
Department of History
114 Bentley Hall
Ohio University
740-593-4336
Dear Mary Jane:

Thank you for sending me a copy of the Italian Studies Certificate. As I mentioned over the phone, I wanted to have Beth Clodfelter's input in her capacity as coordinator of the BAIS and the undergraduate certificate programs. I am pasting Beth's comments at the end of this message.

On behalf of the Center for International Studies, I would like to express my support of the proposed certificate in Italian Studies. The program is well designed and will surely strengthen an area of study that attracts a number of BAIS majors each year. I do not find any conflict between this proposed certificate and either the European Studies track of the BAIS program or the certificate in European Studies.

It is quite obvious that, other than the courses on Italian language and literature, the courses listed under "Group 1" and "Group 2" deal with the distant past. A majority of the courses in Group 1 focus on the Renaissance. All courses in Group 2 deal with classical Rome; that is, centuries before the modern Italian nation and even the Italian language emerged. It seems to me that a certificate in Italian Studies would be enriched substantially if at least a few courses focusing on modern Italian language, culture and society were included. But I am aware that such courses do not exist in the university's curriculum and that Professor Morrison had no choice but to structure the certificate around the courses that do exist. She did a marvelous job. I do not see the lack of such courses as a problem, but rather as a challenge and an opportunity. I hope that this proposed certificate will provide the impetus for the development of courses devoted to the study of modern Italian culture and civilization.

Regarding the future administration of this certificate program, I would strongly recommend close coordination between Professor Morrison, assuming that she will be the coordinator of the program, and Beth Clodfelter, coordinator of the BAIS and the European certificate programs.

Cordially,

Josep Rota, Director
Center for International Studies

********************************************************************************

BETH CLODFELTER'S COMMENTS BELOW:

Printed for Molly Morrison <morrisom@oak.cats.ohiou.edu>
The proposed Italian Studies certificate seems well designed. The expansion of Italian language offerings is an excellent idea that would benefit many OU students. The ITAL 341 and 342 courses will be welcome by the BAIS majors currently striving to attain proficiency in that language and may encourage more to study Italian in the future.

The inclusion of courses from the Departments of Art History, History and Classics, as well as the International Literature and suggested Tier III courses, will complement the Italian language offerings. Eventually it could be desirable to develop and include courses that examine contemporary Italy, but the proposed curriculum should provide students with excellent and fascinating insight into the region's past.

Overall, the creation of the Italian Studies certificate and the expansion of the language offerings should be beneficial to students. The emphasis of the certificate's courses toward the distant past should complement the more contemporary foci of the BAIS concentration in European Studies and the Certificate in European Studies, perhaps making this certificate a desirable academic choice of some International Studies students.

Beth Clodfelter
BAIS Coordinator
April 18, 2000

Date: April 18, 2000

To: Arts and Sciences Curriculum Committee

From: Molly Morrison, Assistant Professor of Italian, Modern Languages

Subject: Italian Studies Certificate

Attached you will find the revised proposal for the Italian Studies Certificate. The following five areas, which are indicated in your memo, have been addressed.

The prerequisites for ITAL 341 and 342 should be clearly stated by adding "beginning and intermediate Italian or the equivalent" after the ITAL 341 and 342 courses. It has been added under ITAL 341 and ITAL 342. (Page 3 of the certificate.)

In the proposed curriculum, three elective courses are required, one from each of three groups. However, there are only two groups listed. There are two groups, from which students must choose three elective courses. Students must choose at least ONE course from each of the two groups. (Page 4 of the certificate.)

Tier III courses cannot be counted in the certificate requirements. Tier III courses are not counted in the requirements. Students are encouraged to choose from the three courses listed for their Tier III requirement. (Page 4 of the certificate.)

A letter of consultation from International Studies must be included. A letter of support from Josep Rota, Director of the Center for International Studies, has been included. Remarks from Beth Clodfelter, Coordinator of the European certificate programs, are also attached.

Please note that page 3 of the Italian Studies Certificate clearly indicates that ITAL 341 and ITAL 342 will focus on modern Italian culture and civilization in addition to language study. ILML 335 may focus on various aspects of Italian literature, including modern literature.

Since the resources to offer the certificate do not currently exist at Ohio University, the proposed certificate can only be approved contingent on the receipt of funding to support the program. The paragraph regarding funding (under FACULTY AND INSTRUCTION) on page 4 and 5 of the certificate has been changed.
Date: October 17, 2000

To: New Programs Committee

From: Leslie A. Flemming, Dean, College of Arts and Sciences

Subject: Certificate in Italian Studies

The College of Arts and Sciences endorses the proposed Certificate in Italian Studies. The College has authorized a visiting faculty position so that the staffing needs of the certificate can be filled.
Leslie Flemming, Dean, College of Arts and Sciences and Vice President for Administration
Gary North presented and Trustee Snyder moved approval of the resolution. Mr.
Browning seconded the motion. All voted aye.

ESTABLISHMENT OF THE CENTER FOR RING THEORY
AND ITS APPLICATION

RESOLUTION 2001-1761

WHEREAS, Ohio University has a long tradition of excellence in ring theory, and

WHEREAS, the Department of Mathematics in the College of Arts and Sciences
has gained world prominence in the subject matter of ring theory, and

WHEREAS, no center currently exists for the study of ring theory and its
applications.

HOW, THEREFORE, BE IT RESOLVED that the Board of Trustees
establishes the Ohio University Center for Ring Theory and its applications.
DATE: February 27, 2001

TO: Robert Glidden, President

FROM: Jack Bantle, Vice President for Research

SUBJECT: Establishment of the Center for Ring Theory and its Applications

Attached is a request for the establishment of the Center for Ring Theory and its Applications. This proposal is one that I support and recommend for approval.

The Center will further the study of ring theory and its applications by promoting the growth and development of collaboration and communication with scholars throughout the world, and promote the study of ring theory and its applications among doctoral and master’s level graduate students at Ohio University. The Center will also encourage Master’s level theses on applications of ring theory in the area of Information and Coding Theory.

The Center will be housed within the College of Arts and Sciences; the director will report to the chair of the department of mathematics.

Enclosures
Executive Summary
Center for Ring Theory and Its Applications

Reports to: Chair, Department of Mathematics, College of Arts & Sciences
Director: S. K. Jain, Ph.D., Distinguished Professor of Mathematics

Participating Faculty/Departments:
Mathematics: Franco Guerriero Dinh Van Huynh S.K. Jain
Pramod Kanwar Sergio R. Lopez-Permouth Dung Viet Nguyen

Adjunct Membership: Joseph Ferrar, OSU
S. Tariq Rizvi, OSU

As a branch of Abstract Algebra, the theory of Rings and Modules studies algebraic systems through the axioms that determine their structure. Its study goes beyond the usual structures and operations in arithmetic and thus applies to a variety of complex situations. Applications of Ring Theory include algorithmic and theoretical computer science, artificial intelligence, Information Theory, Coding Theory, Cryptography, and the theoretical foundations of Quantum Mechanics.

The Center will further the study of ring theory and its applications by promoting the growth and development of collaboration and communication with scholars throughout the world, and promote the study of ring theory and its applications among doctoral and master's level graduate students at Ohio University. The Center will also encourage Master's level theses on applications of ring theory in the area of Information and Coding Theory.

Fiscal Resources: The Center will provide an officially recognized entity to attract funds from various sources including external support from various federal agencies, corporate funding from information technology related industries, and endowed funding from alumni or friends of the University.

Space and Facilities: The Center will be housed in the College of Arts and Sciences, Department of Mathematics, Morton Hall.
Date: February 16, 2001

To: Robert Glidden, President, Ohio University
    Jack Bantle, Vice President for Research

From: Leslie A. Flemming, Dean, College of Arts and Sciences

Subject: Center for Ring Theory and its Applications

Upon the recommendation of the faculty and the chair of the Department of Mathematics, I support the proposal for the establishment of a Center for Ring Theory and its Applications to be housed in the College of Arts and Sciences at Ohio University. Ring Theory has been an important area of research by Ohio University faculty members for many years. It is interesting to note that three of the charter members of the proposed Center are faculty from our regional campuses. The Center, proposed by Surender Jain, Distinguished Professor of Mathematics, and Sergio López-Permouth, Professor of Mathematics, will further the study of ring theory and its applications by providing an officially recognized entity to attract funds from various sources. The center will use the funds to support projects (several specific projects are outlined in the proposal) that will enhance collaboration and communication with scholars of similar interests from all over the world and encourage graduate students to pursue Master's level theses on the applications of Ring Theory.

The successful operation of the center will increase the visibility and improve the scholarly reputation of the Department of Mathematics, the College of Arts and Sciences, and Ohio University. I urge that it be approved.

Cc
Surender K. Jain, Distinguished Professor of Mathematics
Sergio Lopez-Permouth, Professor of Mathematics
Roger Rollins, Associate Dean, College of Arts and Sciences
Ohio University Center for Ring Theory and its Applications
-A prospectus-
I. Ring Theory at Ohio University

The department of Mathematics at Ohio University has a long tradition of excellence in Ring Theory that goes back more than thirty years. At present time, we have six permanent faculty members whose research focuses on ring theory and related areas: three at the main campus in Athens (Huynh, Jain, and López-Permouth,) two in Zanesville (Kanwar and Nguyen) and one in Chillicothe (Guerrero.) We outline next the impact our group has had on, respectively, the Athens campus, the larger Ohio University, the state of Ohio and the discipline.

Impact for Ohio University-Athens:

- Ohio University has produced thirteen doctorates in Ring Theory during the last twenty years. Algebra graduates have found good employment either in the private sector (with companies such as Digital, Compaq, etc.), the federal government (at agencies such as the National Security Agency,) or in institutions of higher learning.

- Out of all possible areas of application for ring theoretic results, major emphasis has been placed by members of our group in the areas of Information and Coding Theory. These areas have major impact in our modern age and are very likely to attract external corporate sponsorship. Indications of our progress in this direction include papers written by some of our members and collaborative efforts with faculty and students in the School of Electrical Engineering and Computer Science.

- Our emphasis on applications has already proven to be an effective catalyst for our efforts to obtain external support: Sergio López-Permouth and his EECS collaborator, Jeff Dill, have obtained seed money from the United States Air Force for their work on Coding Theory. A patent is currently being processed for an Error Correcting Code they have developed; this code seems to have promising commercial implications. Also, the International Conference in Algebra and its Applications that we organized during the spring of 1999 with support from the National Security Agency had a major Coding Theory component.

- Applications to Economics and Statistics have been facilitated by the ring theoretic flavored research on Numerical Methods in Linear Algebra of members of our group. Indications of our success in this direction include the fact that a 1989 Ph.D. graduate of our program specializing in this area is now a faculty member at Carnegie Mellon University.

- Our ring theory group has been able to attract a series of distinguished visitors throughout the years. Many of our visitors have come to us solely due to the reputation of the Ohio ring theory program and have visited us sponsored by their own institutions or countries. Such are the cases, for example, of Kiyoshi Oshiro, from Yamaguchi University, who visited us during the academic year 1991-92 and of four ring theorists from Chiang Mai University of Thailand who are scheduled to visit us during the Winter quarter of 2000-
2001. Other self-supported shorter visits worthy of comment include Bruno Mueller (McMaster's University, Canada), Surjeet Singh (Kuwait), Andre Leroy (Universite d'Artois, Lens Cedex, France), Yoshimi Egawa (Tokyo), Louis Rowen (Bar-Ilan, Israel), Dolors Herbera (Barcelona), Ahmad Shamsuddin (Lebanon), and Patrick Smith (Glasgow). We have been fortunate to support other visitors, such as Jonathan Golan (Haifa, Israel) and Marcus Greferath (AT&T research labs) through visiting teaching appointments in the department of Mathematics.

Impact on the larger Ohio University:

As the regional campuses of Ohio University prepare to move in a direction of augmented research among their faculty, the ring theory group has managed to attract two promising young scholars to the Chillicothe and Zanesville campuses as well as an established researcher to the Zanesville campus. The common factor in their decision to join a branch of Ohio University is their desire to belong to our group. We are pleased by the insight and vision of the administration at these two campuses as well as that of Vice President Charlie Bird. They have recognized that hiring researchers compatible with the interests of faculty in Athens may be the only way to offer their new hires a realistic chance to survive in the competitive world of research. The ring theorists at Chillicothe and Zanesville remain active in research and participate of the activities of the larger Ohio ring theory group. We are looking for a future where faculty in the regional campuses will see eye-to-eye with their colleagues in Athens. Our Algebra and its Applications seminar is now coordinated by a member of the Zanesville faculty and will be scheduled to take place in Chillicothe or Zanesville from time to time.

Impact on the state of Ohio:

Ohio University has earned a position of leadership for Ring Theory in the state of Ohio. Since 1994, we have been co-organizers of a biweekly seminar that provides mathematicians from Ohio University and Ohio State University a forum for professional interaction. For geographical convenience, the OU-OSU ring theory seminar convenes at the Columbus campus of OSU where mathematicians from Lima, Newark, Columbus, Athens, Chillicothe and Zanesville meet and host speakers from all over the world. Several combinations of participants in the OU-OSU ring theory have collaborated on research projects of shared interest. Our collective group has come to be recognized as a unit of excellence by the mathematical community. It is not uncommon to have conference organizers schedule our talks in blocks commonly referred to as "the Ohio block" or to refer to us collectively as "the Ohio group." One of the most satisfying moments to us was when Carl Faith, one of the fathers of modern ring theory, wrote "omnia vincit Ohio" on the board (preceding the presentations of the "Ohio block" at Oberwolfach.) References to the "Ohio group" have even become common place now in the mathematical literature.
Impact beyond state boundaries:

- Ring theorists from Ohio University have organized three major conferences in Athens and are permanently in charge of special sessions on ring theory at both the Ohio State University-Denison Algebra Conference and at the biennial joint meetings of the American Mathematical Society and the Sociedad Matematica Mexicana. The proceedings of the Athens conferences have been published respectively by Marcel Dekker (1977), Springer-Verlag (1989) and the American Mathematical Society (2000).
- As can be seen from the attached vitae, the ring theorists at Ohio University have a combined yield exceeding 200 papers and 10 books.
II. The Proposal:

We are currently seeking recognition and support as a Center for Ring Theory and its Applications. The Mission Statement and immediate Goals of the Center are as follows:

- **Mission Statement:**

  The Ohio University Center for Ring Theory and its Applications seeks to further the study of ring theory and its applications by fomenting collaboration and communication with scholars from all over the world. We aim at promoting the study of ring theory and its applications among graduate students at Ohio University. We will encourage the pursuit of research on applications of ring theory to several areas; in particular, we will concentrate on the interdisciplinary efforts involved in the pursuit of Information and Coding Theory.

- **Goals:**

  1. To expand our existing strength in the fields of ring theory and its applications, both in theoretical and applied directions.
  2. To attract gifted students and encourage them to pursue graduate degrees in ring theory, supporting them during their studies through fellowships. In particular, to consistently support them for Professional Development through travel grants.
  3. To encourage Master’s students to pursue the thesis option of our programs by studying applications of ring theory to industrial problems related to information and coding.
  4. To augment the presence of visiting scholars at Ohio University through support for eminent speakers and research visitors specializing in ring theory and its applications. To sponsor workshops and collaborative research on areas of application.
  5. To expand on our tradition of publication of Proceedings of conferences by founding a Journal on Algebra and its applications.

Comment: We are already working with World Scientific Publishing to establish the Journal mentioned as Goal number 5. Under the present draft of the agreement, the publisher agrees to undertake the financial risk in publishing the Journal on a quarterly basis. The tentative launch date is January 2002. We have received acceptances to join the Editorial Board from outstanding mathematicians including Fields Medalist Efim Zelmanov (Yale) and N.J.H. Sloane (AT&T Research Labs.)
III. Benefits arising from the proposed recognition as a Center

- Increased visibility of Ohio University and its department of mathematics. This is likely to positively impact our departmental NRC ranking.
- Improving our chances for getting outside support for research in the form of research grants from private companies interested in Information and Coding Theory (such as IBM, Motorola, etc.) or entities such as National Science Foundation, National Security Agency, etc.
- Establishing relationships with prospective donors while presenting our center as a Distinctive Program (one of the Focus Areas) of Ohio University’s fund-raising Campaign 2004.
- Strengthening our graduate program. Graduating students will have better opportunities when they go out into the job market if they are labeled as graduates from a Center of Ring Theory.
- Publication of a journal from the center. Among the well-known benefits connected to the publication of a journal, one must mention that a journal can bring, in exchange, a number of other journals to the library. Such a deal translates immediately either into an expansion of our collection or into savings for the library budget.
IV. What are we requesting?

- A commitment for 5 years of a seed amount of $15,000.00 per year.

**Detailed Yearly Budget**

- Graduate student support: $5,000.00
  (One fellowships of $5,000.00 to enhance departmental Teaching Assistantships)

- Visiting Scholar Support: $15,000.00
  (Short term visits).

- Colloquium speaker fund: $5,000.00

**TOTAL**: $25,000.00

**Proposed sources of funding**

We are hereby requesting seed money for the first five years as follows:

1. Office of the President: $15,000.00
2. 1804 and other sources: $10,000.00

Once seed money from the Office of the President has been secured, further internal and external support will be sought.
V. Summary

In closing, we summarize the way in which our proposal addresses the items required by Ohio University Procedure 01.015.

a. Statement of need specifying the particular role to be accomplished: The center's mission will be to further the study of ring theory and its applications by fomenting collaboration and communication with scholars from all over the world. We intend to promote the study of ring theory and its applications among doctoral and master's level graduate students at Ohio University. In addition, we seek to encourage the pursuit of Master's level theses on applications of ring theory to several areas; in particular, to promote the interdisciplinary efforts involved in the pursuit of Information and Coding Theory.

b. Description of the manner in which the center will effectively meet this need in a way the existing unit cannot: Recognition of a specific area of excellence would allow allocating a budget specifically for the activities of the group. With our own budget we will be in a better position to achieve the goals mentioned earlier.

c. The unique value of the program to the University: This will be the first center at Ohio University dedicated to the pursuit of mathematical research. A well-rounded University must have some emphasis on the foundational basic research of the type mathematicians do.

d. Identification of personnel and departments to be involved initially and a projection for such involvement over a five-year period: The membership over the first five years will consist of Franco Guerriero, Dinh Van Huynh, S.K. Jain (Director), Pramod Kamer, Sergio R. López-Permouth and Dung Viet Nguyen. In addition, we will confer adjunct membership status to Joseph Ferrar and S.Tariq Rizvi (Ohio State University.)

e. Estimated fiscal resources and sources of funding for a five-year period: We intend to run the center based on a minimum budget of $25,000.00 per year. From the onset, we will seek additional external support from various sources such as federal agencies (NSA or NSF, for example,) corporate funding from information technology related industries (such as IBM, Motorola, etc.) and endowed funding from alumni or friends of the University. After gaining initial momentum with the $25,000 seed money, we are optimistic about our chances to get external support for the continuing operation of the center.

f. Space and equipment needs and a description of how they will be met: While office space for visitors would be desirable, we recognize this may not be easy to obtain under the current circumstances of Ohio University. Therefore, we will only house our visitors following the current procedures of the Department of Mathematics. It is our hope that whenever new space becomes available elsewhere and office space in Morton Hall may become free, some priority would be given to the Center for Ring Theory when claiming such space.

g. Description of the administrative control and lines of authority for the center: The Center will have a director; S.K. Jain will be the first appointee for that position. The director of the center will report directly to the Chairman of the Department of Mathematics.
Members and Their Curriculum Vitae

1. S.K. Jain (Director)
2. Sergio R. Lopez-Permouthe
3. Dinh Van Huynh
4. Dung Viet Nguyen
5. Pramod Kanwar
6. Franco Guerriero
7. Joseph Ferrar (adjunct member from OSU)
8. S. Tariq Rizvi (adjunct member from OSU)
S.K. Jain is a Distinguished Professor of Mathematics at Ohio University. Before joining the faculty at Ohio University, he was a Reader in Mathematics at the University of Delhi (1965-70).

Dr. Jain has held Visiting Professor appointments at several institutions worldwide. His visiting positions include the Riverside, Santa Barbara and Berkeley campuses of the University of California, the Ohio State University in Columbus, North Carolina State University in Raleigh, University of Chicago, McMaster University in Hamilton, and University of Frankfurt as well as the Indian Statistical Institute and the Indian Institute of Technology.

Dr. Jain has authored more than 90 research articles that have been published in prestigious professional journals. His papers have appeared in the Transactions of the American Mathematical Society, the Proceedings of the American Mathematical Society, the Pacific Journal of Mathematics, Journal of Algebra, Journal of Pure and Applied Algebra, Communications in Algebra, Archiv der Mathematik, Math Zeltchrift, Linear Algebra and Applications, Linear and Multilinear Algebra, SIAM J. Discrete Methods, SIAM J. Matrix Analysis and Applications, etc. He has co-authored four undergraduate/graduate texts. In particular, he is an author of the widely used graduate text "Basic Abstract Algebra" (second edition), published by Cambridge University Press (1994).

In addition, Dr. Jain is a coeditor of five research volumes of scholarly papers in Ring Theory in Marcel Dekker (1977), Springer Verlag (1990), World Scientific Press (1993) Birkhauser (1997), and American Math Society (2000). He is a twice recipient of Senior Scientist Fulbright Award (1991-92, 1995-96), has been awarded grants by DAAD (German Academic Exchange Service) and US-India Scientific Exchange grants by the National Science Foundation (1991-92, 1992-94). He was the recipient of a United Nations Development Project Grant (1998-99), and of a conference grant from National Security Agency (1999).

He was awarded the Outstanding Graduate Faculty Award, 1999 — Ohio University.

A life member of the Indian Mathematical Society, he is also a member of the American Mathematical Society and the Society for Industrial and Applied Mathematics. He has delivered professional lectures at mathematical meetings all over the world and has been the organizer of conferences on many topics in Abstract Algebra. He is an executive editor of the East-West Journal of Mathematics. He has supervised 17 Ph.D. dissertations in noncommutative rings, modules, and applied linear algebra.

II. Books Edited

VI. PARTICIPATION AT PROFESSIONAL WORKSHOPS

- Microprogram on Noncommutative Ring Theory at Mathematical Sciences Research Institute, Berkeley, California, July 1989.
- Seminar on Polynomial identities and invariants of n x n matrices at De Paul University, Chicago, Illinois, July 1990.
- Workshop on Finite dimensional Algebras, University of Utah, Salt Lake City, Utah, August 1991.
- 10th International Symposium, AAECC-10, San Juan de Puerto Rico, Puerto Rico, May 1993.
- Methods in Module and Ring Theory, Oberwolfach, Germany, July 1993.
- CIMPA-CIMI-INRIA School on Codes, Cryptography and Information Theory, Nice, France, September 1994.
- AMS Short course on Algebraic Coding Theory, San Francisco, California, January 1995.
- AMS Workshop for Chairs of Mathematics Departments, Baltimore, Maryland, January 1997.
- IMA workshop on Codes, Systems and Graphical Models, Minneapolis, Minnesota, August 1999.

VII. OTHER PROFESSIONAL ACTIVITIES

- Reviewer for Math Reviews and Zentralblatt.
- External examiner of Ph.D. thesis for University of Aligarh, Aligarh, INDIA.
- Undergraduate thesis advisor for two students at Universidad del Valle de Guatemala.
- Refereed grant proposals for Natural Sciences and Engineering Research Council of Canada.

VIII. GRANTS AND EXTERNAL RESEARCH SUPPORT

- High dimensional TCM using M-ary orthogonal signals, United States Air Force Research Laboratory, March 18-September 30, 1999. $13,000.00.
- High dimensional TCM using M-ary orthogonal signals (renewal), United States Air Force Research Laboratory, October 1, 1999-June 30, 2000. $12,000.00.

IX. PROFESSIONAL ASSOCIATIONS

- American Mathematical Society (AMS)

X. PATENTS

- Apparatus and Method of CTCM encoding and decoding for a digital communication system (with Jeff Dill et al) U.S. Patent Application Submitted (2001.)
CURRICULUM VITAE

Name: Dinh Van Huynh

Address: Department of Mathematics, Ohio University, 321 Morton Hall, Ohio 45701, U.S.A.

e-mail: huynh@bing.math.ohiou.edu

Office telephone number: (740)-593-1273
Home telephone number: (740)-594-9099

Education:
- Graduated at Martin-Luther-Universität Halle-Wittenberg (Germany), 1972.
- Doctor rer. nat. in Mathematics, Martin-Luther-Universität Halle-Wittenberg, 1975.
- Doctor of Science in Mathematics, Martin-Luther-Universität Halle-Wittenberg, 1983.

Academic Experience:
- 1984-1991: Associate Professor;
- 1986-1987: Alexander von Humboldt-Stiftung research fellow at the University of Düsseldorf (Germany).
- 1987: Visiting Researcher at the Department of Mathematics, University of Glasgow (U.K.), supported by the Royal Society of London.
- 1988: Visiting Professor at the Mathematical Institute of the Hungarian Academy of Sciences, Budapest (Hungary).
- 1992: Visiting Researcher at the Department of Mathematics and Statistics, University of Otago, Dunedin (New Zealand).
- 1992-1993: Visiting Professor at the Pusan National University, Pusan (South Korea).
- 1994-1995: Visiting Professor at McMaster University, Hamilton (Canada), at the Ohio State University, Lima (USA), at Ohio University, Athens (USA).
- 1995-1996: Visiting Professor at the Ohio State University, Lima (USA).
- 1996-1997: Visiting Professor at Kuwait University, Kuwait.
- Short visit and lecturer at University of Freiburg, University of Bielefeld, Freie Universität Berlin, University of Debrecen (Hungary), University of Murcia (Spain), Institute of Mathematics (Berlin), Martin-Luther-Universität Halle-Wittenberg, Pedagogical Institute of Erfurt, University of Tasmania (Australia), KyungHee University (South Korea),
Teaching Experience:
Taught several undergraduate and graduate level courses in Germany, Vietnam, Thailand, South Korea, including Linear Algebra, Abstract Algebra, Set Theory, Categories of Modules, Group Theory, and Ring Theory.

Taught the following undergraduate courses in the United States:

1. At Ohio University, Athens, Ohio: Math 211: Linear Algebra (Spring 1994); Math 163A and Math 163B: Business Calculus (Fall 1994); Math 211 and Math 163A (Winter 1995); Math 163A (Spring 1995).
2. At the Ohio State University, Lima, Ohio: Math 150: Pre-calculus (Summer 1994); Math 104 and Math 148: College Algebra (Fall 1995); Math 075, Math 104: College Algebra and Math 150: Pre-calculus (Winter 1996); Math 150, Math 117: Survey of Calculus (Spring 1996).
3. Taught undergraduate courses at Kuwait University, including Linear Algebra, Finite Mathematics, Abstract Algebra and Group Theory.
4. Presently, at Ohio University, teach undergraduate courses in business calculus, and undergraduate/graduate courses in Linear Algebra and Abstract Algebra.

Theses Supervised: Successfully supervised

1. Six Ph.D. Dissertations, and
2. Two Master Theses.

Grants, Honors, Service:

1. Received a Grant from the International Mathematical Union (for mathematicians under thirty-five) to participate in the International Congress of Mathematicians held in Helsinki (Finland), 1978.
3. Received Research Funding from the Royal Society, London (1987).
4. Received a Travel Grant from the International Mathematical Union to visit University of Düsseldorf (Germany) in 1991.
5. Was selected as a Beverly Scholar, University of Otago, New Zealand (1992).
6. Received Research Funding from the Ohio State University, USA (1994, 1995).
7. Gave several invited talks at International Conferences.

11. Member of the American Mathematical Society, nominated by Professor Carl Faith.

13. Served as chair of several Ph.D. defense committees.

14. Evaluator of several Ph.D. theses and served as referee for several journals.

15. Cooperated with German scientists in organizing a conference for the research fellows of the DAAD and the Alexander von Humboldt-Foundation in Hanoi, 1991.

16. Played an important role of securing funding for an international ring theory conference held in Oberwolfach, Germany, July 1993.

18. Member of the organizing committee of the international conference "Module and Ring Theory", Hue, Vietnam, August 1997.

Field of Interest: Algebra: Theory of Rings and Modules, Group Theory.

Languages: English and German.

Publications:

Books:

Papers:

41. Rings with restricted injective conditions, (with N.V. Dung), *Arch. Math.* 54 (1990), 539-548.

Citations:

My results have been cited in research papers of many authors. Especially, several results of mine were quoted, mentioned or cited in the following Algebra books:

In particular, 5 theorems from my work have been included in [K], and 9 theorems in [F].

1) Education and Degrees:
a) M.Sc.: Kishinev State University (former Soviet Union), June 1983.
   Title of M.Sc. thesis: "Uniform dimensions of topological groups".
b) Ph.D.: Institute of Mathematics, National Centre for Scientific Research,
   Title of Ph.D. thesis: "Some classes of rings with finiteness conditions".
c) D.Sc.: Warsaw University, Warsaw, Poland, March 2000.
   Title of D.Sc. thesis: "Indecomposable decompositions of modules over
   non-commutative rings".

2) Fields of Research Interests: Algebra (Non-commutative Ring
   Theory, Representation Theory, Category theory).

3) Academic Experiences:
   - 1988 - 1989: Post-doctoral Research Fellow, Department of Mathematics,
     Moscow State University, Russia.
   - 1990 - 1992: Post-doctoral Research Fellow, Department of Mathematics,
     University of Murcia, Spain (supported by the Spanish Ministry of Education
     and Science).
   - 1993 - 1995: Senior Researcher, Institute of Mathematics, National Centre
     for Scientific Research, Hanoi, Vietnam.
   - 1995 - 1996: Visiting Research Scholar, Department of Mathematics, Univer-
     sity of Udine, Italy (supported by the Italian National Research Council).
   - 1996 - 1997: Visiting Research Scholar, Department of Mathematics, Univer-
     sity of Glasgow, United Kingdom (supported by the Royal Society of
     London).
- 1998 (Jan. - Dec.): Visiting Professor, Department of Mathematics, University of Murcia, and Department of Algebra, University of Santiago de Compostela, Spain.

- 1999 - 2000: Visiting Professor, Department of Mathematics, Ohio University, Athens, USA.

- September 2000 - present: Assistant Professor, Department of Mathematics, Ohio University - Zanesville.

4) International Conferences attended:

- August 1989: International Conference on Algebra, Novosibirsk, Russia.

- March 1999: International Conference on Algebra and its Applications, Athens, Ohio, USA (as an Invited Speaker).

- May 1999: Joint meeting of the American Mathematical Society and the Mexican Mathematical Society, Denton, Texas, USA.

5) Short-term working visits:

Visited and presented talks at research seminars at the following universities:

University of Granada and University of Almeria (Spain), University of Padova and University of L'Aquila (Italy), University of Düsseldorf and University of München (Germany), University of Edinburgh and University of Exeter (United Kingdom), University of Otago (New Zealand), University of Warsaw and University of Torun (Poland), Institute of Mathematics of the Hungarian Academy of Sciences (Hungary).

6) Additional Informations:

- Foreign languages: English, Russian, Spanish.

- Since 1993: Reviewer of the Zentralblatt für Mathematik, Springer-Verlag, Germany.

7) List of publications:

30. (with J. L. García) Categories of locally finite representation type. J. Algebra (accepted for publication).

RESEARCH INTERESTS:

Algebra, noncommutative ring theory, serial rings and modules

RESEARCH EXPERIENCE

Sept. 97 - present  Assistant Professor
Ohio University-Chillicothe

I am continuing to do research into the prime ideal structure of serial rings and the study of indecomposable injective modules. I am active in the joint Ohio State University - Ohio University Ring Theory Seminar.

Jan. 97 - Jun. 97  Visiting Professor
Mathematics Department
Ohio University

I was active in Ring Theory research and the joint Ohio State University - Ohio University Ring Theory Seminar.

Sept. 96 - Dec. 96  Postdoctoral Fellow
Department of Mathematics
McMaster University

Supervisor: Dr. Bruno Müller

We examined the structure of the (prime) spectrum of serial rings.

May 96 - Aug. 96  Research Assistant
Department of Management Science
McMaster University

Supervisor: Dr. John Miltenburg

I conducted research in Management Science while employed by Dr. J. Miltenburg. In particular, I have worked on the U-line balancing problem with stochastic task processing times.

Jan. 92 - Apr. 96  Ph.D. Candidate
Department of Mathematics
McMaster University

Supervisor: Dr. Bruno Müller

I performed the research to complete my doctoral thesis. The title of the thesis is Uniform Modules Over Goldie Prime Serial Rings.
Franco Guerriero

Sept. 89 - Aug. 91  M.Math. Candidate
Department of Pure Mathematics
University of Waterloo

Sept. 88 - Dec. 88  Research Assistant
Mathematics Department
Brock University

May 88 - Aug. 88  NSERC Summer Research Award
Mathematics Department
Brock University

CONTRIBUTIONS TO RESEARCH

Refereed Publications

Acknowledgements In Refereed Publications

I have been given acknowledgements as a research assistant in the following refereed papers.

Submitted Work

ADJUNCT MEMBERS

• Joseph Ferrar, Ph.D. Yale University. Professor of Mathematics, Ohio State University. Former Chair of the Department. Fields of Interest: Lie Algebras and Ring Theory.

• S. Tariq Rizvi, Ph.D. McMaster University, CANADA. Professor of Mathematics, Ohio State University. Fields of interest: Ring Theory and Module Theory.
Stephen M. Flaherty, associate vice president for Regional Higher Education, presented and Mrs. Ong moved approval of the resolution. Mr. DeLawder seconded the motion. Approval was unanimous.

APPOINTMENT TO REGIONAL COORDINATING COUNCIL

RESOLUTION 2001 – 1762

BE IT RESOLVED BY the Board of Trustees of Ohio University that the following person be appointed to membership on the Coordinating Council at the Regional Campus of Ohio University – Chillicothe and Southern.

Ohio University – Chillicothe

Thomas W. Beard  For a four-year term beginning December 1, 2000, and ending at the close of business June 30, 2004, vice Daniel Peters, who resigned.

Ohio University – Southern

Thomas W. Beard  
2151 Egypt Pike  
Chillicothe, OH 45601

President and CEO, First Capital Bancshares, Inc.  
Citizens National Bank  
Chillicothe, Ohio

Attended:

Campbellsville College, Campbellsville, Kentucky  
Circleville Bible College, Circleville, Ohio University

Affiliations/Memberships:

Chillicothe Ross Chamber of Commerce  
United Way of Ross County, Chairman, Retail Sails  
Junior Achievement Board  
Past President, First Capital Chillicothe Rotary  
Board Member, First Capital Chillicothe Rotary Foundation

Licenses:

Realtor, Residential and Commercial  
Insurance Agent, Life, Property & Casualty

Family:

Married to Ginger  
Son, Michael

Hobbies:

Sports Commentator, WKKJ Radio Sports  
Hunting, Fishing, Golfing, Boating

PROFESSIONAL EXPERIENCE

Ironton-Lawrence County Community Action Organization
Youth Coordinator, JTPA
Ironton, OH
May 1999 to Present
- Coordinate all youth activities within the JTPA Program
- Responsible for contacting area agencies on behalf of JTPA Youth Program
- Work closely with case management staff to oversee the youth enrolled program
- Responsible for youth program budget, planning and reporting

Ashland Community College (ACC)
Ashland KY
Academic Specialist, Student Support Services
February 1994 to May 1999
- Recruit, hire, and train student tutors; schedule facilitate, and monitor all tutorial sessions
- Aid student tutors and program participants in all phases of tutoring relationship
- Prepare and submit timesheets for all payroll; assist program director in developing budget
- Develop and conduct study skill, and awareness workshops
- Provide career, personal and academic advising for program participants and ACC students
- Instructor for introductory student success course “Academic Success”
- Assist Disabled Student Services Program with note-takers, test proctors, and other arrangements to accommodate student needs

Marshall University
Assistant Coordinator, Educational Support Program
Huntington WV
September 1991 to February 1994
- Recruit, hired, and trained student tutors; scheduled, facilitated, and monitored all tutorial sessions
- Developed and conducted student skill workshops; served as academic advisor
PROFESSIONAL DEVELOPMENT

Facilitator, ACC Northeastern Kentucky Career Day
Attendee, Columbus OH Conference on Multicultural Education and Training
Participant, “The Bottom Line” teleconference, Dr. Stephen R. Covey
Participant, John Gardner’s “Freshman Year Experience” Seminar
Facilitator, National Conference for Community and Justice
Facilitator, Lawrence County, KY. High School 4-H Teen Club Career Day
Attending, Leadership Tri-State
Participant, Partnership, Inc./OMTI Professional Development Training

HONORS and AFFILIATIONS

President and Founder of Operation Be Proud, Inc. 1991 to present
Member, Ironton City Board of Education
Member, Collins Career Center Board of Education
Trustee, Ironton City Schools Foundation
Member, Huntington/Ironton Empowerment Zone Job Creation Committee
Member, OUSC/IHS “GEAR UP” grant Steering Committee
Co-Chair, Ironton OH Multicultural Planning Committee
Member, Ironton OH Sesquicentennial Anniversary Committee
Facilitator, OU Southern Campus “Together We Can” video project
Member, Mt. Olive Baptist Church, Ironton
Chairwoman Ackerman noted this committee was meeting as a committee of the whole to receive reports and review matters requiring action from the Board of Trustees.

**Treasurer’s Report – Vice President Dick Siemer**

Vice President Siemer reported on the highlights of his draft, “Current Funds Budget, FY 2001-2002” and noted the budget indicated a positive revenue condition and was on target on the expenditure side. Mr. Siemer commented on a recent Investment Committee meeting of the Foundation Board which considered a series of possible additional investment strategies. In response to a question, Mr. Siemer indicated approximately 25% or $60 million of the total endowment is the University’s. Mr. Siemer proposed, and Trustees agreed, to a more complete discussion of future investment strategies at their June meetings. A copy of Mr. Siemer’s materials is included with the official minutes.

**Bond 2001 Resolution Update – Vice President Dick Siemer**

Vice President Siemer updated Trustees on the status of the Series 2001 Bond Issue approved at their February 2001 meeting. Mr. Goodman raised concern about the possible postponement of state capital dollars and Mr. Walter asked Mr. Siemer to reflect the appropriateness of having all this debt in a variable funding program. Following further discussion, there was no change in previous Trustee approval. A copy of the updated material is included with the official minutes.

**FY 2001/2002 Proposed Budget Authorization – Vice President Dick Siemer**

Vice President Siemer reported on the uncertainty, at the moment, of the state budget and provided Trustees with a one-page comparison of budget allocations between FY 2001 and proposed FY 2002 (a copy is enclosed). President Glidden noted that unless there is a significant reduction in state support for next year, he intends to recommend to Trustees a 6 percent increase in tuition and room and board charges and a 3 percent salary increase.

Darrell Winefordner summarized for Trustees the fee assumptions included in the draft budget recommendations. He commented on the $14 million proposed budget increase, one-third of which will go to increasing scholarship support. The Trustees asked Mr. Winefordner to compare our tuition rates to those of other state institutions and present his findings at the next board meeting.
Vice Chairwoman Ong reported on her recent attendance at the Association of Governing Boards national conference on Trusteeship. She noted the conference was well done and encouraged other Trustees to attend these activities. Mrs. Ong commented the opportunity to learn from other Trustees, as well as share ideas was particularly helpful and that she benefited from sessions and discussions on matters of board communication, presidential and board assessment, and presidential search. Mrs. Ong asked Trustees to consider working on a mission statement and offered to assist with this as chair-elect.
Vice President Gary North presented and Mr. Goodman moved approval of the resolution. Mrs. Ong seconded the motion. All voted yes for approval.

CONSULTANT FOR THE INNOVATION CENTER PROJECT

RESOLUTION 2001—1063

WHEREAS, the Ohio University Board of Trustees, at their regular meeting of February 1, 2001 approved the issuance and sale of General Receipts Bonds and providing the authority to plan the development of a number of capital projects, and

WHEREAS, one of the projects approved by the Trustees will be contained in the April 2001 sale of General Bonds is the Innovation Center Project, and

WHEREAS, the office of the Vice President for Research successfully sought and received an EDA grant for $1,422,588, a HUD grant for $400,000 and an Appalachian Regional Commission grant for $1,000,000 which will be used to retire a portion of the debt for this facility, and

WHEREAS, the balance of the debt, or $2,952,412 will be paid for out of income generated through leases at the facility, and

WHEREAS, the Office of Facilities Planning and Construction has issued a "request for professional services" for a design consultant to develop plans and specifications for this project, and

NOW, THEREFORE, BE IT RESOLVED that the Ohio University Board of Trustees does hereby empower the President or his designee to interview and select an associate architect for the Innovation Center Project.

BE IT FURTHER RESOLVED that the Ohio University Board of Trustees does hereby authorize the preparation of construction plans and specifications for the Innovation Center Project.
March 15, 2001

Dr. Robert Glidden  
President  
Ohio University  
Cutler Hall  
Campus

Dear Bob:

    Jack Bantle has acquired funding to support construction of a new Innovation Center. John Kotowski is seeking authorization to hire a consultant to begin planning for construction. The new Innovation Center will be located at West State Street.

    I recommend approval.

Sincerely,

Gary North
TO: Dr. Gary B. North, Vice President for Administration

DATE: March 14, 2001

SUBJECT: APPROVAL TO HIRE CONSULTANT FOR THE INNOVATION CENTER — ATHENS CAMPUS

The Innovation Center will be a 32,500 gross square foot, two story building located at the West State Street research park. The new facility will be a mixed-use business incubator. The building will have 4,500 square feet of Biotechnology laboratory space, 1,500 square feet of light manufacturing area and the balance will be general office space. The building will have shared amenities space such as public restrooms, conference room, mail and copier room, reception area, elevator, and a loading dock.

The anticipated project cost for this facility is $5,775,000 with the cost of construction estimated to be $4,721,000. The 2001 Series Bond Issue, being finalized by the institution, will contain $5,775,000 for this project. This debt will, in part, be retired with pending grant awards. These grants include $1,422,588 from Economic Development Administration, $400,000 from Housing and Urban Development and $1,000,000 from Appalachian Regional Commission. The balance, or $2,952,412, will be retired with income that the building will generate from occupant leases.

Ohio University is advertising for professional design services and is preparing to begin the consultant selection process. In order that this office may proceed, I have enclosed a resolution for consideration by the Board at their April 6, 2001 meeting seeking approval to interview, select, and hire a consultant and provide authority to proceed with the development of construction documents for the renovation work.
If you have any questions or I can be of further assistance with this matter, please let me know. Thank you.
Vice President Gary North presented and Mr. DeLawder moved to approve the resolution. Mr. Brunner seconded the motion. Approval was agreed to.

CONSULTANT FOR THE
PUTNAM HALL REHABILITATION PROJECT

RESOLUTION 2001—1764

WHEREAS, the 123rd General Assembly, Regular Session, has introduced and approved Amended Substitute House Bill Number 640, and

WHEREAS, Amended Substitute House Bill Number 640 includes an appropriation in the amount of $4,141,912 for Putnam Hall Rehabilitation, and

WHEREAS, Ohio University has begun the process of seeking proposals from interested architectural consultants for the project, and

WHEREAS, the Office of Facilities Planning and Construction will have reviewed the proposals and developed a short list of consultants to be interviewed by a selection committee made up of a group of involved members of the University Community,

NOW, THEREFORE, BE IT RESOLVED that the Ohio University Board of Trustees does hereby empower the President or his designee to interview and select an associate architect for the Putnam Hall Rehabilitation Project.

BE IT FURTHER RESOLVED that the Ohio University Board of Trustees does hereby authorize the preparation of plans and specifications for this project.
March 15, 2001

Dr. Robert Glidden
President
Ohio University
Cutler Hall
Campus

Dear Bob:

John Kotowski is seeking authorization to retain a consultant to develop plans for the renovation of Putnam Hall.

I recommend approval.

Sincerely,

Gary North
TO: Dr. Gary B. North, Vice President for Administration

DATE: March 14, 2001

SUBJECT: APPROVAL TO HIRE A CONSULTING ARCHITECT FOR THE PUTNAM HALL REHABILITATION PROJECT

Amended Substitute House Bill Number 640 contains a $4,141,912 appropriation for the rehabilitation of Putnam Hall. Putnam Hall contains 34,400 gross square feet of space, of which, 21,769 square feet are net assignable. In December of 2000, the Child Development Center, which was housed in Putnam Hall, relocated to the newly renovated Horsebarn at the Ridges, thus vacating 7,428 net assignable square feet in Putnam Hall. At present, the Department of Dance occupies 11,920 net assignable square feet in Putnam Hall and the Department of Theater occupies 2,421 net assignable square feet.

This rehabilitation project will involve moving the Department of Film to Putnam into space vacated by the Child Development Center. Currently, the Department of Film occupies 6,988 new assignable square feet in Lindley Hall. The Putnam Hall Rehabilitation Project will also involve building systems upgrades and space rehabilitation for the Department of Dance. This project may also involve the construction of an addition to Putnam Hall to accommodate studio and performance needs.

Because the total budget for this project is only slightly over the $4,000,000 cap for local administration, the University will be seeking approval from the State of Ohio Department of Administration Services and the Board of Regents to manage the work itself, or "locally". The project will be advertised in the Ohio Register and interested
consultants will be asked to respond with a proposal of interest. This office will review the proposals and develop a short list of consultants to interview for the renovation project. This office will be working with Dr. Raymond Tymas-Jones and Facilities Management to assemble an interview committee to assist in identifying an associate architect. It is my hope that we will be able to conduct these interviews toward the end of May 2001.

I am writing to ask that you present the enclosed resolution for consideration by the Board of Trustees at their regular meeting of April 6, 2001 so that this office may proceed with the hiring of a consultant and the development of construction documents for the facility's rehabilitation. If you have any questions or concerns regarding this item, please let me know. Thank you.

JKK/sw/Putnam301trustees.GN

enclosure

pc: Dr. Sharon S. Brehm
    Dr. Raymond Tymas-Jones
Vice President Gary North presented and Mr. Goodman moved approval of the resolution. Mr. Brunner seconded the motion. All voted aye, excepting Trustee Snyder who abstained. Following approval of the resolution, Vice President Dick Siemer reported on the status of planning and construction of improvements at the Bush Airport.

APPROVAL OF CONSTRUCTION DOCUMENTS FOR THE C. DAVID SNYDER TERMINAL BUILDING PROJECT

RESOLUTION 2001-1765

WHEREAS, Ohio University has successfully secured funding and Federal Aviation Administration approval to plan an extension of the airport's runway and parallel taxiway, and

WHEREAS, Ohio University is currently developing final plans for the runway and taxiway extension, and indications are that the Federal Aviation Administration will fund the extension construction, and

WHEREAS, the runway extension will promote economic development in the region which will require an improvement in services provided at the airport that are not possible to provide in the existing administration building, and

WHEREAS, Ohio University has secured funding for a new administration building through private donations and the 2001 Bond Issue, and

WHEREAS, Ohio University did select the firm of Schorr & Associates, Architects, Ltd as the associate architect for the project, and

WHEREAS, final plans and specifications are being completed, and the University is preparing to advertise for construction contracts.

NOW, THEREFORE, BE IT RESOLVED that the Ohio University Board of Trustees does hereby approve the plans and specifications for the C. David Snyder Terminal Building Project.

BE IT FURTHER RESOLVED that the Ohio University Board of Trustees does hereby authorize the advertisement for and receipt of bids for the C. David Snyder Terminal Building Project, and does empower the President or his designee to accept and recommend award of construction contracts, provided the total bids do not exceed available funds.

Dear Bob:

Funds have been secured, thanks in large part to the generous support of Trustee David Snyder, to build a new airport terminal. Planning for the facility is now completed and John Kotowski is seeking approval of documents for the C. David Snyder Terminal Building project. John requests authorization to seek bids and award a construction contract for the project.

I recommend approval.

Sincerely,

[Signature]

DATE: March 14, 2001  

SUBJECT: APPROVAL OF CONSTRUCTION DOCUMENTS FOR THE C. DAVID SNYDER TERMINAL BUILDING PROJECT  

Ohio University has successfully secured a grant to acquire property and hire a consultant to develop plans to extend the existing runway and parallel taxiway. Planning is currently underway, and all indications are that the Federal Aviation Administration will provide the necessary federal funding to construct the runway extension in the next fiscal year. The extended runway will help to open up Southeastern Ohio to future development and growth. With that growth we anticipate that airport business will increase, and thus generate a need to improve services at the airport. Increased growth and services cannot be accommodated in the existing airport administration building.

As a result of this identified need, this office has been working with the airport operations personnel, the Vice President for Finance, and Schorr & Associates, Architects to develop plans and specifications for the construction of a new airport administration/terminal building. This building will provide areas for airport administrative offices, facilities for pilots and airport linemen, a passenger waiting area, and space for a future commuter airline. This building will contain approximately 6,500 square feet of floor area, and has a projected cost of $1,500,000. Funding for the project has been identified from private donations and the 2001 Bond Issue.

The plans and specifications are nearly complete, and the project is close to being ready to advertise for construction contract bids. I am writing to seek support to proceed with this project. Toward that end, I have enclosed a resolution for consideration by the Board of Trustees at their regular meeting of Friday, April 6, 2001 that seeks approval of the plans and specifications and authority to award construction contracts so long as total bids received do not exceed the available funding.
I will provide a set of construction documents early the week of April 2, 2001 for use at the Board Meeting. If you have any questions or concerns regarding this matter, please let me know. Thank you.

APPROVAL OF CONSTRUCTION DOCUMENTS FOR HUMAN RESOURCES OFFICE/TRAINING CENTER PROJECT

RESOLUTION 2001- 1766

WHEREAS, Ohio University has a need to develop training and professional development facilities to better prepare staff to meet the needs of their jobs, and to help them grow professionally with the institution, and

WHEREAS, there is also a need to provide better facilities that are more accessible for employees of the University Human Resources unit, and

WHEREAS, funding for this project has been identified from several sources, including State Capital funding, 1999 Bond Issue, 2001 Bond Issue, and local funds, and

WHEREAS, Ohio University did select the firm of Robert S. Davis, Ltd as the associate architect for the project, and

WHEREAS, final plans and specifications are being completed, and the University is preparing to advertise for construction contracts.

NOW, THEREFORE, BE IT RESOLVED that the Ohio University Board of Trustees does hereby approve the plans and specifications for the Human Resources Office/Training Center Project.

BE IT FURTHER RESOLVED that the Ohio University Board of Trustees does hereby authorize the advertisement for and receipt of bids for the Human Resources Office/Training Center Project, and does empower the President or his designee to accept and recommend award of construction contracts, provided total bids do not exceed available funds.

ASSISTANT VICE PRESIDENT FOR FACILITIES PLANNING
E-MAIL: kotowski@ohio.edu

TO: Dr. Gary B. North, Vice President for Administration

DATE: March 14, 2001

SUBJECT: APPROVAL OF CONSTRUCTION DOCUMENTS FOR THE HUMAN RESOURCES OFFICE/TRAINING CENTER PROJECT

In April of 1999 approval was granted by the Board of Trustees to hire a consultant for a Conference/Training Center to be located at the Ridges, and in December of 1999, approval of construction documents was also granted. Prior to receipt of bids, it was determined that the Ridges project did not suit the immediate needs of the University. The project was then redefined, with new office space for University Human Resources added to the program, and the project site relocated to a newly acquired site on West Union Street (the old Athens Lumber property). Pursuant to that decision, in December of 2000, the Board approved the continuation of Robert S. Davis, Ltd as the associate architect for the modified project.

The new facility will be a two-story structure with a total floor area of 25,400 square feet. It will contain offices for University Human Resources, training spaces for the Vice President of Administration Professional Development program, and training spaces for Facilities Management. The anticipated cost for the project, including equipment, furnishings, and design fees is $4,468,000. Of this amount, $611,400 is the available balance from the 1999 Bond Issue, $170,000 from local resources, $1,000,000 from State Capital dollars, and $2,686,600 from the 2001 Bond Issue.

The plans and specifications are nearly complete, and the project is close to being ready for advertisement for construction contract bids. I am writing to seek support to proceed with this project. Toward that end, I have enclosed a resolution for consideration by the Board of Trustees at their regular meeting of Friday, April 6, 2001 that seeks approval of the plans and specifications and authority to award construction contracts so long as total bids received do not exceed available funding.
I will provide a set of construction documents early the week of April 2, 2001 for use at the Board Meeting. If you have any questions or concerns regarding this matter, please let me know. Thank You.

ADOPTION OF FACULTY/STAFF ENTREPRENEURIAL LEGISLATION RULE

RESOLUTION 2001 - 1767

WHEREAS, the Ohio General Assembly passed and Governor Taft signed SB 286 last year, which was effective December 16, 2000, and amended Section 3345.14 ORC, and

WHEREAS, this legislation was generally referred to as the faculty and staff entrepreneurial initiative, and it was designed to allow Ohio state colleges and universities faculty and staff members to hold equity interests in companies that commercialize their university research, and comport this goal with other provisions of Ohio ethics laws, and

WHEREAS, a provision of the legislation called for the Ohio Ethics Commission to approve a "model rule" for such arrangements for all state colleges and universities, which has now occurred.

NOW THEREFORE, BE IT RESOLVED, that Ohio University establish a policy and procedure for "Employee Participation for Authorized Private Companies Commercializing Ohio University Research," and authorize the President, Provost, and Vice President for Research to monitor its implementation and operation in consultation with Ohio University's governance procedures including reviews with the Faculty, Administrative, and Classified senates.
DATE: March 13, 2001

TO: The President and Board of Trustees

FROM: John F. Burns, Director, Office of Legal Affairs

SUBJECT: Approval of Employee Participating in Authorized Private Companies Commercializing Ohio University Research

Last year the Ohio General Assembly passed and Governor Taft signed SB 286, which was generally referred to as the faculty and staff entrepreneurial initiative. This legislation was designed to help recruit and retain faculty at Ohio State colleges and universities by clarifying and clearly authorizing these employees to hold equity positions in companies that desire to commercialize their university’s technology. In most cases, a faculty member has been a principal investigator or has been named on a patent, which is owned by the college and university under Ohio law.

The new legislation was drafted to be an exception but also complimentary to Ohio ethics laws and opinions of the Ohio Ethics Commission; and the Ohio Ethics Commission was authorized to approve a “model rule” for all the state colleges and universities, which they have done. It is also important to note the new legislation and the new Ohio University policy comports with other related Ohio University policies and procedures dealing with conflicts of interest, conflicts of commitment, and program administration of sponsored research programs.

The statutory authorization calls for the board of trustees of a state university to approve each university’s “rule” based on the “model rule”; and the new Ohio University Policy and Procedure is attached for your review and consideration for adoption. You will note the date of April 9, 2001 is be the issue date, if approved by the board of trustees, and the policy will be issued by Dr. John A. Bantle, Vice President for Research, who has the main responsibility for administering the policy. We have also notified the chairs of the Faculty, Administrative and Classified Senates of the policy and that its adoption is based on the “model rule” approved by the Ohio Ethics Commission; and we will be monitoring application of the policy in consultation with the universities governance procedures including the Senates.
Thank you and Dr. Bantle and I will be available at the board meeting to answer any questions about this matter.

JFB:ndw

Enclosures

cc: Dr. Alan H. Geiger, Secretary to the Board of Trustees
    Dr. John A. Bantle, Vice President for Research
### Purpose:

Policy:

1. **Applicability**

This policy applies to all employees, faculty, staff and students, who create intellectual property owned by the Ohio University and who desire to hold an equity interest in a firm, corporation, or other association to which Ohio University has assigned, licensed, or transferred, Ohio University's interests in discoveries or inventions made or created by that employee or in patents issued to that employee (hereinafter “Company”) commercializing their research in accordance with § 3345.14 ORC. Ohio University’s interests are governed by OU Policy 17.001, Intellectual Property Ownership And Disposition, And Employee Involvement In Research Commercialization.

This policy serves as an exception to the Ohio Ethics Law and related statutes [Chapter 102, § 2921.42 ORC, § 2921.43 ORC], which might otherwise apply. Matters outside the scope of this policy will be subject to such laws to the extent applicable.

2. **Conflicts of Commitment**

With the acceptance of appointment to Ohio University, an individual makes a commitment to Ohio University that is understood to be the primary commitment in the most inclusive sense. Employees are encouraged to develop discoveries and inventions with commercial potential; however, they should do so with due regard to the broader teaching and research mission of Ohio University. The members of the faculty and staff are expected to devote their primary professional loyalty, time and energy to their teaching, research, and administrative responsibilities. Accordingly, they should arrange their outside consulting activities and authorized private business activities so as not to interfere with the primacy of these commitments. Similarly, faculty or staff should not allow their interest in a financial opportunity arising out of their research efforts to interfere with their relationships with other faculty, staff and/or students. Specifically, research assignments for students must be selected solely on the basis of the students' interests academic development, and degree requirements.

Ohio University recognizes that its faculty may engage in outside consulting work, and to the extent these activities serve or do not interfere with the university's interests as well as those of the faculty member, Ohio University approves of such involvement under the provisions outlined in the Faculty Handbook, IV-D Participation in Outside Work or, as required, by Ohio University Policy and Procedure No. 10.058, Conflict of Interest in Research, Educational, and Public Service Activities.
While faculty are permitted by this policy to engage in authorized private business activities relating to their Ohio University positions, they continue to be primarily responsible for the performance of all of their teaching, research and service obligations. Authorized private business activities must not be allowed to interfere with the performance of any of their Ohio University responsibilities and must be undertaken in pursuit of the provisions of the Faculty Handbook and a formal conflict of interest management plan between the faculty, company and Ohio University and approved by the vice president for research and the dean of the college or regional campus.

Staff who hold full-time administrative or staff appointments are expected to devote their full-time professional loyalty, time and energy to their position. Staff members may pursue research projects as authorized by their supervisors and only in those cases when the project will advance the missions of the Ohio University and the employing unit, without regard to the financial interests of individual employee. Staff members may not perform research activities of any kind during Ohio University working hours unless as a part of a sponsored research agreement with the private business. The activity is then considered Ohio University research. These activities, if determined to be significant by the vice president for research, must not interfere with the performance of any of the staff member’s Ohio University responsibilities and must be undertaken pursuant to a conflict of interest management plan between the Staff member, company and Ohio University and approved by the vice president for research and employee’s planning unit head.

3. Faculty Reporting of Business Activities

Private business activities that may relate to a faculty member’s Ohio University research, whether assigned or not, shall be reported in writing to the vice president for research and dean of the college. Decisions concerning the scope or management of an employee’s private business activities and his or her Ohio University research shall be made by the vice president in consultation with the dean of the college.

Private business activities that are not subject to this policy because they are unrelated to the employee’s Ohio University research may be nevertheless subject to other Ohio University policies on paid external consulting, conflicts of interest and commitment, and/or patents and copyrights. Deans, in consultation with department chairs or school directors, or, as appropriate, planning unit heads in consultation with the supervisor, are responsible for enforcing the Ohio University Policies.
Private business activities that are not subject to this policy because they are unrelated as a faculty member’s Ohio University research, and that do not fall within the definition of approved consulting activities may not be performed during Ohio University working hours in accordance with applicable Ohio University policies. Ohio University facilities, equipment or other resources may not be used in connection with these activities except as expressly authorized under a written contractual agreement between Ohio University and the employee and/or company.

4. Approval Process

Faculty and staff must obtain written approval from the vice president for research and a conflict of interest management plan must be in place before any business agreements related to the commercialization of their Ohio University research are finalized. A conflict of interest management plan will address the following expectations:

- **Management of University Obligations:** The roles and responsibilities of the faculty member to the department or unit, e.g., teaching loads, committee assignments, etc., will be described in sufficient detail to ensure a fair assessment of the performance of the employee in meeting their obligations.

- **Management of Start-Up Companies:** Faculty members may hold temporary management positions in start-up companies commercializing their research. While they may initially find it necessary to play a management role in a newly formed company, it is expected that their management responsibilities will decrease as the company develops. Professional management should be brought in at the earliest opportunity. Agreements between the Ohio University and start-up companies should contain enforceable milestones for the reduction of these management responsibilities. Failure to comply with these agreed-upon milestones may result in the company’s inability to engage in sponsored research, utilize student employees, or other penalties in the commercialization agreements and/or activities permitted under this policy.

- **Management Positions in Existing Companies:** A faculty member who acquires interest in a previously established company that contracts with the Ohio University to commercialize his or her research should not serve as a director, officer or employee of that company.
Student Research Within the Ohio University: Graduate and undergraduate students may use Ohio University facilities, equipment and other resources to perform research benefiting a company in which an employee has an interest only pursuant to a sponsored research agreement.

Student Employment With the Company: Except as provided for below, students may be employed by companies in which faculty members hold an interest. Prior to such employment, the student, the employee, the chair of the student’s department, the chair of the graduate studies committee, and a company representative not the employee must sign an agreement that clearly sets forth the roles, rights, and responsibilities of the respective relationships.

Employment of Students Academically Involved with Faculty Member Owners of the Company: A student may not be employed by a company in which a faculty member has an interest if (a) the student is enrolled in a course taught by the faculty member, (b) the faculty member is a member of the student’s thesis or dissertation committee, or (c) the faculty member is the student’s advisor or the director of his or her thesis or dissertation research. Such students may perform research benefiting a faculty member-owned company only pursuant to a sponsored research agreement or formal internship agreement through the Ohio University.

Limitation of Equity Ownership: While significant employee equity ownership approved by Ohio University may be inherent in a newly formed company, it is expected that their ownership interests, as a percentage of the total outstanding shares or financial interests of the company, will decrease as the company develops and attracts additional investment. A faculty members equity interests shall not exceed ultimately 25% of the company’s total outstanding shares or financial interests. Any agreements between the Ohio University and start-up companies should contain enforceable milestones for the dilution of these equity interests. Alternatively, a timed exit strategy can substitute for an equity dilution plan. Failure to comply with these agreed-upon milestones may result in the company’s inability to engage in sponsored research, employ students, or other penalties in the commercialization agreements and/or activities allowed-for under this policy.
Reporting: The relationship between the faculty member, company and Ohio University will be disclosed in any applications to a federal or state agency supporting research in the same field of use, broadly defined, as covered by a sponsored research or licensing agreement.

Department chairs or other appropriate Ohio University supervisors are responsible for ensuring that faculty member participating in authorized private business activities continue to perform all of their teaching, research and service obligations as outlined in the conflict of interest management plan. Deans, in consultation with department chairs or school directors, or, as appropriate, planning unit heads in consultation with the supervisor, are responsible for enforcing the Ohio University policies.

5. Annual Review

Each year on the anniversary of the agreement, the vice president for research in consultation with the dean or planning unit head will conduct an assessment of the employee performance under conflict of interest management plan. The department chair or planning unit head will provide a written assessment of the employee's performance of their teaching, research and service obligations as outlined in the conflict of interest management plan. A review of the company's performance focused on the achievement of milestones including but not limited to the reduction of management responsibilities for the employee, the dilution of employee equity interests, patents filed, etc., will be a part of the annual assessment. At the discretion of the vice president for research and the dean of the college, a faculty advisory committee may be convened to provide advice and counsel to the vice president and dean to assist in the assessment of the performance of the faculty member to meet his/her obligations under the conflict of management plan.

Failure to meet the goals outlined in the conflict of interest management plan will result in defined actions prescribed by the vice president for research in consultation with the dean or planning unit head that may include but are not limit to revisions in the management plan, changes in the sponsored research or licensing agreements, or other remedies that ensure the employee meets their commitments to Ohio University.

6. Agreements with Start-up Companies

Companies may not enter into any agreements with the Ohio University relating to the commercialization of an employee's research until final written approval from the vice
president for research is obtained. Employees who wish to participate in a start-up company may discuss initial company formation matters with the vice president for research; however, they should not participate in the ongoing negotiation of options and licensing terms between the company and Ohio University. As soon as possible, third parties, such as company management and/or legal counsel should perform this function. A company wishing to obtain a license from Ohio University may be required to provide Ohio University with a viable business plan including, at a minimum, the following: 1) a capitalization plan addressing the acquisition of additional capital and the equity dilution of the employee's ownership interests 2) a proposed management team and 3) milestones for capitalization, product development, and commercial sale.

7. Regulatory Review Boards

Ohio University's regulatory review boards including, for example, the Institutional Review Board for Human Subjects Research and the Institutional Animal Care And Use Committee, may be utilized for research benefitting a company in which an employee has an interest only pursuant to the establishment of a contractual agreement to manage the review of the activity and the payment of a fee by the company to Ohio University.

8. Use of Ohio University Facilities. Ohio University facilities, equipment and other resources may be used for research benefitting a company in which an employee has an interest only pursuant to a sponsored research agreement, facilities use agreement or other appropriate contractual arrangement in accordance with Ohio University policies.

9. Leave to Pursue Private Business Activities

Employees should not allow their management activities with newly formed companies commercializing Ohio University research to consume a disproportionate amount of their professional attention. Employees engaged in approved private business activities who are unable to perform all of their Ohio University responsibilities are encouraged to consider a reduction of appointment or other approved leave mechanism. Professional Improvement Leaves available under § 3345.28 ORC shall not be used for private business purposes.
10. **Contracts Unrelated to Technology Development**

Companies in which employee hold an interest may enter into agreements with the Ohio University unrelated to research or technology development for the purchase, sale or rental of equipment, supplies, or services only to the extent not prohibited by state law.

11. **Investments by Employee Not Involved with Development of the Technology**

Employee who are not directly involved with research and development of technology licensed to a employee owned start-up company may hold equity interests in that company only to the extent not prohibited by Chapter 102 ORC and § 2921.42 ORC and § 2921.43 ORC.

12. **Intellectual Property**

Employee participating in start-up companies approved pursuant to these guidelines continue to be bound by the Ohio University Policy on Patents and Copyrights. New inventions and/or discoveries made as a result of a employee's research efforts for the company, including those made under formal consulting agreements, will be owned by the Ohio University. New inventions and/or discoveries developed by the employee for the company must be disclosed in writing according to Ohio University Policy and Procedure # 17.001, Intellectual Property Ownership And Disposition, And Employee Involvement In Research Commercialization.

13. **Principal Investigators**

Faculty or staff members may not assume the role of principal investigator in clinical trails funded by technology commercialization companies in which they have an interest if the projects involve the use of human subjects. In other cases, faculty or staff may assume the role of principal investigator if a formal conflict of interest management plan approved by the vice president for research, dean of the college or regional campus, the director of the Office of Compliance, and the Office of Legal Affairs is in place.
14. Sponsored Research Agreements

Agreements for sponsored research projects funded by technology commercialization companies must include, at a minimum, a requirement for full University publication rights and fully negotiated direct and indirect cost recoveries. The vice president for research must approve exceptions to these conditions.
Trustee Snyder moved approval of the resolution. Mr. Browning seconded the motion. Approval was unanimous.

HONORARY DEGREE AWARDS

RESOLUTION 2001 – 1768

WHEREAS, the University Committee on Honorary Degrees has recommended that Ohio University honor the persons listed below through the conferral of an honorary degree,

Mr. Sang-Hoon Bang
Professor Dr. Volker Bigl
Mr. Nelson Mandela
Mr. Thomas Mapfumo

AND WHEREAS, it remains for the President to determine whether these persons wish to accept the awards.

NOW, THEREFORE, BE IT RESOLVED that the degrees recommended be conferred at appropriate times in the future after the President has determined the persons recommended wish to be honored.
President Robert Glidden
108 Cutler Hall
Ohio University
Athens, Ohio 45701

Dear President Glidden,

The Ohio University Honorary Degree Committee is pleased to unanimously nominate the four following individuals whose achievements more than qualify them for an honorary degree from Ohio University:

Mr. Nelson Mandela, former President of South Africa

Mr. Mandela was nominated by Stephen Howard, Associate Professor and Director of African Studies. The nomination was supported by a letter from Provost Sharon Brehm, and according to Professor Howard, Mandela was the choice of the Senior Class Council. The nomination letter included the following:

Nelson Mandela, imprisoned by the South African government from 1964 to 1990, was the enduring symbol of the struggle of his people and the mastermind of its ultimate success. Thousands of Ohio University undergraduate and graduate students were exposed to the words and deeds of Mandela as African Studies grew across the curriculum...The award of an honorary doctorate to Nelson Mandela would send appropriate messages about the University's values and priorities, and in addition, serve us well in important constituencies throughout the state and nation...And when he emerged from prison, after negotiating his own release with the white regime, he assumed the leadership of the political discussions that led to the establishment of the democratic government South Africa has today. The country has now gone through two democratic presidential elections and many regional and local democratic elections. Nelson Mandela has taken up the mantle of global statesman in his retirement, traveling throughout Africa to investigate human rights abuses.
Mr. Sang-Hoon Bang, Publisher of Chosun Ilbo

Mr. Bang was nominated by Kathy A. Krendl, Dean of the College of Communication. The nomination included the following:

As Publisher, President and CEO of Korea's largest daily newspaper Chosun Ilbo (circulation > 2.5 million), Sang-Hoon Bang encourages the dissemination of pro-democratic principles. As Vice President of the Korea Committee of the International Press Institute (IPI), Bang draws international attention to government pressure on state media to report favorably on government leaders and policies. The IPI stands for independent news reporting and editing at public broadcasting companies, an end to Internet restrictions that infringe on freedom of the press, monitoring of the media by international organizations and safety for journalists in the Middle East. As CEO and President of the Korea Database Promotion Center, Bang supports information use by the general public. Mr. Bang has previously received the Missouri Honor Medal for Distinguished Service in Journalism in 1998, and the United Nations Environmental Program's Global 500 Award for coverage of environmental issues in 1994. Mr. Bang served as the Korean Alumni Association as Honorary Chairman in 1995.

Prof. Dr. Volker Bigl, Rector, University of Leipzig

Dr. Bigl was nominated by Robert Stewart, Associate Professor of Journalism. The nomination included the following:

Dr. Bigl has published over 180 research papers in the field of neurochemistry and is a member in good standing of the following medical and research organizations: International Brain Research Organization, European Society for Neurochemistry, Neurowissenschaftliche Gesellschaft, Gesellschaft fuer Biologische Chemie. Through his work as a doctor, scientist, teacher, and university administrator, Prof. Dr. Bigl has strived to improve the opportunities to study and undertake important research efforts on behalf of humankind. He has worked hard to bring reforms to one of the most important institutions of higher learning in the former East Germany, indeed, to transform it into one of the leading academic institutions in a united Germany. Dr. Bigl has been a great friend to Ohio University since becoming Rector on the University of Leipzig in 1997. His support for the Ohio Leipzig European Center (OLEC), and his desire to bring the two universities closer to the benefit of students and faculty at both institutions is highly commendable, and highly favorable for Ohio University.

Mr. Thomas Mapfumo, founder of the band, Blacks Unlimited

Mr. Mapfumo was nominated by Stephen Howard, Associate Professor and Director of African Studies and the nomination was strongly endorsed by Raymond Tymas-Jones, Dean, College of Fine Arts. The nomination included the following:

Thomas Mapfumo, born in Zimbabwe in 1945, has been a full time singer since the early 1970s to the present. He is founder of the band, Blacks Unlimited and universally noted for his contributions through song to the liberation of Zimbabwe and Africa in general, and for his world-wide popularization of mbira music. His music has always been about liberation and emancipation of the Zimbabwean people. Although his music was originally written to defeat the country's white minority rules, his latest freedom songs have been banned in Zimbabwe for...
criticizing President Robert Mugabe's ZANU PF party. He also joined hands with popular world musicians like Paul Simon, Youssso Ndour (Senegal), Bruce Springsteen in 1987 during a Human Rights Concert in Harare, Zimbabwe. Popularly known as the Lion of Zimbabwe or the Bob Marley of Zimbabwe, Thomas Mapfumo has demonstrated unique humane, social and community commitment through his music. He was active in determination to overthrow the Ian Smith's racist regime, yet quick to identify similar injustices in Mugabe's ZANU PF government. Only a few musicians have accomplished such a feat. Mr. Mapfumo has played a significant role in the development of African music over the last 30 years and has demonstrated that the artist can have a major impact on social transformation. Mr. Mapfumo is a hero to both the politically oppressed of Africa and to lovers of contemporary African music around the world. It is appropriate that Ohio University honor Thomas Mapfumo at this time as our own connections with the African continent become stronger. We have the unique Institute for the African Child on this campus and our African Studies Program is a National Resource Center for African Studies. The arts are becoming an important part of the Africa agenda at Ohio University and honoring an important black African cultural figure at this time would signal our seriousness in that endeavor. Mr. Mapfumo has recently found a base in Eugene, Oregon where he serves as an icon and symbol for liberty and justice to the oppressed Zimbabweans and Africans.

In addition, should the proposed candidates come to Athens for the Honorary Degree, the Committee would like to suggest that it would be useful to have a reception or gathering for each of the honorees where a selected mix of students, faculty and administrators could have an opportunity to interact with the distinguished degree recipients. This would help establish Ohio University in the mind of the recipients and would serve as a direct example of the important international role played by Ohio University.

Sincerely yours,

Louis E. Wright, Professor of Physics and Chair of the Honorary Degree Committee for 2000-2001

PRESIDENT'S OFFICE
MAR 27 2001
VIII. GENERAL DISCUSSION - CALL OF MEMBERS

Mr. Goodman stated that the privilege of being a Trustee has been an extraordinary experience for him and Elaine. He noted his disappointment with the local media's characterization of Trustees as being unconcerned with local issues and indicated it was his belief that all Trustees do care and attempt to balance all interests. He noted his appreciation of the recent awarding of national scholarships to our outstanding students and thanked the Foundation for its financial support. He noted his growing admiration for Student Trustees and their many contributions to the University and Board. He concluded by thanking all for their support, congratulated Student Trustee Basora and wished the University well.

Mr. Snyder congratulated Mr. Goodman on his good work and said that he enjoyed their time together. He noted Mr. Basora's commitment, high energy, and likelihood for success.

Ms. Vargas-Tonsi stated it had been a pleasure working with Mr. Goodman, and that Deland Basora had been an exceptional role model for her. She commented she enjoyed attending the ABG conference in San Francisco.

Mr. Walter noted that the departures of Mr. Basora and Mr. Goodman from the Board offer a time to focus on transition. He said he believed that Student Trustee Basora gained as much as he gave and offered his admiration of Mr. Goodman's dedication to service. Mr. Walter added that, like a NASCAR driver, he had become accustomed to "drafting" to Victor's attention to detail as Trustee discussions unfolded.

Dr. Burke thanked Deland and Victor for their good service and indicated he enjoyed working with them.

Mr. Brunner thanked Mr. Basora for the high standard of student trusteeship he has set and noted that Mr. Goodman has been a superb colleague. He thanked Dean of Arts and Sciences Leslie Flemming for the presentation on Thursday by her faculty and students. Mr. Brunner complimented those responsible for the fine state of our physical facilities.

Mr. Browning stated the health of the University was good, in the hands of good people - and that the University is a place with momentum.

Mr. Basora thanked everyone for their kind comments about him and his trusteeship. He commented this University does a lot of things right and that he is pleased he chose Ohio University. He thanked Board Secretary Alan Geiger and Student Senate President Jim Hintz for their encouragement and support.
Mr. DeLawder wished retiring Trustees Goodman and Basora well, and noted he enjoyed, in his short time, the opportunity to serve with them. He, too, thanked Dean Flemming for her college presentations.

Mrs. Ong stated she would not say "goodbye," but "au revoir" to Deland and Victor. She again noted the good experience she had in attending the recent AGB Conference and thanked Dean Flemming for presenting the liberal arts side of the College of Arts and Sciences.

President Glidden presented retiring Student Trustee Deland Basora with a certificate of appreciation for extraordinary service. The President wished Deland well along with retiring Trustee Victor Goodman. He noted Provost Sharon Brehm was absent today and in Bloomington, Indiana to be appointed by Indiana University Trustees as their new Chancellor and Vice President for Academic Affairs.

Chairwoman Ackerman complimented Vice President Michael Sostarich and all those that assisted him in turning the tide of the negative publicity associated with the day-light-savings time change. She thanked Dean Flemming for arranging presentations by members of her college and expressed her interest in seeing the Women's Studies program expanded. She thanked Vice President Siemer and Darrell Winfordner, along with others giving reports today. Dr. Ackerman thanked retiring Trustees Basora and Goodman for their service and noted a sense of loss in their retirement.

IX. ANNOUNCEMENT OF NEXT STATED MEETING

Chairwoman Ackerman announced the Board of Trustees would meet next on Thursday, June 28, 2001, for committee/study sessions and Friday, June 29, 2001, for the formal board meeting.

X. ADJOURNMENT

Determining there was no further business to come before the Board, Chairwoman Ackerman adjourned the meeting at 11:45 a.m.
XI. CERTIFICATION OF SECRETARY

Notice of this meeting and its conduct was in accordance with Resolution 1975 - 240 of the Board, which resolution was adopted on November 5, 1975, in accordance with Section 121.22(F) of the Ohio Revised Code and of the State Administration Procedures Act.

Patricia A. Ackerman
Chairwoman

__________________________
Alan H. Geiger
Secretary
On a motion by Mrs. Ong and a second by Mr. Goodman, the Ohio University Trustees resolved to hold an executive session to consider personnel under Section 121.22(G)(1), real estate matters under Section 121.22(G)(2), and litigation or the threat thereof under Section 121.22(G)(3) of the Ohio Revised Code on this the sixth day of April 2001.

On a roll call vote Dr. Ackerman, Mr. Brunner, Mr. Browning, Mr. DeLawder, Mr. Goodman, Mrs. Ong, Mr. Snyder, and Mr. Walter voted aye. This constituted a quorum. President Robert Glidden and Board Secretary Alan Geiger attended the session. Also attending were John Burns, Nikki Dioguardi, Charles Gander, and Dick Siemer.

Personnel

No personnel matters were considered.

Real Estate

Mr. Burns provided an update of developments associated with the East State Street property and the Courtyard student housing projects.

Litigation

Legal Counsel John Burns reviewed the status of changes to the litigation report and Ms. Dioguardi reviewed a prevailing wage matter affecting the University.
