

# Healthy Business Council of Ohio 2023 Healthy Worksite Recognition Program

## Preparation Document

*Please note: This document is not the application. All applications must be submitted online. This document outlines the questions within the online application form to allow for preparation of your submission.*

*While the online application form does allow users to save and return to their application, not all employer sites allow for the use of this feature due to corporate security measures. Therefore, we do recommend that applicants utilize this document to prepare for their submission rather than relying on the save feature.*

**The online application will be available at the following URL from July 1, 2023- November 30, 2023:**

<https://healthactioncouncil.org/HBCO/Healthy-Worksite-Awards>

**Please note: There will be no deadline extensions offered in 2023.**

### **Purpose of the Healthy Worksite Recognition**

The Healthy Worksite Recognition program recognizes Ohio employers that demonstrate a commitment to employee wellbeing by incorporating comprehensive worksite health promotion and wellness programs. It acknowledges efforts to facilitate and encourage employee health, enhance productivity and ensure a healthy work environment.

This recognition is structured as a designation program. All respondents will be assigned a score based on their responses and receive the distinction to which their score aligns. As such, all worksites in the state of Ohio should feel encouraged to apply for this recognition since it is not a competitive award process.

In 2023, the program title changed from Healthy Worksite Award to Healthy Worksite Recognition to better illustrate the program's structure and intention. The word "award" suggested exclusivity that deterred some worksites from applying. The Healthy Business Council of Ohio determined that "recognition" offered a more inclusive experience for all Ohio worksites.

## **What is the Healthy Business Council of Ohio?**

The Healthy Business Council of Ohio (HBCO) and its seven statewide regional councils are a group of Ohio companies sharing best practices for a healthy workforce and a healthy economy. These companies have made a commitment to employees by incorporating comprehensive health promotion and wellness programs into their worksites. Council members realize that healthy employees make a positive impact.

## **Eligibility**

All worksites in the state of Ohio, regardless of size or status (i.e., public, private, for-profit, non-profit) are encouraged to apply for the recognition. Worksites with out of state headquarters that have remote employees in Ohio or regional offices in the state of Ohio are eligible to apply. In these cases, please respond in regard to the services available to the Ohio-based employees only.

## **Application Scoring**

All applications received by the deadline will be scored by the HBCO Worksite Recognition Committee. Recognition is determined based upon total points achieved for indicated employer size. Businesses will be notified on recognition status in December. Questions that are not scored are noted as such in the application. Applicants are asked to complete all questions, though, as results are utilized as examples to support other Ohio-based businesses as they work to advance their workplace health and wellness promotions.

The possible points earned for each question are provided in this PDF. Points are allocated based on trends and issues within workplace wellbeing and subject to change annually as industry standards, priorities and offerings evolve.

## **Levels of Achievement**

Applications will be judged in three groups: small employers (fewer than 300 employees), medium employers (301-1000 employees), and large employers (1001 or more employees). Five levels of achievement will be designated within each size group based on points scored: Platinum, Gold, Silver, Bronze or Recognition.

## **Ohio Department of Health Cancer Recognitions**

The questions about the cancer screenings available to employees at your worksites were asked as a direct response to the Ohio Department of Health's desire to address cancer support resources available throughout our state. The top worksites that provide

positive responses to these questions will be given a special designation from the Ohio Department of Health, in addition to their overall Healthy Worksite designation. Data regarding worksite offerings in relationship to cancer screenings will be provided to the Ohio Department of Health so they can better assess statewide availability of programming.

### **Removal of Pandemic Response Section**

In 2023, the Pandemic Response section was removed due to the expiration of the COVID-19 Declaration on May 11, 2023. While we recognize that COVID-19 will continue to be considered by worksites as they manage their workplace wellbeing programming, it was determined – based on this formal expiration and responses from the 2022 application – that many worksites are no longer operating primarily in response to the pandemic and, in some cases, have returned to pre-pandemic operations (or, defined a new normal).

### **Recognition Ceremony**

Public recognition will be provided to all applicants at the annual recognition ceremony which will take place in early 2024. Format (in-person versus virtual), location, date, and time will be determined in Fall 2023 and announced to all recognition designees via email in December.

All healthy worksite designees will be invited to attend and will receive recognition through news releases to area media. An online social media toolkit will be provided to all recognition designees so they may appropriately market their successes. Statewide recognition will be achieved through continuous publication of the list of recognition designees on the Ohio Department of Health website and the Health Action Council website for the duration of the recognition period. Please note that, as of 2022, plaques and certificates are no longer provided to recipients. A printable certificate is available on the social media toolkit.

### **How to Apply**

Complete the self-assessment application online by 11:59 p.m. on November 30, 2023. There will be no deadline extensions offered in 2023.

Upon submission of your application, the primary contact will receive a confirmation email containing all of your survey responses. Please retain a copy of this email for your records.

### **Preparation of Application**

We encourage all worksites to utilize this PDF as their application workbook in advance of submitting their award application online. This will allow a way for worksites to advance toward accomplishing their wellbeing goals, tracking progress and receiving supervisor approval prior to submission.

### **Saving an Incomplete Application**

Once a respondent has begun to complete the online assessment, the survey software will utilize cookies to automatically save your responses so you can then return to the assessment at a later date. We recommend saving the assessment URL in your bookmarks so you can easily access your survey at a later date from the same computer/IP address.

This is an imperfect technology and we, therefore, encourage applicants to, instead, utilize this PDF as they prepare their application so they may submit their application in one sitting. Some worksites will have strong corporate security measures that automatically delete a saved application.

If you have technical issues with this assessment technology, please contact Annie Laurie Cadmus at [cadmus@ohio.edu](mailto:cadmus@ohio.edu).

### **Add HBCO to your Safe Sender List**

Upon submission of your application, all future communication from the Healthy Business Council of Ohio's Healthy Worksite Recognition Committee will be sent from [HBCOhio@gmail.com](mailto:HBCOhio@gmail.com). Please add this email address to your safe sender list to ensure proper receipt of recognition-related communications.

### **Notice of Use of Data Collected from Applications**

The Healthy Worksite Recognition primarily exists to support the wellbeing programming of worksites throughout the state of Ohio. We, therefore, will collect aggregate data of all submissions and provide such data to the state through a Healthy Worksite Recognition Results document each spring. That document will be generated in an attempt to support benchmarking efforts of our state's employer sites.

While all data that is shared publicly will be aggregate data only (i.e. stripped of business names and contact information), there will be some situations where business, location,

and contact information is shared with the Ohio Department of Health and other governing agencies working to map resources and identify programming gaps within our state. An example of this would be the sharing of cancer screening responses with the Ohio Department of Health as a response to their focus on cancer screening accessibility throughout Ohio.

Any concerns relating to the use of data collected through this recognition program, or any general questions about this PDF or the application, can be directed to the Healthy Worksite Recognition Committee, HBCOhio@gmail.com.

**Innovative Programming, Essay (optional):**

If you feel your organization has produced innovative programming (particularly programming that is replicable, supports diversity/inclusion/social justice and/or addresses multiple dimensions of wellbeing) in the past 12 months, please share the details of your program in essay format. The Healthy Business Council of Ohio will utilize exemplary information shared here to recognize your efforts at regional, state and national meetings, forums, conferences and publications. In some cases, we may contact you for additional details as we work to share success stories that can be recreated at other worksites. This section is not scored. However, we may choose to use information received from this section to highlight worksites' efforts during the

presentation of the awards. You may choose to opt out of this section simply by clicking the arrow on the screen in the online application.

**Submission:**

At this point in the online application, you will be given the opportunity to submit your application by clicking an arrow button. The primary applicant will then be emailed a full summary of the response. Applicants will receive notification of their award status in December.

Online Application: <https://healthactioncouncil.org/HBCO/Healthy-Worksite-Awards>

- The online application is available from July 1, 2023 through November 30, 2023.
- Applications MUST be received through the online submission. Emailed applications will not be accepted.
- Please add HBCOhio@gmail.com to your safe sender list so you receive all communications regarding your award application.
