ACHIEVING WELL-BEING

As a result of chapters participating in the redesigned accreditation program, chapters will experience an increase in efficient chapter operations.

By participating in the updated accreditation program, individual members will experience a deeper connection to the purpose of their organization through activities that are reflective of their sorority/fraternity values.

Well-being is achieved when chapters can communicate their purpose and how it impacts others. Additionally, chapters can set and accomplish worthwhile goals by engaging in meaningful experiences. Well-being also includes when chapters can foster positive relationships by treating each person with respect and engaging in constructive communication, and when they are able to develop a sense of belonging to the larger community.

RESULTS

With COVID-19 transitioning our work and our chapter’s efforts to a virtual format in late February, the results were not to the level that we would have hoped for. However, the redesign of this program started important conversations and identified areas of growth for both chapters and our community.

IMPLICATIONS & NEXT STEPS

Results have shown that our member groups need to focus on basic chapter operations such as event execution, advisory support, financial planning, and meeting organization. We will be adjusting again for the 2020-2021 academic year to align with the virtual experience of our groups and to include a more equitable process for all organizations.

TEAM MEMBERS

- Ariel Tarosky, Director
- Justice Burda, Graduate Assistant
- Jeremy Paul, Graduate Assistant
- Stephen J. Black, Graduate Assistant (New)
- Shelby Gerwin, Graduate Assistant (Past)
- Matthew Rhyand, Graduate Assistant (Past)
