“Sustainability Themed” has been defined to consider both “sustainability-focused” and “sustainability-related” content in an effort to be more inclusive of faculty efforts and to be compliant with national reporting processes.  
- “Sustainability-Focused” courses concentrate on the concept of sustainability, including its social, economic, and environmental dimensions, or examine an issue or topic using sustainability as a lens.
- “Sustainability-Related” courses are courses which incorporate sustainability as a distinct course component or module or concentrate on a single sustainability principle or issue.

Courses:
Sustainability-Themed courses by academic term (includes undergraduate and graduate enrollment at all campuses):

Note: Ohio University transitioned from Quarters to Semesters after baseline data was required by the Sustainability Plan. This data may skew results slightly. Q=Quarter, S=Semester

Majors:
As of FY13, there were over 250 possible undergraduate majors offered at Ohio University. Of those, 15 were defined as “Sustainability-Themed,” allowing for 6% of institutional majors to qualify as sustainable. Those majors included:
- College of Arts and Sciences:
  - Biological Sciences
  - Environmental Biology
  - Marine, Freshwater & Environmental Biology
  - Wildlife & Conservation Biology
  - Environmental Chemistry
  - Applied Plant Biology
  - Environmental and Plant Biology
  - Field Ecology
  - Environmental Geology
- College of Health Sciences and Professions
  - Community Health Services
  - Environmental Health Sciences
- Honors Tutorial College
  - Environmental Studies
- Patton College of Education
- Outdoor Recreation and Education
  - Russ College of Engineering and Technology
    - Chemical Engineering/Biological Track
    - Chemical Engineering/Energy and the Environment Track

Programs:
“Programs” at Ohio University are determined, for the sake of this benchmark, as all entities identified by Ohio University at the following link: http://www.ohio.edu/departments/programs.cfm. Of the 76 entities listed in FY13, one was identified as sustainability-themed (Environmental Studies), allowing for a baseline of 1.3% of institutional programs qualifying as sustainable.
