To ensure equal access to education, accommodations are made for students with documented disabilities relevant to the nature of the disability. By providing this Letter of Notification, the student has initiated their academic accommodations for this course. **Once you have received this request, it is the responsibility of the faculty member to provide the documented accommodations.** It is the suggestion of Student Accessibility Services that you arrange a time to meet with this student to discuss the specific plan for providing accommodations.

Due to the diverse nature of courses at Ohio University it is not possible for us to foresee every nuance of the academic experience. There may be occasions in which additional accommodations are requested for a specific course. Should you have questions or concerns regarding how a particular accommodation applies to your course, please contact me so that I can assist in determining appropriate alternatives if needed.

Approved Accommodations:

- **Reduced Distraction Location for Assessments** -Reduced distraction location for assessments (i.e. exams/quizzes) is expected to provide an environment with fewer distractions/students than what is provided for the entire class.
