8:00 am - 3:30 pm

Quest Conference Center
8405 Pulsar Place, Columbus, Ohio 43240

Register now at http:www.ohio.edu/ce3/ghgrp/

Building upon the state and federal momentum in energy efficiency and emissions management—as well as the successful CE3 Energy Webinar and Workshop Series—this one-day workshop will explore how energy efficiency measures can help Ohio stakeholders achieve their energy cost-savings and emissions goals. New this year, we will have two tracks that allow for in-depth discussion into 1) Efficiency & Emissions and 2) Shale Energy.

Expert speakers will discuss and present case studies on practical topics such as:

• The Corporate Case for Reducing Energy Use
• Energy Projects at Ohio’s Manufacturers
• Shale and Fugitive Emissions: Impacts on Non-Attainment and Growth
• How Natural Gas is Changing Ohio Manufacturing
• Ohio’s Emissions Profile
• U.S. EPA’s Greenhouse Gas Reporting Program
• Energy Efficiency Finance Techniques, Developments & Options

If you have a stake in Ohio’s energy future, join us to advance the discussion about real-world issues affecting Ohio industry.
